Religion and Radical Empiricism Nancy Frankenberry, 1987-01-01 Rarely in modern times has religion been associated with empiricism except to its own peril This book represents a comprehensive and systematic effort to retrieve and develop the tradition of American religious empiricism for religious inquiry Religion and Radical Empiricism offers a challenging account of how and why reflection on religious truth claims must seek justification of those claims finally in terms of empirical criteria Ranging through many of the major questions in philosophy of religion the author weaves together a study of the varieties of empiricism in all its historical forms from Hume to Quine She finds in James and Dewey in Wieman Meland and Loomer of the Chicago School in Whitehead and in Abhidharma Buddhism constructive elements of a radically empirical approach to the controversial topic of religious experience This work provides a strong counter argument to critics of revisionary theism to caricatures of philosophy as conversation and to any collapse of the category of experience into its linguistic forms      *Religious Experience Reconsidered* Ann Taves, 2011-10-23 Annotation Ann Taves addresses the subject of religious experience directly and the problems of reductionism and humanistic fears of the sciences indirectly and by example The orientation of this book is practical more than philosophical      **The Journal of Philosophy, Psychology and Scientific Methods**, 1920      **The Journal of Religion**, 1926 Includes section Book reviews      The Journal of Philosophy, Psychology, and Scientific Methods Frederick James Eugene Woodbridge, Wendell T. Bush, 1919      *NIDA Research Monograph*, 1976      *Psychosis or Mystical Religious Experience?* Susan L. DeHoff, 2018-02-13 This book presents a new paradigm for distinguishing psychotic and mystical religious experiences In order to explore how Presbyterian pastors differentiate such events Susan L DeHoff draws from Reformed theology psychological theory and robust qualitative research Following a conversation among multidisciplinary voices she presents a new paradigm considering the similarities differences and possible overlap of psychotic and mystical religious experiences      *Journal of Philosophy, Psychology and Scientific Methods*, 1920      **The Christian Leader**, 1929      **The Christian Century**, 1928      **Buddhist-Christian Dialogue in an Age of Science** Paul O. Ingram, 2008 Buddhist Christian dialogue has rarely touched on its interaction with science yet its importance has immense implications Buddhist Christian Dialogue in an Age of Science offers a fresh and exciting view on the ideas themes and people engaged in the three way dialogue between Christianity Buddhism and the natural sciences Ingram s comprehensive yet accessible scholarship is uniquely solid in both religion and science and has the gift of making complex theories understandable Providing these three different perspectives will be useful for anyone interested in the relationship between religion and science      *The Science and Theology of Information* Christoph Wassermann, Richard Kirby, Bernard Rordorf, 1992      **Psychology of Religious Experience** Francis Lorette
