Religion Identity And Change Perspectives On Global Transformations:

Religion, Identity and Change Simon Coleman, Peter Collins, 2017-03-02 Religion is of enduring importance in the lives of many people yet the religious landscape has been dramatically transformed in recent decades Established churches have been challenged by eastern faiths revivals of Christian and Islamic fundamentalism and the eclectic spiritualities of the New Age Religion has long been regarded by social scientists and psychologists as a key source of identity formation ranging from personal conversion experiences to collective association with fellow believers This book addresses the need for a reassessment of issues relating to identity in the light of current transformations in society as a whole and religion in particular Drawing together case studies from many different expressions of faith and belief Hindu Muslim Roman Catholic Anglican New Age leading scholars ask how contemporary religions or spiritualities respond to the challenge of forming individual and collective identities in a nation context marked by secularisation and postmodern decentring of culture as well as religious revitalisation The book focuses on Britain as a context for religious change but asks important questions that are of universal significance for those studying religion How is personal and collective identity constructed in a world of multiple social and cultural influences What role can religion play in creating reinforcing or even transforming such identity

Reading Religion in Text and Context Peter Collins, 2017-05-15 To what extent is religion inherently textual What might the term textual mean in relation to religious faith and practice These are the two key questions addressed by the eleven thought provoking essays collected in this volume Accounts of the content and structure of sacred texts are commonplace The rather more adventurous aim of this book is to disclose within the context of religion the various ways in which meaning can be read of more or less obviously sacred writing and from discourses such as the body the built and natural environment drama and ritual

A Sociology of Spirituality Peter C. Jupp, 2016-03-16 The emergence of spirituality in contemporary culture in holistic forms suggests that organised religions have failed This thesis is explored and disputed in this book in ways that mark important critical divisions This is the first collection of essays to assess the significance of spirituality in the sociology of religion The authors explore the relationship of spirituality to the visual individualism gender identity politics education and cultural capital The relationship between secularisation and spirituality is examined and consideration is given to the significance of Simmel in relation to a sociology of spirituality Problems of defining spirituality are debated with reference to its expression in the UK the USA France and Holland This timely original and well structured volume provides undergraduates postgraduates and researchers with a scholarly appraisal of a phenomenon that can only increase in sociological significance

Materializing Religion William Keenan, 2017-03-02 The material symbol has become central to understanding religion in late modernity Overtly theological approaches use words to express the values and faith of a religion but leave out the incarnation of religion in the behavioural performative or audio visual form This book explores the lived experience of religion through its material expressions demonstrating how religion and spirituality are given form and are thus far from being detached or ethereal Cutting across cultures senses disciplines and faiths the contributors register the variety in which religions and religious groups express the sacred and numinous Including chapters on music architecture festivals ritual artifacts dance dress and magic this book offers an invaluable resource to students of sociology and anthropology of religion art culture history liturgy theories of late modern culture and religious studies

The Quaker Condition Pink Dandelion, 2009-03-26 This book focuses primarily on what we have termed the Quaker Condition It looks sociologically at

the condition of present day British Quakerism This original and innovative collection contributes to several different though obviously connected fields within the study of religion It operates on five levels In the first place the volume is the first to represent substantially the contribution of social science to the study of Quakerism and therefore provides useful comparative material for those whose focus is on other faith groups Second the book focuses largely on British Quakerism and so enriches the pool of resources relating to the sociology of British religion and British culture more generally Third there are very few sociological volumes dedicated to the analysis of a single faith group Fourth the book represents an in depth study of a liberal faith group when liberal religion is the focus of much scholarly debate at present particularly with reference to the secularisation thesis The study of British Quakerism is especially fascinating in this regard given how the group can be described almost as hyper or ultra liberal prefiguring many of the developments which may overtake currently more conservative groups Fifth the volume represents a particularly collective way of working of interest to all those concerned with the methodology of social research with the design and construction of the volume jointly agreed by all the authors Regular meetings of the group and a conference based on these chapters has culminated in a book far more interwoven and layered than a typical edited collection *Mapping Religion and Spirituality in a Postsecular World*

