Sullivan, Laurie L. Urraro, 2019-06-29 This volume explores transgender children and internalized body normalization in early childhood education settings steeped in critical methodologies including post structuralism queer theory and feminist approaches The book marries theory and praxis submitting to current and future teachers a text that not only presents authentic narratives about trans children in early childhood education but also analyzes the forces at work behind gender policing gender segregation and transphobic education policies As the struggles and triumphs of trans individuals have reached a watershed moment in the social fabric of the United States this text offers a snapshot into the lives of ten transgender people as they reflect on their earliest memories in the American educational system **Building an ESL Collection for Young Adults** Laura McCaffery, 1998-10-28 This annotated bibliography of more than 500 recommended books meets the needs of teachers and librarians for reading materials for young adults for whom English is a second language Laura McCaffery who has many years of experience with collection development of ESL materials for young adults has selected the best books on a variety of topics to meet curriculum and personal interest needs of young adults Most of the books selected were published between 1992 and 1998 The bibliography is organized by topic adventure mystery and suspense biographies career workplace life skills and parenting folktales myths poetry and classics ethnic diversity history and geography nature and science and sports Indexes by author subject title and ethnic group make searching easy Mainstreamed ESL students can use these books to better understand and make use of regular textbooks Special ESL classes can use the recommended books as part of regular instruction Most of the books recommended are for the intermediate or advanced beginner reading level in English but some very easy books are also included Most of the books are suitable for all learners from grades five through adult Each entry contains a complete bibliographical citation Fry Reading Level Interest Level Library of Congress subjects for cataloging and a 50 to 200 word annotation describing the book and how it can be used by the librarian or teacher who is working with patrons or students A list of distributors of print and nonprint ESL materials completes the work **Bank Job** Hilary Powell, Daniel Edelstyn, 2020-09-17 These art avengers took on toxic debt culture and won The Guardian They want to blow up the whole financial system The New York Times Art hacks life when two filmmakers launch a project to cancel more than 1m of high interest debt from their local community Bank Job is a white knuckle ride into the dark heart of our financial system in which filmmaker and artist duo Hilary Powell and Dan Edelstyn risk their sanity to buy up and abolish debt by printing their own

money in a disused bank in Walthamstow London Tired of struggling in an economic system that leaves creative people on the fringes the duo weave a different story both risky and empowering of self education and mutual action Behind the opaque language and defunct diagrams they find a system flawed by design but ripe for hacking This is the inspiring story of how they listen and act upon the widespread desire to change the system to meet the needs of many and not just the few And for those among us brave enough they show how we can do this too in our own communities one bank job at a time *School Library Journal* ,1997 Victor Amadeus II Geoffrey Symcox,1983-01-01 **El-Hi Textbooks and Serials in Print** ,2006

Amharic-English dictionary Thomas Leiper Kane,1990 **Rebellion and Violence in Islamic Law** Khaled Abou El Fadl,2001-11-01 Khaled Abou El Fadl s book represents the first systematic examination of the idea and treatment of political resistance and rebellion in Islamic law Pre modern jurists produced an extensive and sophisticated discourse on the legality of rebellion and the treatment due to rebels under Islamic law The book examines the emergence and development of these discourses from the eighth to the fifteenth centuries and considers juristic responses to the various terror inducing strategies employed by rebels including assassination stealth attacks and rape The study demonstrates how Muslim jurists went about restructuring several competing doctrinal sources in order to construct a highly technical discourse on rebellion Indeed many of these rulings may have a profound influence on contemporary practices This is an important and challenging book which sheds light on the complexities of Islamic law and pre modern attitudes to dissidence and rebellion **Annals of the American Academy of Political and Social Science** ,1917 **Revista Mexicana** George F. Weeks,Samuel G. Vazquez,1916 **The Present Labor Situation** American Academy of Political and Social Science,1917 The Everlasting Empire Yuri Pines,2012-05-27 Established in 221 BCE the Chinese empire lasted for 2 132 years before being replaced by the Republic of China in 1912 During its two millennia the empire endured internal wars foreign incursions alien occupations and devastating rebellions yet fundamental institutional sociopolitical and cultural features of the empire remained intact The Everlasting Empire traces the roots of the Chinese empire s exceptional longevity and unparalleled political durability and shows how lessons from the imperial past are relevant for China today Yuri Pines demonstrates that the empire survived and adjusted to a variety of domestic and external challenges through a peculiar combination of rigid ideological premises and their flexible implementation The empire s major political actors and neighbors shared its fundamental ideological principles such as unity under a single monarch hence even the empire s strongest domestic and foreign foes adopted the system of imperial rule Yet details of this rule were constantly negotiated and adjusted Pines shows how deep tensions between political actors including the emperor the literati local elites and rebellious commoners actually enabled the empire s basic institutional framework to remain critically vital and adaptable to ever changing sociopolitical circumstances As contemporary China moves toward a new period of prosperity and power in the twenty first century Pines argues that the legacy of the empire may become an increasingly important force in shaping the nation s future trajectory
