Teachers Sourcebook for Extensive Reading George Jacobs,Thomas S.C. Farrell,2012-08-01 The best way for students to learn to read and to come to love reading is surprise surprise by reading in quantity Unfortunately many of today

s students read far too little This lack of time spent reading is particularly unfortunate as reading constitutes a bedrock skill essential in all subject areas Thus we teachers need to devote curriculum time to not only teaching students how to read but also to encouraging them to read extensively This is what Extensive Reading is all about Teachers Sourcebook for Extensive Reading provides hundreds of teacher tested ideas on how to do Extensive Reading The book begins with an introduction to the what and the why of Extensive Reading Thereafter the book consists of three parts Part 1 discusses finding materials for Extensive Reading Part 2 offers ideas for motivating students to read and for activities that students might do after they read or while they are reading including cooperative learning activities Part 3 looks at how teachers can serve as advocates for Extensive Reading Among the book s distinctive features are breaks for reflection first person accounts from teachers and ideas for doing Action Research and other forms of teacher investigation and research on Extensive Reading We hope that you will find the Teachers Sourcebook for Extensive Reading to be a practical book but also informed by theory and research We also hope this book will make a difference for your students in their test scores and even more in their attitude toward reading now and in the future

Writing in Elementary School Social Studies Barry K. Beyer, Robert Gilstrap, 1982 This book is designed to provide elementary school teachers with information suggestions and models for using writing in the social studies from early primary to middle grades There are four major chapters to the book Chapter I is titled Research on the Teaching of Writing The articles in this first section move from a survey of research in writing to a survey of classroom practice in the use of writing in elementary school social studies and finally to a specific classroom study that integrates the two areas and presents specific implications for the study and teaching of writing Chapter II is titled Developing Readiness in Writing The first two articles stress two important

aspects of a classroom environment that nurtures and supports student writing The remaining five articles describe techniques such as interviewing exploring the past and brainstorming that teachers can use to initiate writing The title of Chapter III which contains seven articles is Using Writing to Learn Social Studies Content The articles describe ways in which writing can be used to help students learn social studies information or develop social studies generalizations Another describes how writing can be used to conduct simulated field trips in the social studies classroom The title of Chapter IV is Combining Writing with Social Studies Discussed are three essential supports for a successful program a detailed curriculum guide inservice teacher training and cooperative teacher administrator assessment procedures The book also cites related resources in the ERIC system Author RM

Improving Reading, Writing, and Content Learning for Students in Grades 4-12 Rosemarye T. Taylor, 2006-09-14 Fills a niche for content teachers who teach reading strategies particularly in light of the standards movement Christene Alfonsi Teacher Fairfield High School OH From a fairly concise book teachers get an important overview about a system approach to literacy All teachers get specific tools and strategies and some very useful information that could change their paradigm along the way Allyson Burnett Instructional Interventionist Alief Hastings High School Houston TX Put a strong literacy system in place to improve student achievement In contrast to the primary grades when children are learning to read students in grades 4 through 12 are expected to learn content as they read yet they may still struggle with reading basics Improving Reading Writing and Content Learning for Students in Grades 4 12 provides a realistic and systematic process for improving reading and writing while enhancing content knowledge and skills Based on proven evidence in multiple schools over a 10 year period this excellent new resource presents specific strategies and successful examples that educators can immediately implement to improve day to day classroom success while also boosting the success rate on standardized assessments Aligned with the National Reading Panel Report this book helps teachers focus on Creating a classroom community that is academically and psychologically safe for learning Responding to non negotiable expectations of daily practice Building vocabulary reading comprehension and higher order and critical thinking skills Developing fluency in reading Engaging families and the community Teachers can create the best environment and instructional experience for all students to maximize literacy learning and standards based achievement This outstanding book will be a source of reflection for continuous improvement

The Idea of a Writing Laboratory Neal Lerner, 2009-07-09 The Idea of a Writing Laboratory is a book about possibilities about teaching and learning to write in ways that can transform both teachers and students Author Neal Lerner explores higher education s rich history of writing instruction in classrooms writing centers and science laboratories By tracing the roots of writing and science educators recognition that the method of the lab hands on student activity is essential to learning Lerner offers the hope that the idea of a writing laboratory will be fully realized more than a century after both fields began the experiment Beginning in the late nineteenth century writing instructors and science teachers recognized that mass instruction was inadequate for a

burgeoning non traditional student population and that experimental or laboratory methods could prove to be more effective Lerner traces the history of writing instruction via laboratory methods and examines its successes and failures through case studies of individual programs and larger reform initiatives Contrasting the University of Minnesota General College Writing Laboratory with the Dartmouth College Writing Clinic for example Lerner offers a cautionary tale of the fine line between experimenting with teaching students to write and curing the students of the disease of bad writing The history of writing within science education also wends its way through Lerner s engaging work presenting the pedagogical origins of laboratory methods to offer educators in science in addition to those in writing studies possibilities for long sought after reform The Idea of a Writing Laboratory compels readers and writers to don those white coats and safety glasses and discover what works and asserts that teaching writing as an experiment in what is possible as a way of offering meaning making opportunities for students no matter the subject matter is an endeavor worth the struggle The Complete Home Learning Sourcebook Rebecca Rupp,1998 Lists all the resources needed to create a balanced curriculum for homeschooling from preschool to high school level A New Writing Classroom Patrick Sullivan,2014-07-15 In A New Writing Classroom Patrick Sullivan provides a new generation of teachers a means and a rationale to reconceive their approach to teaching writing calling into question the discipline s dependence on argument Including secondary writing teachers within his purview Sullivan advocates a more diverse exploratory and flexible approach to writing activities in grades six through thirteen A New Writing Classroom encourages teachers to pay more attention to research in learning theory transfer of learning international models for nurturing excellence in the classroom and recent work in listening to teach students the sort of dialogic stance that leads to higher order thinking and more sophisticated communication The conventional argumentative essay is often a simplistic form of argument widely believed to be the most appropriate type of writing in English classes but other kinds of writing may be more valuable to students and offer more important kinds of cognitive challenges Focusing on listening and dispositions or habits of mind as central elements of this new composition pedagogy A New Writing Classroom draws not just on composition studies but also on cognitive psychology philosophy learning theory literature and history making an exciting and significant contribution to the field *El-Hi Textbooks in Print* ,1984 **Why Johnny Can't Write** Myra J. Linden,Arthur Whimbey,2012-12-06 The authors of this book both experienced teachers examine the controversy surrounding two popular methods for teaching writing the process approach and its offspring Writing Across the Curriculum Both have recently been called into question for their ineffectiveness An alternative lesser known procedure called sentence combining which has been proven successful in numerous studies over the past fifteen years finally is gaining the attention it deserves Using the sentence combining approach the authors present a rationale for re thinking and re tooling the English classroom and consequently making the entire educational system work more effectively This book is useful for teachers at any level especially those involved in writing instruction It is also worthwhile

reading for those wishing to improve their writing skills Doing the sample exercises will strengthen writing skills and provide a solid foundation for a lifelong program of language growth Resources in Education ,1995
