Philosophy, Rhetoric, and Thomas Hobbes Timothy Raylor, 2018-11-01 Thomas Hobbes claimed to have founded the discipline of civil philosophy political science The claim did not go uncontested and in recent years the relationship of philosophical reasoning to rhetorical persuasion in Hobbes's work has become a significant area of discussion as scholars attempt to align his disparaging remarks about rhetoric with his dazzling practice of it in works like *Leviathan* The dominant view is that having rejected an early commitment to humanism and with it rhetoric when he adopted the scientific approach to philosophy in the late 1630s Hobbes later came to re-embrace it as an essential aid to or part of philosophy Philosophy Rhetoric and Thomas Hobbes proposes that Hobbes was from first to last dubious about the place of rhetoric in civil society and came to see it as a pernicious presence within philosophy a position from which he did not retreat It offers a fresh and expanded picture of Hobbes's humanism by examining his years as a country house tutor his teaching and his translation of Thucydides the influence on him of Bacon and the range of his early natural historical and philosophical interests In demonstrating the distinctively Aristotelian character of his understanding of rhetoric the book also revisits the new approach to philosophy Hobbes adopted at the end of the 1630s clarifying the nature and scope of his concern about the contamination of philosophy and political life by the procedures of rhetorical argumentation

The Humanist-scholastic Debate in the Renaissance & Reformation Erika Rummel, 1995 Erika Rummel delves into the extensive primary sources of the times bringing the issues and their continuing legacy to light and making a valuable contribution to our understanding of the intellectual climate of early modern Europe *Language and Statecraft in Early Modern Venice* Elizabeth Horodowich, 2008-04-21 This book demonstrates that a crucial component of statebuilding in Venice was the management of public speech Using a variety of historical sources Horodowich shows that the Venetian state constructed a normative language a language based on standards of politeness civility and piety to protect and reinforce its civic identity Rhetoric and the Writing of History, 400-1500 Matthew Kempshall, 2011-08-31 This book provides an analytical overview of the vast range of historiography which was produced in western Europe over a thousand year period between c 400 and c 1500 Concentrating on the general principles of classical rhetoric central to the language of this writing alongside the more familiar traditions of ancient history biblical exegesis and patristic theology this survey introduces the conceptual sophistication and semantic rigour with which medieval authors could approach their narratives of past and present events and the diversity of ends to which this history could then be put By providing a close reading of some of the historians who put these linguistic principles and strategies into practice from Augustine and Orosius through Otto of Freising and William of Malmesbury to Machiavelli and Guicciardini it traces and questions some of the key methodological changes that characterise the function and purpose of the western historiographical tradition in this formative period of its development Galileo's Reading Crystal Hall, 2013-12-12 Galileo 1564 1642 incorporated throughout his work the language of battle the rhetoric of the epic and the structure of romance as a means to elicit emotional responses from his readers against his opponents By turning to the literary as a field for creating knowledge Galileo delineated a textual space for establishing and validating the identity of the new idealized philosopher Galileo's Reading places Galileo in the complete intellectual and academic world in which he operated bringing together for example debates over the nature of floating bodies and Ludovico Ariosto's Orlando furioso disputes on comets and the literary criticism of Don Quixote mathematical demonstrations of material strength and Dante's voyage through the afterlife and the parallels of his feisty note taking practices with popular comedy of the period **The Present State of Scholarship in the History of Rhetoric** Lynée Lewis Gaillet, Winifred Bryan Horner, 2010-03-15 Through two previous editions The Present State of Scholarship in Historical and Contemporary Rhetoric has not only introduced new scholars to interdisciplinary research but also become a standard research tool in a number of fields and pointed the way toward future study Adopting research methodologies of revision and recovery this latest edition includes all new material while still following the format of the original and is constructed around bibliographical surveys of both primary and secondary works addressing the Classical Medieval Renaissance and eighteenth through twentieth century periods within the history of rhetoric The Present State of

