Remembering And Repeating Biblical Creation In Paradise Lost:

Remembering and Repeating Regina M. Schwartz,1993-03 Regina Schwartz presents a powerful reading of *Paradise Lost* by tracing the structure of the poem to the pattern of repeated beginnings found in the Bible In both works the world order is constantly threatened by chaos By drawing on both the Bible and the more contemporary works of among others Freud Lacan Ricoeur Said and Derrida Schwartz argues that chaos does not simply threaten order but rather chaos inheres in order

Medusa's Mirrors Julia M. Walker,1998 The question of selfhood in Renaissance texts constitutes a scholarly and critical debate of almost unmanageable proportions The author of this work begins by questioning the strategies with which male writers depict powerful women Although Spenser's Britomart Shakespeare's Cleopatra and Milton's Eve figure selfhood very differently and to very different ends they do have two significant elements in common mirrors and transformations that diminish the power of the female self

Paradise Lost and the Cosmological Revolution Dennis Danielson,2014-11-06 This volume brings John Milton's *Paradise Lost* into dialogue with the challenges of cosmology and the world of Galileo whom Milton met and admired a universe encompassing space travel an earth that participates vibrantly in the cosmic dance and stars that are world's Of destined habitation Milton's bold depiction of our universe as merely a small part of a larger multiverse allows the removal of hell from the center of the earth to a location in the primordial abyss In this wide ranging work Dennis Danielson lucidly unfolds early modern cosmological debates engaging not only Galileo but also Copernicus Tycho Kepler and the English Copernicans thus placing Milton at a rich crossroads of epic poetry and the history of science

Regaining Paradise Lost Thomas N. Corns,2014-01-21 *Paradise Lost* is not merely the masterpiece of John Milton 1608-74 but a turning point in style and form which had a profound influence on the poetry of the following century Divided into two parts this major survey begins by discussing the revolutionary characteristics of *Paradise Lost* in the context of contemporary literary norms and examines the theological psychological stylistic and narrative innovation in the poem It then provides a fuller account of the complex and now obscure political and theological issues and other issues that Milton's poem addresses and sought to resolve It concludes by examining the themes discussed in the light of the influence of the poem on the tradition of English literature

The Reformation of the Subject Linda Gregerson,1995-05-26 *The Reformation of the Subject* is a study of the cultural contradictions that gave birth to the English Protestant epic In lucid and theoretically sophisticated language Linda Gregerson examines the fraught ideological political and gender conflicts that are woven into the texture of *The Faerie Queene* and *Paradise Lost* She reminds us that

Reformation iconoclasts viewed verbal images with the same aversion as visual images because they too were capable of waylaying the human imagination Through a series of detailed readings Gregerson examines the different strategies adopted by Spenser and Milton as they sought to distinguish their poems from idols yet preserve the shaping power that iconoclasts have long attributed to icons Tracing the transformation of the epic poem into an instrument for the reformation of the political subject Gregerson thus provides an illuminating contribution to our understanding of the ways in which subjectivities are historically produced

Ground-Work Hillary Eklund, 2017-03-21 How does soil as an ecological element shape culture With the sixteenth century shift in England from an agrarian economy to a trade economy what changes do we see in representations of soil as reflected in the language and stories during that time This collection brings focused scholarly attention to conceptions of soil in the early modern period both as a symbol and as a feature of the physical world aiming to correct faulty assumptions that cloud our understanding of early modern ecological thought that natural resources were then poorly understood and recklessly managed and that cultural practices developed in an adversarial relationship with natural processes Moreover these essays elucidate the links between humans and the lands they inhabit both then and now

Early Modern English Literature and the Poetics of Cartographic Anxiety Chris Barrett, 2018-03-02 The Cartographic Revolution in the Renaissance made maps newly precise newly affordable and newly ubiquitous In sixteenth century Britain cartographic materials went from rarity to household d cor within a single lifetime and they delighted inspired and fascinated people across the socioeconomic spectrum At the same time they also unsettled upset disturbed and sometimes angered their early modern readers Early Modern English Literature and the Poetics of Cartographic Anxiety is the first monograph dedicated to recovering the shadow history of the many anxieties provoked by early modern maps and mapping in the sixteenth and seventeenth centuries A product of a military arms race often deployed for security and surveillance purposes and fundamentally distortive of their subjects maps provoked suspicion unease and even hostility in early modern Britain in ways not dissimilar from the anxieties provoked by

global positioning enabled digital mapping in the twenty first century At the same time writers saw in the resistance to cartographic logics and strategies the opportunity to rethink the way literature represents space and everything else This volume explores three major poems of the period Edmund Spenser s *The Faerie Queene* 1590 1596 Michael Drayton s *Poly Olbion* 1612 1622 and John Milton s *Paradise Lost* 1667 1674 in terms of their vexed and vexing relationships with cartographic materials and shows how the productive protest staged by these texts redefined concepts of allegory description personification bibliographic materiality narrative temporality analogy and other elemental components of literary representations

