

Reading and Writing from Literature

THIRD EDITION

Reading and Writing from Literature empowers students both to study literature and to use literature as a springboard for making texts of their own. By promoting the habits of recursive reading, thinking, and writing, the book develops the analytical skills required of college-bound high school students, including those in the AP® English Literature and Composition course. The book's unique conversational approach to the study of literature makes reading literature more interesting, accessible, and relevant—and also makes writing about what students read more manageable and rewarding.

Drawing from his own experiences in teaching writing and helping students get more out of studying great works of literature, author John Schwiebert has developed an anthology and writing text that encourages students to interact confidently with literature in new ways and can instill a lifelong appreciation of reading. As it guides students to use literary works as inspiration for their own writing, this book can also prepare them to write more effectively in other courses and in their careers.