Scholarship in the History of Rhetoric doesn't simply update but rather recasts study in the history of rhetoric. The authors experienced and well-known scholars in their respective fields redefine existing strands of rhetorical study within the periods, expand the scope of rhetorical engagement and include additional figures and their works. The globalization and expansion of rhetoric are demonstrated in each of these parts and seen clearly in the inclusion of more female rhetors, discussions of historical and contemporary electronic resources and examinations of rhetorical practices falling outside the academy and the traditional canon. New to this edition is a cumulative review of twentieth-century rhetoric along with a thematic index designed to facilitate interdisciplinary or specialized study and scholarly research across the traditional historical periods. As programs incorporating rhetorical studies continue to expand at the university level, students and researchers are in need of up-to-date bibliographical resources. No other work matches the scope and approach of *The Present State of Scholarship in the History of Rhetoric*, which carries scholarship on rhetoric into the twenty-first century.

Theorizing Histories of Rhetoric Michelle Ballif, 2013-02-25. During the decades of the 1980s and 1990s, historians of rhetoric, composition and communication vociferously theorized historiographical motivations and methodologies for writing histories in their fields. After this fertile period of rich, contested and impassioned theorization, scholars busily undertook the composition of numerous historical works, complicating master narratives and recovering silenced voices and rhetorical practices. Yet though historians in these fields have gone about the business of writing histories, the discussion of theorization has been quiet. In this welcome volume, fifteen scholars consider once again the theory of historiography, asking difficult questions about the purposes and methodologies of writing histories of rhetoric broadly defined and questioning what it means, what it should mean, what it could mean to write histories of rhetoric, composition and

communication The topics addressed include the privileging of the literary and the textual over material artifacts as prime sources of evidence in the study of classical rhetoric the use of rhetorical hermeneutics as a methodology for interpreting past practices the investigation of feminist methodologies that do not fit into the dominant modes of feminist historiographical work and the examination of archives with a queer eye to better construct nondiscriminatory narratives Contributors also explore the value of approaching historiography through the lenses of jazz improvisation and complexity theory and the historiographical method of writing the future in ways that refigure our relationships to time and to ourselves Consistently thoughtful and carefully argued these essays successfully revive the discussion of historiography in rhetoric inspiring fresh avenues of exploration in the field

Reading the Ovidian Heroine Kathryn McKinley, 2017-09-18 This study investigates the reception of Ovid's heroines in *Metamorphoses* commentaries written between 1100 and 1618 The Ovidian heroine offers a telling window onto medieval and early modern clerical constructions of gender and selfhood In the context of classical representations of the feminine the book examines Ovid's engagement of the heroine to explore problems of intentionality The second part of the study presents commentaries by such clerics as William of Orlans the Vulgate commentator Thomas Walsingham and Raphael Regius illustrating the reception of the Ovidian heroine in medieval France and England as well as in Renaissance Italy and Germany The works analyzed here show that clerical readings of the feminine in Ovid reflect greater heterogeneity than is commonly alleged Both moralizing summaries and Latin editions used as schooltexts are discussed

J.L. Vives: De ratione dicendi Juan Luis Vives, 2017-11-01 Juan Luis Vives 1533 treatise on rhetoric *De ratione dicendi* is a highly original but largely neglected Renaissance Latin text David Walker's critical edition with introduction facing translation and notes is the first to appear in English The conception of rhetoric which Vives elaborates in the *De ratione dicendi* differs significantly from that which is found in other rhetorical treatises written during the humanist Renaissance Rhetoric as Vives conceives it is part of the discipline of self knowledge and involves a distinct way of thinking about the way kinds of rhetorical style manifested modes of human life Moving as it did from the concrete particulars of a man's style to their abstractable implications the study of rhetoric was for him a form of moral thinking which enabled the student to develop a critical framework for understanding the world he lived in
