Remembering Water:

Water Inspectors Jill Shinkle, 2001 Nine activities designed to help children ages 10-15 become acquainted with the characteristics of water: taste, salinity, temperature, hardness, clarity, etc. Students construct scientific instruments such as a Meyer Water Sampler, hydrometer, and Secchi Disk; play water charades; and search for aquatic life. Gives suggestions on how activities might be used by the Webelos, Boy Scouts, Boys and Girls Clubs, Junior Girl Scouts, 4-H, and Campfire programs.

Media and Water Joanne Garde-Hansen, 2021-01-14 As flooding, drought, and water scarcity become more pronounced due to climate change, so the way in which these events are presented in the media assumes greater significance. In particular, the media plays an important role in shaping the public perception and understanding of water issues and debates around extreme weather events. More generally, Joanne Garde-Hansen's book offers a sustained and comprehensive exploration of media representations of water. Drawing on a wide range of media, including newspapers, digital photography, radio, television, and video, as well as empirical research on media and memory, she examines how drought, flooding, and water management have been portrayed in the media, both historically and in the contemporary world. The use of the media by water institutions to manage public perceptions and the use of digital media by the public to engage with water companies is also included. A particular feature of the book is an examination of water and gender in developed nations. One of the first books to look at media representations of water, this pioneering work provides valuable insights for both scholarly and professional water research.

Notes on Water David Appelbaum, 2017-09-26 This poetical study of water ranges from classical myth and literature to modern physics and microbiology. Because water exists in three forms or phases—liquid, solid, and gas—each needs its own constellation of ideas. Its subtle movement is the hidden source of question, questioner, and the phenomenon of life. Its power is transformation, the unspoken theme of the book.