,2012-07-05 Individualization of believing and the logic of pluralism today inevitably bring a redefinition of the role of religion in the lives of individuals as well as societies themselves New concepts and new theories are necessary to try to describe and understand how such processes work this is without doubt the most problematic and intriguing aspect of the processes of change that characterize our era This is a difficulty that makes us use only partially and often with much caution words concepts and theories that until not long ago had a convincing heuristic and explanatory power and were at least apparently indisputable Once it is established that under the sacred vaults of religion nothing is created and nothing is destroyed but everything is preserved and transformed what are the connections that are now being established with the sacred in society The concepts spirituality and post secular give important insights into the new religious landscape Contributors include Anthony J Blasi Yong Chen Monica Chilese Emanuela Contiero Elisabetta di Giovanni Anat Feldman Isabella Jonveaux Ruth Illman Liselotte Frisk Fatma Sundal and Sophie H l ne Trigeaud **Being Catholic in the Contemporary Philippines**

Jayeel Serrano Cornelio,2016-06-23 This book based on extensive original research examines the nature of Catholicism in the contemporary Philippines It shows how Catholicism is apparently flourishing with good attendance at Sunday Masses impressive religious processions and flourishing charismatic groups and with interventions by the Catholic hierarchy in national and local politics However focusing in particular on the beliefs and practices of young people the book shows that young people are often adopting a different more individualised approach to Catholicism which is frequently out of step with the official position It considers the features of this a more personal and experiential relationship with God a new approach to morality in which right living is seen as more important than right believing and a critical view of what is seen as the Catholic

hierarchy's misguidedness The book argues that this reinterpreting of religion by young people has the potential to alter fundamentally the nature of Catholicism in the Philippines but that nevertheless young people's new approach involves a solid enduring commitment and a strong view of their own Catholic religious identity **A God of One's Own** Ulrich Beck, 2014-11-05 Religion posits one characteristic as an absolute faith Compared to faith all other social distinctions and sources of conflict are insignificant The New Testament says We are all equal in the sight of God To be sure this equality applies only to those who acknowledge God's existence What this means is that alongside the abolition of class and nation within the community of believers religion introduces a new fundamental distinction into the world the distinction between the right kind of believers and the wrong kind Thus overtly or tacitly religion brings with it the demonization of believers in other faiths The central question that will decide the continued existence of humanity is this How can we conceive of a type of inter religious tolerance in which loving one's neighbor does not imply war to the death a type of tolerance whose goal is not truth but peace Is what we are experiencing at present a regression of monotheistic religion to a polytheism of the religious spirit under the heading of a God of one's own In Western societies where the autonomy of the individual has been internalized individual human beings tend to feel increasingly at liberty to tell themselves little faith stories that fit their own lives to appoint Gods of their own However this God of their own is no longer the one and only God who presides over salvation by seizing control of history and empowering his followers to be intolerant and use naked force **The Ashgate Research Companion to Contemporary Religion and Sexuality** Andrew K.T. Yip, 2016-04-01 The Ashgate Research Companion to Contemporary Religion and Sexuality provides academics and students with a comprehensive and authoritative state of the art review of current research in the area of sexuality and religion broadly defined This collection of expert essays offers an inter disciplinary study of the important aspects of sexuality and religion calling upon sociological cultural historical and theological contributions to an under researched subject The Companion focuses on the exploration of diverse religious faiths spiritualities and sexualities with contributions that embrace many contrasting approaches related to the contemporary context By adopting a truly inter disciplinary and multi dimensional perspective the Companion embraces the complexities of both sexuality and religion Aimed primarily at a readership with specialist interest in both The Ashgate Research Companion to Contemporary Religion and Sexuality offers an innovative and refreshing analysis of key theoretical and empirical issues in an increasingly relevant and expanding area of academic interest The Companion comprises five main thematic sections each with chapters ranging across a variety of crucial topics traversing various faith traditions The principal themes are epistemological and methodological issues the significance of religious text institutional religious settings stability transformation and change contesting hegemonic structures and discourses Each section includes four chapters contributed by leading international experts in their respective fields and who are at the cutting edge of current research Collectively they offer an inter disciplinary and comprehensive survey of sexuality and religion *Possession,*

Power and the New Age Mr Matthew Wood, 2013-05-28 This book provides a new sociological account of contemporary religious phenomena such as channelling holistic healing meditation and divination which are usually classed as part of a New Age Movement Drawing on his extensive ethnography carried out in the UK alongside comparative studies in America and Europe Matthew Wood criticises the view that such phenomena represent spirituality in which self authority is paramount Instead he emphasises the role of social authority and the centrality of spirit possession linking these to participants class positions and experiences of secularisation Informed by sociological and anthropological approaches to social power and practice especially the work of Pierre Bourdieu and Michel Foucault Wood s study explores what he calls the nonformative regions of the religious field and charts similarities and differences with pagan spiritualist and Theosophical traditions

