John Edwards, Peter R. Hobson

Religious Pluralism A Metaphorical Approach:

Religious Pluralism, 2000 Religious Pluralism stems from a series of Gifford Research Fellowship lectures A stipulation of these lectures is that they be public popular addressed to the intelligent lay person not just the specialist Religious Pluralism is not written from the stance of any particular faith It addresses issues that might concern anyone who thinks about religion particularly the individual in search of or interested in choosing a faith We live in a religiously plural world one in which Buddhism Christianity Hinduism Islam Judaism Sikhism Taoism etc variously picture the nature purpose of human existence Which religious account if any should we accept on what ground Is it legitimate to construct a world view using material from several faiths Using the image of a hall of mirrors to symbolize our new multi religious consciousness Religious Pluralism A Metaphorical Approach considers how the individual might answer such challenging questions Chris Arthur received a PhD from the University of Edinburgh where he took a First Class Honours degree in Religious Studies In 1984 he was awarded the Gifford Research Fellowship at the University of St Andrews At the University of Wales he teaches courses in Buddhism Religion the Media Methodology Process and Pluralism Zhihe Wang, 2013-05-02 This book offers a uniquely process relational oriented Chinese approach to inter religious dialogue called Chinese Harmonism The key features of Chinese harmonism are peaceful co existence mutual transformation and openness to change As developed with help from Whiteheadian process thought Chinese harmonism provides a middle way between particularism and universalism showing how diversity can exist within unity Chinese harmonism is open to similarities among religions but it also emphasizes that differences among religions can be complementary rather than contradictory Thus Chinese harmonism implies an attitude of respect for others and a willingness to learn from others without reducing the other to one's own identity that is to sameness By emphasizing the possibility of complementariness a process oriented Chinese harmonism avoids a dichotomy between universalism and particularism represented respectively by John Hick and S Mark Heim and will make room for a genuine openness and do justice to the culturally and religiously other **Prolegomena to Religious Pluralism** P.

Byrne, 1995-08-23 This book surveys the thesis that all religions are alike in referring and relating to a single common transcendent and sacred reality It treats this thesis as one in the philosophy of religion and systematically sets out its main philosophical strengths and weaknesses The key to understanding and defending pluralism is argued to lie in a realist understanding of religion which is defined by way of an account of the reference of names for sacred transcendent reality

Religious Education in a Pluralist Society John Edwards, Peter R. Hobson, 2019-07-12 Religious education in liberal pluralist societies such as the UK the USA and Australian underwent radical change in the 1980s and 1990s with a major shift towards multi faith educationally oriented programmes This has meant significant modifications to both the content and the methodology of religious education courses and to the way they are conceived of and taught in schools and universities One important implication of this change for the teaching and study of religion today is the need for a philosophical dimension that deals with issues such as the truth status of religious statements and the moral acceptability of religious claims This dimension is often insufficiently developed this lack is made more critical by the multiple competing truth claims of various religions giving rise to such contentious problems as the growth of fundamentalism increasing religious intolerance and conflict and differences of opinion on central moral problems such as

birth control abortion and euthanasia This text attempts to provide the philosophical underpinning that the study and teaching of religion in modern societies requires

John Hick's Pluralist Philosophy of World Religions Paul Rhodes Eddy, 2020-08-26 This title was first published in 2002 One of the most fascinating and controversial interpretations of religious diversity is religious pluralism According to John Hick's model of religious pluralism all the world's great religions are equally valid ways of understanding and responding to the ultimate spiritual reality This book offers an exposition of and critical response to John Hick's model Introducing the various interpretations of religious diversity being discussed today this book presents constructive suggestions as to how things could be further developed to offer a more accurate less confusing presentation of the various options in theology of religions The standard threefold typology of responses to religious diversity exclusivism inclusivism and pluralism are explained and defended Hick's pluralist interpretation of religious diversity is traced culminating in a critical assessment of Hick's pluralistic model and an up to date summary of a variety of critiques directed toward Hick's proposal Paul Rhodes Eddy concludes that Hick's present model is ultimately unsuccessful in retaining both of his long cherished goals a robust religious realism and a consistent religious pluralism whilst overcoming the most difficult problem for the pluralist the fact that the world's religions understand the divine in often contradictory ways

An Anthropological Approach to Theology Heather Meacock, 2000 Heather Meacock in *An Anthropological Approach to Theology* has compiled an argument based upon the pluralist beliefs of Professor John Hick for the revision of traditional Christianity Hick's pluralist understanding of the theology of religions is influenced by the philosophy of Kant and his theories about society's moral awareness Meacock methodically explicates Hick's views while refuting his critics She claims that some Christian doctrines such as the Incarnation lose meaning when interpreted literally and that Christianity itself must begin to change its self perception to that of one among many world religions This book will interest students of religion philosophy as well as anthropologists interested in religion

A Tale of Two Theologians Ambrose Mong, 2017-03-31 In A Tale of Two Theologians Ambrose Mong's observant new work he examines the writings of the Peruvian theologian Gustavo Gutierrez and the Indian theologian Michael Amaladoss and gives fresh attention to their main concerns regarding evangelisation and the poor Why he asks is Gutierrez's liberation theology now accepted and celebrated by the Roman Catholic Church while Amaladoss's Asian theology with a liberation thrust is threatened with censorship Mong argues that the dwindling threat of Communism has made the Marxist overtones of Latin American liberation theology more palatable to the Catholic hierarchy while the challenge of religious pluralism in Asia is as complex and emotive as ever How can the Church learn to balance the need for dialogue between religions with their duty to proclaim the Gospel How can the Church inculturate itself in Asia while maintaining its identity Ambrose Mong tackles these questions with the shrewd clear eyed view of an active priest and scholar exploring the long troubled relationship the Church has with liberation theology and offering guidance for the future

Christian Theology and Religious Pluralism David S. Nah, 2012-04-18 The question of religious pluralism is the most significant yet thorniest of issues in theology today and John Hick 1922 2012 has long been recognized as its most important scholar However while much has been written analyzing the philosophical basis of Hick's pluralism very little attention has been devoted to the theological foundations of his argument Filling this gap this book examines Hick's theological attempts to systematically deconstruct the church's traditional incarnational Christology Special attention is given to evaluating Hick's foundational theses that Jesus himself did not teach what was to become the orthodox Christian understanding of him and that the dogma of Jesus two natures has proved to be incapable of being explicated in any satisfactory way By elucidating the ways in which Hick's arguments fail David Nah demonstrates that Hick was unwarranted in breaking away from the church's incarnational Christology that has been at the core of Christianity for almost two thousand years
