Structural Phenomenology Steven Ravett Brown, 2005 This book represents a major step forward in the philosophy of mind Steven Ravett Brown makes an important contribution to the field of naturalized phenomenology by developing a structural phenomenology model based on contemporary studies of gestalts and attention This model clearly and explicitly brings scientific data to bear upon the nature of conscious experience Synthesizing empirical data from several fields Brown provides a phenomenological analysis of structural components of intentionality a reconsideration of functional processes of gestalts and a reformulation and in-depth analysis of higher order processing and the tip of the tongue meta cognitive phenomenon The unique importance of this book lies in its providing an explanatory tool that can predict as well as elucidate mental phenomena It demands attention from all philosophers psychologists and neuroscientists engaged in research into the mental

Phenomenology and Existentialism Robert C. Solomon, 2001 This anthology of classic essays focuses on the philosophy of Edmund Husserl and the philosophical movement to which his writings gave impetus phenomenology Sixty contributions from a wide variety of scholars provide an introduction to phenomenology and existentialist phenomenology Sections include OGeneral Introduction What Is Phenomenology OThe Phenomenology of Edmund Husserl OExistential Phenomenology and OSelf and Others O Among the contributors are Frege Chisholm Merleau Ponty Schmitt Tillman Gendlin Sellars Linsky Dreyfus Ryle Solomon Schlick Ricoeur Marcel Heidegger Sartre Brentano Olafson Camus and de Beauvo The Undergraduate Journal of Philosophy , 1970 *Baudelaire's Bitter Metaphysics* Aaron Brice Cummings, 2024-09-12 Baudelaire s Bitter Metaphysics Anti Nihilist Readings by Fondane Benjamin and Sartre reconstructs a philosophical dialogue that might have been expected to take place between Benjamin Fondane Walter Benjamin and Jean Paul Sartre over their philosophical readings of Charles Baudelaire an exchange preempted by the untimely deaths of two of the interlocutors during the Nazi holocaust Why did three of Europe s sharpest minds respond to the terror of 1933 45 by writing about a long dead poet Aaron Brice Cummings argues that Fondane Benjamin and Sartre turned to the poet of nihilism s abyss because they recognized a fact of cultural history that remains relevant today until sometime in the 2080s the literary world will have to confront even if to deny the two century window forecast by Nietzsche as the age of cultural and existential nihilism Accordingly the author examines the bitter metaphysics latent in Baudelaire s motifs of the abyss clocks brutes streets and bored dandies In so doing this book confronts the nothingness which modern life encounters in the heart of art ethics ideality time memory history urban life and religion *Phenomenology World-Wide* Anna-Teresa Tymieniecka, 2014-11-14 Phenomenology is the philosophy of our times Through the entire twentieth century this philosophy unfolded and flourished following stepwise the intrinsic logic and dynamism of its original project as proposed by its founder Edmund Husserl Now its seminal ideas have been handed over to a new era The worldwide contributors to this volume make it manifest that phenomenological inspiration knows no cultural barriers It penetrates and invigorates not only philosophical disciplines but also most of the sectors of knowledge transforming our way of seeing the world our actions toward others and our lives Phenomenology s universal spread has however oftentimes diluted its original sense even beyond recognition and led to a weakening of its dynamics There is at present an urgent need to retrieve the original understanding of phenomenology to awaken its dormant forces and redirect them This is the aim of the present book resourcement and reinvigoration It is meant to be not only a reference work but also a guide for research and study To restore the authentic vision of phenomenology we propose returning to its foundational source in Husserl s project of a universal science unpacking all its creative capacities In the three parts of this work there are traced the stages of this philosophy s

progressive uncovering of the grounding levels of reality ideal structures constitutive consciousness the intersubjective lifeworld and beyond The key concepts and phases of Husserl's thought are here exfoliated Then the thought of the movement's classical figures and of representative thinkers in succeeding generations is elucidated Phenomenology's geographic spread is reviewed We then proceed to the culminating work of this philosophy to the phenomenological life engagements so vigorously advocated by Husserl to the life significant issues phenomenology addresses and to how it has enriched the human sciences Lastly the phenomenological project's new horizons on the plane of life are limned horizons with so powerful a draw that they may be said not to beckon but to summon Here is the movement's vanguard This collection has 71 entries Each entry is followed by a relevant bibliography There is a helpful Glossary of Terms and an Index of Names