British Evangelical Identities Past and Present, Volume 1 Mark Smith, 2009-04-01 The nature of evangelical identity in Britain is both a perennial issue and an urgent one This is especially the case because evangelical Christianity has throughout its history been characterized by a remarkable degree of dynamism and diversity These essays by a distinguished list of contributors explore the issue of evangelical identity and the nature of evangelical diversity by investigating the interactions of evangelicalism with national and denominational identities race and gender and its expression in spirituality and culture from the evangelical revivals of the eighteenth century to evangelical churches and movements of the present A second volume will investigate similar issues in relation to evangelical interactions with the Bible and theology Contributors Rob Ambler Andrew Atherstone Kristin Aune David W Bebbington David Goodhew John Harvey Andrew R Holmes David Ceri Jones Ian Jones Rachel Jordan David Killingray Ian Randall Mark Smith Brian Talbot Peter Webster Martin Wellings and Eryn White

West Indian Pentecostals Janice A. McLean-Farrell, 2016-02-11 This is a significant in depth study that explores the cultural context of the religious experience of West Indian immigrant communities Whereas most studies to date have focussed on how immigrants settle in their new home contexts Janice A McLean Farrell argues for a more comprehensive perspective that takes into account the importance of religion and the role of both home and the host contexts in shaping immigrant lives in the Diaspora *West Indian Pentecostals Living Their Faith in*

New York and London explores how these three elements religion the home and host contexts influence the ethnic religious identification processes of generations of West Indian immigrants Using case studies from the cities of New York and London the book offers a critical cross national comparison into the complex and indirect ways the historical socio economic and political realities in diaspora contribute to both the identification processes and the missional practices of immigrants Its focus on Pentecostalism also provides a unique opportunity to test existing theories and concepts on the interface of religion and immigration and makes important contributions to the study of Pentecostalism

[Irish Quaker Hybrid Identities](#) Maria Kennedy,2019-09-02 Dr Kennedy s work is a sociological study of Quakers that investigates the impact that sectarianism has had on identity construction within the Religious Society of Friends in Ireland The research highlights individual Friends complex and hybrid cultural national and theological identities mirrored by the Society s corporate identity This monograph focuses specifically on examples of political and theological hybridity These hybrid identities resulted in tensions which impact on relationships between Friends and the wider organisation How Friends negotiate and accommodate these diverse identities is explored It is argued that Irish Quakers prioritise relational unity and have developed a distinctive approach to complex identity management Kennedy asserts that in the two Irish states Quaker represents a meta identity that is counter cultural in its non sectarianism although this is more problematic within the organisation Furthermore by modelling an alternative non sectarian identity Quakers in Ireland contribute to building capacity for transformation from oppositional binary identities to more fluid and inclusive ones

[Understanding the Roots of Intractability in Hindu-Muslim Conflicts in India](#) Chirasree Mukherjee,2025-07-17 Understanding the Roots of Intractability in Hindu Muslim Conflicts in India examines why some political conflicts especially those involving religion prove difficult to resolve utilizing the case study of religious conflicts between the Hindus and the Muslims in India Traditional conflict resolution techniques such as negotiation and mediation often fail to manage or resolve such conflicts and the existing literature often overlooks the nuances within religious conflicts This book deepens understanding of the roots of intractable conflicts analyzing five decades of conflicts between Hinduism and Islam in India paving the way for more successful peacebuilding and conflict management The author disaggregates religious conflicts into four types Conflicts over Sacred Sites Dietary Restrictions Religious Festivities and Other Using the Varshney Wilkinson Dataset on Hindu Muslim Violence in India 1950 1995 and Mitra and Ray s 2014 extension of the same dataset 1996 2000 this book argues that compared to the latter three types of conflicts and nonreligious conflicts any conflict involving sacred sites results in greater intensity and duration and hence will be the most intractable It further demonstrates the varied effects of each conflict type on conflict intractability This book will appeal to scholars and students of political science religious studies and conflict and security studies

Cotter, 2016-04-01 Focusing on the important relationship between the sacred and the secular this book demonstrates that it is not paradoxical to think in terms of both secular and sacred or neither in different times and places International experts from a range of disciplinary perspectives draw on local national and international contexts to provide a fresh analytical approach to understanding these two contested poles Exploring such phenomena at an individual institutional or theoretical level each chapter contributes to the central message of the book that the in between is real embodied and experienced every day and informs and is informed by intersecting social identities Social Identities between the Sacred and the Secular provides an essential resource for continued research into these concepts challenging us to re think where the boundaries of sacred and secular lie and what may lie between
