Babylon Religion David W. Daniels,2011 This is a history of goddess worship Written like a graphic novel this well researched book shows how goddess worship morphed through the centuries until it climaxed in its present most common form the worship of the Virgin Mary In different cultures the names were different but the goddess was the same She was the Queen of Heaven the mother of the god She became the Mediatrix through whom all must go to reach their god Author David Daniels is a stickler for research so no one will be surprised to find a 30 page section of End Notes as well as annotated bibliography You can check out his facts for yourself It s a heavy subject but the illustrations by Jack T Chick help

to make the story flow and a lot easier for the casual reader to understand