The Blackwell Companion to the Bible in English Literature Rebecca Lemon,Emma Mason,Jonathan Roberts,Christopher Rowland,2012-02-28 This Companion explores the Bible s role and influence on individual writers whilst tracing the key developments of Biblical themes and literary theory through the ages An ambitious overview of the Bible s impact on English literature as arguably the most powerful work of literature in history from the medieval period through to the twentieth century Includes introductory sections to each period giving background information about the Bible as a source text in English literature and placing writers in their historical context Draws on examples from medieval early modern eighteenth century and Romantic Victorian and Modernist literature Includes many secular or anti clerical writers alongside their Christian contemporaries revealing how the Bible s text shifts and changes in the writing of each author who reads and studies it

Milton among the Philosophers Stephen M. Fallon,2018-10-18 While Johnson charged that Milton unhappily perplexed his poetry with his philosophy Stephen M Fallon argues that the relationship between Milton s philosophy and the poetry of *Paradise Lost* is a happy one The author examines Milton s thought in light of the competing philosophical systems that filled the vacuum left by the repudiation of Aristotle in the seventeenth century In what has become the classic account of Milton s animist materialism Fallon revises our understanding of Milton s philosophical sophistication The book offers a new interpretation of the War in Heaven in *Paradise Lost* as a clash of metaphysical systems with free will hanging in the balance

The Chinese Impact upon English Renaissance Literature Mingjun Lu,2016-03-09 *The Chinese Impact upon English Renaissance Literature* examines how English writers responded to the cultural shock caused by the first substantial encounter between China and Western Europe Author Mingjun Lu explores how Donne and Milton came to be aware of England s participation in the race for the Far East launched by Spain and Portugal and how this new global awareness shaped their conceptions of cultural pluralism Drawing on globalization theory a framework that proves useful to help us rethink the literary world of Renaissance England in terms of global maritime networks Lu proposes the concept of liberal

cosmopolitanism to study early modern English engagement with the other The advanced culture of the Chinese Lu argues inculcated in Donne and Milton a respect for difference and a cosmopolitan curiosity that ultimately led both authors to reflect in profound and previously unexamined ways upon their Eurocentric and monotheistic assumptions The liberal cosmopolitan model not only opens Renaissance literary texts to globalization theory but also initiates a new way of thinking about the early modern encounter with the other beyond the conventional colonial postcolonial nationalist and Orientalist frameworks By pushing East West contact back to the period in 1570s 1670s Lu s work uncovers some hitherto unrecognized Chinese elements in Western culture and their shaping influence upon English literary imagination *Milton and Maternal Mortality* Louis Schwartz,2009-06-11 This book examines the impact of maternal mortality on Milton s life and work and provides important readings of his major poems *Milton and the New Scientific Age* Catherine Martin,2019-04-10 Milton and the New Scientific Age represents significant advantages over all previous volumes on the subject of Milton and science as it includes contributions from top scholars and prominent beginners in a broad number of fields Most of these fields have long dominated work in both Milton and seventeenth century studies but they have previously not included the relatively new and revolutionary topic of early modern chemistry physiology and medicine Previously this subject was confined to the history of science with little if any attention to its literary development even though it prominently appears in John Milton s *Paradise Lost* which also includes early science fiction speculations on aliens ignored by most readers Both of these oversights are corrected in this essay collection while more traditional areas of research have been updated They include Milton s relationship both to Bacon and the later or Royal Society Baconians his views on astronomy and his vitalist views on biology and cosmology In treating these topics our contributors are not mired in speculations about whether or not Milton was on the cutting edge of early science or science fiction for as nearly all of them show the idea of a cutting edge is deeply anachronistic at a time when most scientists and scientific enthusiasts held both fully modern and backward looking beliefs By treating these combinations contextually Milton s literary contributions to the new science are significantly clarified along with his many contemporary sources all of which merit study in their own right **Milton, Longinus, and the Sublime in the Seventeenth Century** Thomas Matthew Vozer,2024-03-07 In this wide ranging study in classical reception and the history of ideas Thomas Matthew Vozer shows how Milton s ideas of the sublime were informed by a deep understanding of Longinus and other ancient sources The book also demonstrates how Longinus s ideas and writings were far more prevalent in early modern England than previously thought **Myth, Metaphor and Science** Alan Wall,Goronwy Tudor Jones,2009 This book explores the way in which language is used in fiction poetry and science It examines the role of metaphor in structuring our thought and questions any simplistic notion of creativity There is an enquiry into the significance of myth for the modern writer Why do our earliest narratives return to haunt us at the end of history The final essays ask what it means to attempt scientific descriptions of reality in words Can language here ever be anything more than a clumsy approximation

of mathematics The book ends with a paper written jointly by the particle physicist Goronwy Tudor Jones and Alan Wall exploring the meaning of complementarity in modern physics by describing in detail the double slit experiment
