

WHAT IS SELF EXPLORATION?

- *If there is no difference between what we are and what we want to be, then there is no problem.*
- *But if there is a difference, it implies we are living with a contradiction (of not being what we really want to be) which we need to resolve.*
- *In short, self exploration is a process of discovering the innateness and universality between all human beings.*
- *Self exploration enables us to look at the contradictions within us and resolve them by becoming aware of our natural acceptance.*
