Recent Trends in Algebraic Development Techniques Phillip James, Markus

Roggenbach,2017-12-07 This book constitutes the thoroughly refereed post conference proceedings of the 23rd IFIP WG 1.3 International Workshop on Algebraic Development Techniques WADT 2016 held in September 2016 in Gregynog UK. The 9 revised papers presented together with two invited talks, one invited paper and two survey papers were carefully reviewed and selected from numerous submissions and focus on foundations of algebraic specification, other approaches to formal specification including process calculi and models of concurrent distributed and mobile computing, specification languages, methods and environments, semantics of conceptual modeling methods and techniques, model driven development, graph transformations, term rewriting and proof systems, integration of formal specification techniques, formal testing and quality assurance, validation and verification areas broadly falling into three categories: multimedia content analysis, multimedia signal processing and communications, and multimedia applications and services.

Recent Trends in Algebraic Development Techniques Francesco Parisi-Presicce,1998-03-11 This book constitutes the strictly refereed post workshop proceedings of the 12th International Workshop on Algebraic Development Techniques WADT 98 held in Tarquinia, Italy, in June 1997. This book presents besides three invited surveys 21 carefully revised full papers selected from 40 presentations given at the workshop. The algebraic approach to the specification and development of systems, born as a formal method for abstract data types, encompasses today the formal design of integrated hardware and software systems, new specification frameworks and a wide range of applications. This book presents the state of the art in the area of algebraic software development.

Recent Trends in Algebraic Development Techniques Andrea Corradini, Ugo Montanari,2009-08-29 This book constitutes the thoroughly refereed post conference proceedings of the 19th International Workshop on Recent Trends in Algebraic Development Techniques WADT 2008 held in Pisa, Italy, on June 13-16, 2008. The 18 revised full papers presented together with 3 invited talks were carefully reviewed and selected from 33 presentations at the workshop. The papers focus on the algebraic approaches to the specification and development of systems and address topics such as formal methods for system development, specification languages and methods, systems and techniques for reasoning about specifications, specification development, systems methods and techniques for concurrent distributed and mobile systems, and algebraic and co-algebraic foundations.

Recent Trends in Algebraic Development Techniques Markus Roggenbach,2021-04-10 This book constitutes the thoroughly refereed post conference proceedings of the 25th International Workshop on Algebraic Development Techniques WADT 2020 held virtually in April 2020. The 7 revised papers presented together with an invited paper were carefully reviewed and selected from 9 submissions. The contributed presentations covered a range of topics about the algebraic approach to system specification, which encompasses many aspects of the formal design of software systems. Originally born as formal method for reasoning about abstract data types, the algebraic approach now covers new specification frameworks and programming paradigms such as object oriented, aspect oriented, agent oriented, logic and higher order functional programming, as well as a wide range of application areas including
