Religion Past Into Present Series:

Studying Religion, Past and Present Nickolas P. Roubekas, Dimitris Xygalatas, Luther H. Martin, Donald Wiebe, 2024-09-05 Celebrating the contributions of Panayotis Pachis to the field this book discusses the past present and future of the study of religion in antiquity and modernity Panayotis Pachis has dedicated his celebrated career at the Aristotle University of Thessaloniki to the study of various aspects of ancient religions The contents of this book reflect Pachis conviction that the study of religious ideas and practices should be focused on three pillars the study of history the formulation and application of theoretical frameworks and the utilization of traditional as well as innovative methodological tools Chapters range from the scientific study of Roman Graeco religions cultural evolution and neurocognitive theories in the history and study of religion to a look at why we need an integrative approach to study religion past and present Japanese Religions Past and Present Esben Andreasen, Ian Reader, Finn Stefansson, 2013-10-08 Each of the eight chapters deals with a specific topic such as Shinto Buddhism the new religions and Christianity there is an introduction that outlines the subject to be considered followed by a series of readings **Israel's Past in Present Research** V. Philips Long, 1999-06-30 The debate over history history writing and the scientific study of history is reaching an apex in the late twentieth century and shows no signs of abating in the near future The literature on the topic is prodigious The time is thus ripe for an anthology of essays of the sort that Professor Long has collected essays that trace the history of the issues that have fed into the debate The classic and contemporary essays presented here provide an overview and introduction to the topic bringing together the most essential of these in a handy compilation The book is organized in six sections 1 The State of Old Testament Historiography 2 Ancient Near Eastern Historiography 3 Ancient Israelite Historiography 4 Method in the Study of Ancient Israelite Historiography 5 The Historical Impulse in the Old Testament 6 The Future of Israel s Past Long s goal is to provide a context for Israelite history writing within the milieu of the ancient Near East expose the methodologies and assumptions of various approaches and perspectives on historiography and provide access to essays that examine the contribution of the Hebrew Scriptures themselves to the origins of history writing The final essay by Long points the way to future research and topics that will move the discussion forward into the next millennium Professor V Philips Long teaches Old Testament at Covenant Theological Seminary St Louis *Carlyles' Works: Past and present. The portraits of John Knox. Miscellanies* Thomas Carlyle, 1884 **Faith in Unions** David Isiorho, 2022-09-07 Faith in Unions is a personal account representing a critique of Whiteness and Black marginality in the Faith Workers Trade Union In short it is a Black theology critique of the way Muslim and Hindu faith workers have been treated in the British Labour movement This book clearly has things to say about discriminatory practices which puts the discussion about Englishness and Britishness into a wider context I am suggesting a political agenda associated with English ethnicity as the mode of involvement to explain policies that are likely to result in racialised religious exclusion Faith in Unions gives focus to Muslim and Hindu workplace groupings within the Faith Workers

