Feminist Interpretations of David Hume Anne Jaap Jacobson,2010-11-01 These essays cover a diversity of subjects in Hume's work. They discuss his theory of knowledge, his conception of human inquiry and the human mind, his views on our knowledge of the external world and the future, his treatments of the passions, emotions and virtue, his conception of moral education and his views on aesthetics and religion and his historical work. **An Investigation of the Degree of Realism**

Elizabeth Congdon,2018 **Nuclear Realism** Rens van Munster,Casper Sylvest,2016-04-14 What is a realist response to nuclear weapons? This book is animated by the idea that contemporary attempts to confront the challenge of nuclear weapons and other global security problems would benefit from richer historical foundations. Returning to the decade of deep thermonuclear anxiety inaugurated in the early 1950s, the authors focus on four creative intellectuals: Günther Anders, John H. Herz, Lewis Mumford, and Bertrand Russell, whose work they reclaim under the label of nuclear realism. This book brings out an important, oppositional and resolutely global strand of political thought that combines realist insights about nuclear weapons with radical proposals for social and political transformation as the only escape from a profoundly endangered planet. **Nuclear Realism** is a highly original and provocative study that will be of great use to advanced undergraduates, graduates and scholars of political theory, International Relations and Cold War history. **A Study in Realism** John

This volume contains the principal contributions to the panel on Acting and Language in Shakespeare and Eastern Drama, specially edited for publication by Minoru Fujita who teaches at the Graduate School of Culture, University of Osaka and Leonard Pronko, Professor of Theatre at Pomona College, Claremont, California.
