Becoming a Cosmopolitan Jason D Hill, 2023-06-14 The philosopher and author of *Beyond Blood Identities* offers a new paradigm of persona freedom and moral self possession As a Jamaican immigrant arriving in the United States at the age of twenty Jason Hill noticed how often Americans identified themselves in terms of race and ethnicity He observed for example the reluctance of West Indians to joins black causes for fear of losing their identity He began to ask himself what sort of world he wanted to live in a quest that in time led him to the idea of the cosmopolitan In *Becoming a Cosmopolitan* Jason D Hill argues that we need a new understanding of the self He revives the idea of the cosmopolitan the person who identifies the world as home Arguing for the right to forget where we came from Hill proposes a new moral cosmopolitanism for the new millennium

Can't Buy My Love Jean Kilbourne, 2012-06-26 When was the last time you felt this comfortable in a relationship An ad for sneakers You can love it without getting your heart broken An ad for a car Until I find a real man I'll settle for a real smoke A woman in a cigarette ad Many advertisements these days make us feel as if we have an intimate even passionate relationship with a product But as Jean Kilbourne points out in this fascinating and shocking exposé the dreamlike promise of advertising always leaves us hungry for more We can never be satisfied because the products we love cannot love us back Drawing upon her knowledge of psychology media and women's issues Kilbourne offers nothing less than a new understanding of a ubiquitous phenomenon in our culture The average American is exposed to over 3 000 advertisements a day and watches three years worth of television ads over the course of a lifetime Kilbourne paints a gripping portrait of how this barrage of advertising drastically affects young people especially girls by offering false promises of rebellion connection and control She also offers a surprising analysis of the way advertising creates and then feeds an addictive mentality that often continues throughout adulthood

Counterrevolution and Revolt Herbert Marcuse, 1989-01-25 In this book Herbert Marcuse makes clear that capitalism is now reorganizing itself to meet the threat of a revolution that if realized would be the most radical of revolutions the first truly world historical revolution Capitalism's counterrevolution however is largely preventive and in the Western world altogether preventive Yet capitalism is producing its own grave diggers and Marcuse suggests that their faces may be very different from those of the wretched of the earth The future revolution will be characterized by its enlarged scope for not only the economic and political structure not only class relations but also

humanity's relation to nature both human and external nature tend toward radical transformation For the author the liberation of nature is the connecting thread between the economic political and the cultural revolution between changing the world and personal emancipation Rumi and Shams' Silent Rebellion Mostafa Vaziri, 2015-07-08 This book offers a paradigm shift and fresh interpretation of Rumi's message After being disentangled from the anachronistic connection with the Mevlevi order of Islamic Sufism Rumi is instead placed in the world of philosophy For Love of the Father Ruth Stein, 2010 For Love of the Father provides a psychological explanation of the attraction of destructive and self-destructive fundamentalism in terms of male longings Books and Pamphlets, Including Serials and Contributions to Periodicals Library of Congress. Copyright Office, 1973 **The Rebel's Clinic** Adam Shatz, 2024-01-23 One of The New York Times's 100 Notable Books of 2024 One of the Washington Post's 50 Best Nonfiction Books of 2024 Longlisted for the National Book Critics Circle Award for Biography Named a best book of 2024 by The New Yorker Vulture Los Angeles Review of Books Foreign Affairs The New Republic Longlisted for the 2024 Baillie Gifford Prize for Non Fiction Nimble and engrossing An exemplary work of public intellectualism Becca Rothfeld The Washington Post Undoubtedly the best biography of Fanon A remarkable achievement Robert J C Young Los Angeles Review of Books A revelatory biography of the writer activist who inspired today's movements for social and racial justice In the era of Black Lives Matter Frantz Fanon's shadow looms larger than ever He was the intellectual activist of the postcolonial era and his writings about race revolution and the psychology of power continue to shape radical movements across the world In this searching biography Adam Shatz tells the story of Fanon's stunning journey which has all the twists of a Cold War era thriller Fanon left his modest home in Martinique to fight in the French Army during World War II when the war was over he fell under the influence of Existentialism while studying medicine in Lyon and trying to make sense of his experiences as a Black man in a white city Fanon went on to practice a novel psychiatry of dis-alienation in rural France and Algeria and then join the Algerian independence struggle where he became a spokesman diplomat and clandestine strategist He died in 1961 while under the care of the CIA in a Maryland hospital Today Fanon's Black Skin White Masks and The Wretched of the Earth have become canonical texts of the Black and global radical imagination comparable to James Baldwin's essays in their influence And yet they are little understood In The Rebel's Clinic Shatz offers a dramatic reconstruction of Fanon's extraordinary life and a guide to the books that underlie today's most vital efforts to challenge white supremacy and racial capitalism Includes 8 pages of black and white photographs **Nature's Web** Peter Marshall, 2015-02-12 This powerful book provides the first comprehensive overview of the intellectual roots of the worldwide environmental movement from ancient religions and philosophies to modern science and ethics and synthesizes them into a new philosophy of nature in which to ground our moral values and social action It traces the origins and evolution of the dominant worldview that has built our industrial technocratic man-centered civilization and brought us to the current ecological crisis At the same time it uncovers an alternative cultural tradition in the

world's different religions and philosophies and describes how these ideas are now surfacing and coalescing to form an ecological sensibility and a new vision of nature which recognizes the interrelatedness of all living things. Finally, this book integrates these varied traditions with modern physics and the science of ecology into a larger philosophical whole that provides the environmental movement with a comprehensive vision of an organic and sustainable society in harmony with nature. As ecological disasters continue to threaten our planet, becoming worse with every passing moment of indifference, it has become clear that we must take action. We must change our relationship with nature and return to the days when our lives were intimately connected to and dependent upon the natural world. Nature's Web lays the foundations for that change by explaining where our complex ideas about nature come from, why they are wrong, and what we can do to change them.

Art Rebellion Malcolm Miles, 2022-12-29 Art has always been central to moments of great social change. From the avant-garde to the ages of revolution, the act of rebellious creation has been crucial to bringing people and ideas together. However, in an increasingly fractured world characterised by upheaval and crisis, what role can art play in ushering in transformation? Malcolm Miles offers a guide to contemporary art and activism, setting it firmly within the context of the avant-garde and its legacies in the postwar period. He explores the rise of direct action to replace representational politics in organizations like Occupy and Extinction Rebellion, and in the movements to destroy or remove statues of slavers, and finds parallels in anti-institutional art practices. By engaging with the significant theoretical innovations of the last 50 years—modernism, postmodernism, and contemporary critical thinking—Miles provides both an overview of political aesthetics and an introduction to how art activism works in its most memorable moments in history. *Art Rebellion* argues that beauty is radically other to the dominant society, that power relations can be transformed, that protest cultures and contemporary art grow together, and that art has a crucial interruptive role in forming new, more equal and just realities.