Branch and the opposition to their formation from Anglican and Methodist Christian members I am concerned with the struggle for faith recognition within a discriminatory and institutionally racist union structure This book offers an explicit exploration of what I mean by the racialised other in the context of the British Labour movement In this we need to understand the ways historical Christianity has defined Black identities My conclusion hopefully will start a wider discussion of Englishness and English exclusivity Historia Religionum Claas Jouco Bleeker, Geo Widengren, 1969 Theorizing Religions Past Harvey Whitehouse, Luther H. Martin, 2004-09-15 A collection of archaeologists and historians examine the modes of religiosity theory for its usefulness in explaining the origins and history of religions **Understanding Theories of Religion** Ivan Strenski, 2015-02-10 Featuring comprehensive updates and additions the second edition of Understanding Theories of Religion explores the development of major theories of religion through the works of classic and contemporary figures A new edition of this introductory text exploring the core methods and theorists in religion spanning the sixteenth century through to the latest theoretical trends Features an entirely new section covering religion and postmodernism race sex and gender and religion and postcolonialism Examines the development of religious theories through the work of classic and contemporary figures from the history of anthropology sociology psychology philosophy and theology Reveals how the study of religion evolved in response to great cultural conflicts and major historical events Student friendly features include chapter introductions and summaries biographical vignettes a timeline a glossary and many other learning aids *Studying Religion and Society* Titus Hjelm, Phil Zuckerman, 2013 How do you study religion and society In this fascinating book some of the most famous names in the field explain how they go about their everyday work of studying religions in the field They explain how the ideas for their projects and books have come together how their understanding of religion has changed over the years and how their own beliefs have affected their work They also comment on the changing nature of the field the ideas which they regard as most important and those which have not stood the test of time Lastly they offer advice to young scholars and suggest what needs to be done to enable the field to grow and develop further *Islamic Religious Education in Europe* Leni Franken, Bill Gent, 2021-03-31 Against the backdrop of labour migration and the ongoing refugee crisis the ways in which Islam is taught and engaged with in educational settings has become a major topic of contention in Europe Recognising the need for academic engagement around the challenges and benefits of effective Islamic Religious Education IRE this volume offers a comparative study of curricula teaching materials and teacher education in fourteen European countries and in doing so explores local national and international complexities of contemporary IRE Considering the ways in which Islam is taught and represented in state schools public Islamic schools and non confessional classes Part One of this volume includes chapters which survey the varying degrees to which fourteen European States have adopted IRE into curricula and considers the impacts of varied teaching models on Muslim populations Moving beyond individual countries approaches to IRE chapters in Part Two offer multi disciplinary perspectives from the hermeneutical critical to the

Gottlieb,2003 Table of contents **Participation and Beliefs in Popular Religiosity** Francesco Zaccaria,2010 Exploring the relation between popular religious participation and beliefs about God human suffering Jesus Christ and the church this empirical theological study offers the picture of a complementary relation between popular religiosity and official religion within Italian Catholicism **Faith and History - A Comparison of Christian and Modern Views of History** Reinhold Niebuhr,2013-04-18 The theme of this volume was first presented as the Lyman Beecher Lectures On Preaching at the Yale Divinity School in 1945 Some of the same lectures were given by arrangement under the Warrack Lectureship On Preaching at the Universities of Glasgow and Aberdeen in Scotland in the winter of 1947 Some of the chapters were used as the basis of lectures given under the Olaf Petri Foundation of the University of Uppsala in Sweden I sought to develop various portions of a general theme in these various lectureships In this volume I have drawn these lectures into a more comprehensive study of the total problem of the relation of the Christian faith to modern conceptions of history While the total work therefore bares little resemblance to the lectures it does contain consideration of the specific problems which were dealt with in the lectures I shall not seek to identify this material by chapters as I subjected the whole to reorganization Two of these lectureships usually deal with the art of preaching though not a few of the actual lectures have been concerned with the preacher s message Since I had no special competence in the art of homiletics I thought it wise to devote the lectures to a definition of the apologetic task of the Christian pulpit in the unique spiritual climate of our day Since several of the Beecher lecturers in the past half century sought to accommodate the Christian message to the prevailing evolutionary optimism of the nineteenth and early twentieth centuries I thought it might be particularly appropriate to consider the spiritual situation in a period in which this evolutionary optimism is in the process of decay This volume is written on the basis of the faith that the Gospel of Christ is true for men of every age and that Jesus Christ is the same yesterday today and forever It is nevertheless the task of the pulpit to relate the ageless Gospel to the special problems of each age In doing so however there is always a temptation to capitulate to the characteristic prejudices of an age **Anthropology and Religion** Robert L. Winzeler,2012-04-12 Drawing from ethnographic examples found throughout the world this revised and updated text offers an introduction to what anthropologists know or think about religion how they have studied it and how they have interpreted or explained it since the late nineteenth century Robert Winzeler s balanced consideration of classic topics basic concepts and new developments in the anthropological study of religion moves beyond cultural anthropology and ethnography to gather information from physical anthropology prehistory and archaeology Written as a sophisticated but accessible treatment of the issues Anthropology and Religion is a key text for
