Rebels And Rulers 1500 1600 Vol 1 Society States And Early Modern Revolution:

Rebels and rulers : 1500 - 1660. 1. Society, states, and early modern revolution. Agrarian and urban rebellions

Perez Zagorin, 1982 *Rebels and Rulers 1500 1660* is a comparative historical study of revolution in the greatest royal states of Western Europe during the sixteenth and the first half of the seventeenth centuries. Revolution as a general problem and the causes and character of revolution in early modern Europe have been among the most widely discussed and debated topics in history and the social sciences since the 1940s. Although the subject of social and political unrest and revolution in the early modern period has received much attention and despite the existence of a very large literature devoted to particular revolutions of the time, no one has attempted the broad comparative synthesis that is given by Professor Zagorin in this study. Volume I of *Rebels and Rulers* presents a critical discussion of different concepts and interpretations of revolution including Marxism. It reviews previous attempts to deal with early modern revolutions and suggests a typology appropriate to the latter. It then provides an extensive survey of the historical context in which these revolutions occurred: the social structures of orders and estates, the political system of monarchy and the process of absolutist state building, economic trends and fluctuations, and ideology. The volume concludes with a detailed treatment of peasant rebellions, especially in Germany and France, and with an equally close look at urban rebellions in France and the possessions of the Spanish monarchy, including the revolution of the Comuneros in Castile.

Flesh in the Age of Reason Roy Porter, 2005-01-27 As an introduction to early modern thinking and the impact of past ideas on present lives, this book can find few equals and no superiors. Porter is a witty, humane writer with an extraordinary vocabulary and a sparkling sense of fun. Whether he is quoting from obscure medical texts or analysing scabrous diaries, dishing the dirt on long dead bigwigs or evoking sympathy for human suffering, his grasp is masterly and his erudition appealing. I wish I could read it again for the first time. You can find it in the Times Educational Supplement Book of the Week. In this startlingly brilliant sequel to the prize-winning *ENLIGHTENMENT*, Roy Porter completes his lifetime's work, offering a magical, enthusiastic and charming account of the writings of some of the most attractive figures ever to write in English.

Debney, 2020-07-03 This book investigates the normalisation of blame shifting within ideological discourse as a broad feature of history working from Churchill's truism that history is written by the victors To

that end it explores historical episodes of political persecution carried out under cover of moral panic highlighting the process of Othering common to each and theorising a historical model of panic driven scapegoating from the results Building this model from case studies in witch panic communist panic and terrorist panic respectively The Oldest Trick in the Book builds an argument that features common to each case study reflect broader historical patterning consistent with Churchill's maxim On this basis it argues that the periodic construction of bogeymen or folk demons is a useful device for enabling the kind of victim playing and victim blaming critical to protecting elite privilege during periods of crisis and that in being a recurring theme historically panic driven scapegoating retains great ongoing value to the privileged and powerful and thus conspicuously remains an ongoing feature of world politics

The Village and the Outside World in Golden Age Castile

David E. Vassberg, 2002-11-28 This 1996 book based upon a vast range of documentary and secondary sources shatters the disproven but persistent myth of the closed immobile village in the early modern period It demonstrates that even in traditionalist Castile pre industrial village society was highly dynamic with continuous inter village inter regional and rural urban migration The book is rich in human detail with many vignettes of everyday life Professor Vassberg examines such topics as fairs and markets the transportation infrastructure rural artisans and craftsmen relations with the state and life cycle service The approach is interdisciplinary and pays special attention to how rural families dealt with economic and social problems The rural Castile that emerges is a complex society that defies easy generalizations but one which is unquestionably part of the general European reality

Resistance in the Iberian Worlds from the Fifteenth to the

Eighteenth Century Pablo Sánchez León, Benita Herreros Cleret de Langavant, 2024-10-01 This book highlights the broad scope and span of resistance as a contentious practice in the early modern Iberian world In this context from the late Middle Ages onwards resistance rooted in the political and legal language of the old regime that provided agents with legitimacy and resources for their actions occurred mainly within the established jurisdictional system These resources for litigation and demand made resistance a widespread kind of contesting practice related to wider protests The authors assess the wide array of actions developed by individuals and communities to preserve their rights and identities demonstrating how the Portuguese and Hispanic polities and their colonial possessions experienced resistance from below over a long period of change that marked the rise of more complex communities and institutional systems This book offers a comprehensive overview of the variety of forms and expressions of resistance developed in different social cultural and territorial contexts thus shedding additional light on the relationship between order and conflict within early modern European empires Chapter 3 is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com

The Struggle for Power in Early Modern Europe

The Politics of

Succession Andrej Kokkonen, Jørgen Møller, Anders Sundell, 2022-07-08 The death of the ruler poses a significant threat to the stability of any polity Arranging for a peaceful and orderly succession has been a formidable challenge in most historical societies and it continues to be a test that modern authoritarian regimes regularly face and often fail Drawing on a unique dataset of the life and fates of monarchs in all major monarchies in Medieval and Early Modern Europe *The Politics of Succession* documents how succession have historically been moments of violence and insecurity Deaths of rulers were often associated with civil war and the shadow cast by looming successions caused coups and depositions But this book also shows that the development and spread of primogeniture the eldest son taking the throne mitigated the problem of succession in Europe in the period after AD 1000 The predictability and stability that followed from a clear hereditary principle outweighed the problems of incompetent and irrational rulers sometimes inheriting power The data used in the book demonstrates that primogeniture reduced the risk of depositions and civil war following the inevitable deaths of leaders In this way hereditary monarchy helped create political stability and lengthen the time horizons of rulers and elites alike thereby facilitating state building The book thus sheds light on the rationale of a system of leader selection that today often appears illogical and outdated and it uses these findings to shed light on the key advantage of modern representative democracy its ability to complete power transfers peacefully

Potential History Ariella Aïsha Azoulay, 2019-11-19 A passionately urgent call for all of us to unlearn imperialism and repair the violent world we share from one of our most compelling political theorists In this theoretical tour de force renowned scholar Ariella A sha Azoulay calls on us to recognize the imperial foundations of knowledge and to refuse its strictures and its many violences Azoulay argues that the institutions that make our world from archives and museums to ideas of sovereignty and human rights to history itself are all dependent on imperial modes of thinking Imperialism has segmented populations into differentially governed groups continually emphasized the possibility of progress while it tries to destroy what came before and voraciously seeks out the new by sealing the past away in dusty archival boxes and the glass vitrines of museums By practicing what she calls potential history Azoulay argues that we can still refuse the original imperial violence that shattered communities lives and worlds from native peoples in the Americas at the moment of conquest to the Congo ruled by Belgium s brutal King L opold II from dispossessed Palestinians in 1948 to displaced refugees in our own day In *Potential History* Azoulay travels alongside historical companions an old Palestinian man who refused to leave his village in 1948 an anonymous woman in war ravaged Berlin looted objects and documents torn from their worlds and now housed in archives and museums to chart the ways imperialism has sought to order time space and politics Rather than looking for a new future Azoulay calls upon us to rewind history and unlearn our imperial rights to continue to refuse imperial violence by making present what was invented as past and making the repair of torn worlds the substance of politics
