British Nautical Melodramas, 1820-1850

Arnold Schmidt, 2022-07-30 During the 1820s and 30s nautical melodramas reigned supreme on London stages entertaining the mariners and maritime workers who comprised a large part of the audience for small theatres These plays mixed sentimental moments and comic interludes of domestic melodrama with patriotic images that communicated and reinforced imperial themes However generally the study of British theatre history moves from medieval and renaissance plays directly to the realism and naturalism of late Victorian and modern drama Readers typically encounter a gap between Restoration and eighteenth century plays like those of Oliver Goldsmith and Richard Brinsley Sheridan and late nineteenth plays by Henrik Ibsen and Oscar Wilde Nineteenth century drama with the possible exception of plays by Byron Shelley and Wordsworth remains all but invisible Until recently melodramatic plays written and performed during this gap received little scholarly attention but their value as reflections of Britain's promulgation of imperial ideology and its role in constructing and maintaining class gender and racial identities have given discussions of melodrama force and momentum The plays included in these three volumes have never appeared in a critical anthology and most have not been republished since their original nineteenth century editions Each play is transcribed from original documents and includes an author biography a headnote about the play itself full annotations with brief definitions of unfamiliar vocabulary and explanatory notes Comprehensive editorial apparatus details the nineteenth century imperial naval political and social history relevant to the plays nautical themes as well as discussing nineteenth century theatre history melodrama generally and the nautical melodrama in particular Contemporary theatre practices acting audiences staging lighting special effects are also examined An extensive bibliography of primary and secondary texts a complete index and contemporary images of the actors theatres stage sets playbills costumes and locales have been compiled to aid study further

Paley, 2008-07-10 Although Coleridge's thinking and writing about the fine arts was both considerable and interesting this has not been the subject of a book before Coleridge owed his initiation into art to Sir George Beaumont In 1803 4 he had frequent opportunities to learn from Beaumont to study Beaumont's small but elegant collection and to visit private collections Before leaving for Malta in April 1804 Coleridge wrote I have learnt as much from Sir George Beaumont respecting Pictures Painting and Painters as I ever learnt on any subject from any man in the same Space of Time In Italy in 1806 Coleridge's experience of art deepened thanks to the American artist Washington Allston who taught him to see the artistic sights of Rome with a painter's eye Coleridge also visited Florence and Pisa and later said of the frescoes in Pisa's Camp Santo The impression was greater I may say than that any poem ever made upon me Back in England Coleridge visited London exhibitions country house collections and even artists studios In 1814 both Coleridge and Allston were in Bristol Coleridge lecturing Allston exhibiting Coleridge's *On the Principles of Genial Criticism* began as a defense of Allston's paintings but became a statement about all the arts This book an important contribution to Coleridge's intellectual biography will make readers aware of a dimension of his thinking that has been largely ignored until now
