BOOK JACKET

War, Culture and Society in Renaissance Venice John Rigby Hale, David Chambers, Cecil H. Clough, Michael Mallett, 1993-01-01 While the majority of these essays are about wars fought against Venice's enemies or on the building and defence of Venetian and other fortifications there are also essays on other aspects of Venetian life and art on Giorgione's earliest work on the career of a Venetian pope on the building of the Ca d'Oro and on the Diarii of Marino Sanuto

The Architecture of the Italian Renaissance Jacob Burckhardt, 1987-07-15 There may not be any book on architecture so delightful to dip into one wishes there were a pocket edition to take on an Italian vacation not only for its information and vision but for such pleasant reminders as that the citizens of Treviso carried Tullio Lombardo's friezes through the town in triumph before they were attached to a building

*The Renaissance in National Context* Roy Porter, Mikulas Teich, 1992 The Renaissance in National Context aims to dispel the commonly held view that the great efflorescence of art learning and culture in the period from c 1350 to 1550 was solely or even primarily an Italian phenomenon These essays

address the development of art literacy and humanism across the length and breadth of Europe showing that the Renaissance had many sources independent of Italy meeting numerous local needs and serving diverse local functions specific to the political economic social and religious climates of various regions and principalities The authors show that though the Renaissance was in a fashion backward looking recovering the culture of antiquity it nevertheless served as the springboard for many specifically modern developments including the rise of diplomacy education printing nationalism and the new science

**Architectural Invention in Renaissance Rome** Yvonne Elet,2018-01-11 Villa Madama Raphael s late masterwork of architecture landscape and decoration for the Medici popes is a paradigm of the Renaissance villa The creation of this important unfinished complex provides a remarkable case study for the nature of architectural invention Drawing on little known poetry describing the villa while it was on the drawing board as well as ground plans letters and antiquities once installed there Yvonne Elet reveals the design process to have been a dynamic collaborative effort involving humanists as well as architects She explores design as a self reflexive process and the dialectic of text and architectural form illuminating the relation of word and image in Renaissance architectural practice Her revisionist account of architectural design as a process engaging different systems of knowledge visual and verbal has important implications for the relation of architecture and language meaning in architecture and the translation of idea into form

*Emulating Antiquity* David Hemsoll,2019-11-05 A revelatory account of the complex and evolving relationship of Renaissance architects to classical antiquity Focusing on the work of architects such as Brunelleschi Bramante Raphael and Michelangelo this extensively illustrated volume explores how the understanding of the antique changed over the course of the Renaissance David Hemsoll reveals the ways in which significant differences in imitative strategy distinguished the period s leading architects from each other and argues for a more nuanced understanding of the widely accepted trope first articulated by Giorgio Vasari in the 16th century that Renaissance architecture evolved through a linear step by step assimilation of antiquity Offering an in depth examination of the complex sometimes contradictory and

often contentious ways that Renaissance architects approached the antique this meticulously researched study brings to life a cacophony of voices and opinions that have been lost in the simplified Vasarian narrative and presents a fresh and comprehensive account of Renaissance architecture in both Florence and Rome      **The Encyclopedia Britannica** Thomas Spencer Baynes, 1888      **Bibliographic Guide to Art and Architecture** New York Public Library.
