close game was tighter than a new pair of shoes on a rainy day Barber's influence on his contemporaries and the many generations of broadcasters who followed him cannot be overstated But behind all the base hits balls and strikes lies a compelling story that dramatizes the shifting expectations and roles of a public figure the sports broadcaster as he adapted to complex cultural changes throughout the course of twentieth century American life Red Barber follows the trajectory of Barber's long career from radio and television play by play man for the Cincinnati Reds Brooklyn Dodgers and New York Yankees to his work calling college and professional football games his nine year tenure as director of sports for CBS Radio and his second acts as an Episcopal lay reader sportswriter and weekly guest with Bob Edwards on NPR's Morning Edition This talented public figure was also a private man committed to rigorous self examination and willing to evolve and grow under the influence of changing times When the Dodgers first signed Jackie Robinson and smashed the color barrier in Major League Baseball Barber struggled to overcome the racism he had absorbed from his culture as a child But after observing the vicious abuse Robinson endured from opposing fans Barber became an ardent supporter of him and the many Black players who followed Barber was also bothered deeply by the strains that his single minded careerism imposed on his family He was challenged to navigate longtime family tensions after his only child Sarah came out as a lesbian And his primary role during the later years of his life was caretaking for his wife Lylah during her decline from Alzheimer's disease at a time when the ailment was something many families concealed Ultimately Red Barber traces the career of a true radio and television pioneer who was committed to the civic responsibility of mass media Barber firmly believed the most important role of a broadcaster was telling the truth and promoting public well being Transgenerational Remembrance Jessica

Mitchell, 2015-08-17 Heidegger s later thought is a thinking of things so argues Andrew J Mitchell in The Fourfold Heidegger understands these things in terms of what he names the fourfold a convergence of relationships bringing together the earth the sky divinities and mortals and Mitchell s book is the first detailed exegesis of this neglected aspect of Heidegger s later thought As such it provides entr e to the full landscape of Heidegger s postwar thinking offering striking new interpretations of the atomic bomb technology plants animals weather time language the holy mortality dwelling and more What results is a conception of things as ecstatic relational singular and most provocatively as intrinsically tied to their own technological commodification A major new work that resonates beyond the confines of Heidegger scholarship The Fourfold proposes nothing less than a new phenomenological thinking of relationality and mediation for understanding the things around us
