The Realm of Ends or Pluralism and Theism presents James Ward's Gifford Lectures delivered at the University of St Andrews between 1907 and 1910. Ward, a prominent philosopher and psychologist, explores the intricate relationship between pluralism and theism, offering a profound examination of metaphysics and religious philosophy. In this intellectually stimulating work, Ward delves into the concept of the Realm of Ends, investigating the nature of reality, the existence of God, and the interaction of individual entities within a unified whole. Through rigorous analysis and insightful arguments, he navigates complex philosophical terrain, challenging traditional views and proposing innovative perspectives. Leibniz and the Environment Pauline Phemister, 2016-03-31 The work of seventeenth-century polymath Gottfried Wilhelm Leibniz has proved inspirational to

philosophers and scientists alike In this thought provoking book Pauline Phemister explores the ecological potential of Leibniz s dynamic pluralist panpsychist metaphysical system She argues that Leibniz s philosophy has a renewed relevance in the twenty first century particularly in relation to the environmental change and crises that threaten human and non human life on earth Drawing on Leibniz s theory of soul like interconnected metaphysical entities he termed monads Phemister explains how an individual s true good is inextricably linked to the good of all Phemister also finds in Leibniz s works the rudiments of a theory of empathy and strategies for strengthening human feelings of compassion towards all living things Leibniz and the Environment is essential reading for historians of philosophy and environmental philosophers and will also be of interest to anyone seeking a metaphysical perspective from which to pursue environmental action and policy
