Douglas D. Priest, Stephen E. Burris, 2012-04-19 *River of God* is an introduction to world missions aimed at undergraduate students. However, the readers will soon discover that the book is rich in its content far beyond the editors' original plan. It serves as a reader for people with various levels of missiological interest and competence and deals with cutting edge issues in missions. This book introduces a new paradigm: Kingdom Missiology, which builds on shalom in the Old Testament and as Jesus applied to the Kingdom of God in the New Testament. The first half of the book looks at Kingdom Missiology from the biblical, historical, and cultural dimensions. The second half of the book describes helpful strategies in the implementation of this paradigm. The importance of urban ministry is woven throughout the book. Contributors: Ashley Barker, Gina Bellofatto, Kendi Howells, Douglas Robert Douglas, Todd Johnson, Robert Kurka, Janice Lemke, Paul McAlister, Mark Moore, Doug Priest, Greg Pruett, Mike Sweeney, Bill Weber, Donovan Weber, Linda Whitmer, and Tetsunao Yamamori. **Urban Policy** United States. Congress. House. Committee on Banking, Finance, and Urban Affairs. Subcommittee on Housing and Community Development, 1978. *Urban Transformation* Jay Farbstein, 2009. The Rudy Bruner Award for Urban Excellence (RBA) is a national award for urban places that promotes innovative thinking about the built environment. Established in 1987, the award celebrates urban places distinguished by quality design that considers form in conjunction with social, economic, and environmental issues. **Casabella**, 1995. **Crisis, Movement, Management: Globalising Dynamics** James Goodman, Jonathan Marshall, 2016-05-23. Globalised neo-liberalism has produced multiple crises: social, ecological, political. In the past, crises of global order have generated large-scale social transformations, and the current crises likewise hold a transformative promise. Social movements become a crucial barometer in signalling both the demise and rise of political formations and programs. Elite strategies framed as crisis management create their own disordering side effects. Experiments in movement strategy gain greater significance as do contending elite efforts at repressing, managing, or displacing the fall-out. In this book, we investigate both movements and management in the face of crisis, taking crisis and unanticipated consequences as a normal state of play. The book enquires into the winners and losers from crisis and investigates the movement-management nexus as it unfolds in particular localities as well as in broader contexts. The book deals with some of the most pressing conflicts of our time and produces a range of theoretical insights. The ubiquity of crisis is seen as not only a hallmark of social life but a way into a different kind of social analysis. This book was published as a special issue of *Globalizations*. *Rio Salado Environmental Restoration of Two Sites Along the Salt River: (1) Phoenix Reach and (2) Tempe Reach, Feasibility Report, Phoenix and Tempe*, 1998. **Modernization, Urbanization, and the Urban Crisis** Gino Germani, 1973-01-01. *Modernization, Urbanization, and the Urban Crisis*. *Open Space and Environmental Quality* United States. Congress. Senate. Committee on Environment and Public Works, 1999. *Underflows* Cleo Wölflé Hazard, 2022-03-14. Rivers host vibrant multispecies communities in their waters and along their banks, and according to queer trans feminist river scientist Cleo Wölflé Hazard, their future vitality requires centering the values of justice, sovereignty, and dynamism. At

the intersection of river sciences queer and trans theory and environmental justice Underflows explores river cultures and politics at five sites of water conflict and restoration in California Oregon and Washington Incorporating work with salmon beaver and floodplain recovery projects W lfle Hazard weaves narratives about innovative field research practices with an affectively oriented queer and trans focus on love and grief for rivers and fish Drawing on the idea of underflows the parts of a river s flow that can t be seen the underground currents that seep through soil or rise from aquifers through cracks in bedrock W lfle Hazard elucidates the underflows in river cultures sciences and politics where Native nations and marginalized communities fight to protect rivers The result is a deeply moving account of why rivers matter for queer and trans life offering critical insights that point to innovative ways of doing science that disrupt settler colonialism and new visions for justice in river governance