Bibliography (1894-1979) François Lapointe, 1980 *Advancing Phenomenology* Thomas Nenon, Philip

Blosser, 2010-09-08 Philip Blosser and Thomas Nenon The essays in the volume were assembled in honor of Lester Embree who celebrated his 70th birthday on January 9 2008 A preview of this volume was presented to Professor Embree at a reception sponsored by the Center for Advanced Research in Phenomenology that was held in his honor at the 2008 meeting of the Husserl Circle at Marquette University in Milwaukee Wisconsin The title *Advancing Phenomenology* is purposely ambiguous On the one hand these essays document the progress that phenomenology as an ongoing and vibrant movement has made in the period of over a century since its inception They illustrate the advance of phenomenology both in terms of the range of topics represented in this volume and in terms of the disciplinary and geographical diversity of the scholars who have contributed to it The topics range from scholarly appropriations of past achievements in phenomenology to concrete phenomenological investigations into ethics gender and environmental philosophy as well as phenomenological reflections on the foundations of disciplines outside philosophy such as psychology history the social sciences and archeology The contributors come both from philosophy departments and from a number of disciplines outside of philosophy such as sociology psychology and archeology and they come from all around the world from North America from Western and Eastern Europe from Latin America and from several different countries in Asia *Husserliana Dokumente*, 1999 **Library of Congress**

Catalog Library of Congress, 1974-10 A cumulative list of works represented by Library of Congress printed cards The Phenomenological Critique of Mathematization and the Question of Responsibility Lubica Učník, Ivan Chvatík, Anita

Williams, 2014-11-19 This edited collection discusses phenomenological critiques of formalism and their relevance to the

problem of responsibility and the life world The book deals with themes of formalization of knowledge in connection to the life world the natural world the history of science and our responsibility for both our epistemic claims and the world in which we live Readers will discover critiques of formalization the life world and responsibility and a collation and comparison of Pato ka s and Husserl s work on these themes Considerable literature on Husserl is presented here and the two themes of epistemic responsibility and the life world are discussed together This work specifically emphasizes the interrelatedness of these existential aspects of his work self responsibility and the crisis as not only epistemological but also related to human life This volume also introduces Jan Pato ka to English speaking readers as a phenomenologist in his own right Pato ka shows us in particular the significance of the modern abyss between our thinking and the world Readers will discover that this abyss is of concern for our everyday experience because it leads to a rupture in our understanding of the world between the world of our living and its scientific construct We see that Pato ka continually emphasized the relevance of Husserl s work to existential questions relating to human responsibility and the life world which he admits is left largely implicit in Husserl s work This edited collection will spark discussion on the question of responsibility against the backdrop of formalized knowledge which is increasingly inaccessible to human understanding Despite the complexity of some of the analyzed ideas this book discusses these themes in a clear and readable way This work is scholarly exact in its discussion and authoritative in its reading but at the same time accessible to anyone motivated to understand these debates

The Possibility of Transcendental Philosophy J.N. Mohanty, 2012-12-06 These essays span a period of fourteen years The earliest was written in 1960 the latest in 1983 They all represent various attempts to understand the motives and the central concepts of Husserl s transcen dental phenomenology and to locate the latter in the background of other varieties of transcendental philosophy Implicitly they also con tain a defense of transcendental philosophy and make attempts to respond to the more familiar criticisms against it It is hoped that they will contribute to a better understanding not only of Husserl s transcen dental phenomenology but also of transcendental philosophy in gener al The ordering of the essays is not chronological They are rather divided thematically into three groups The first group of six essays is concerned

with relating Husserlian phenomenology to more contemporary analytic concerns in fact the opening essay on Husserl and Frege establishes a certain continuity of concern with my last published book with that title Of these Essay 2 was written for an American Philosophical Association Eastern Division symposium in which the other symposiast was John Searle The discussion in that symposium concentrated chiefly on the relation between intentionality and causality which led me to write Essay 6 later read as the Gurwitsch Memorial Lecture at the Society for Phenomenology and Existential Philosophy meetings in 1982 at Penn State **Library of Congress Catalogs** Library of Congress, 1976 The Modern Schoolman, 1971 **Subject Catalog** Library of Congress, 1970 **The Publishers' Trade List Annual**, 1979
