[Celestial Sleuth](#) Donald W. Olson, 2013-10-02 For a general audience interested in solving mysteries in art history and literature using the methods of science forensic astronomy is a thrilling new

field of exploration Astronomical calculations are the basis of the studies which have the advantage of bringing to readers both evocative images and a better understanding of the skies Weather facts volcano studies topography tides historical letters and diaries famous paintings military records and the friendly assistance of experts in related fields add variety depth and interest to the work The chosen topics are selected for their wide public recognition and intrigue involving artists such as Vincent van Gogh Claude Monet Edvard Munch and Ansel Adams historical events such as the Battle of Marathon the death of Julius Caesar the American Revolution and World War II and literary authors such as Chaucer Shakespeare Joyce and Mary Shelley This book sets out to answer these mysteries indicated with the means and expertise of astronomy opening the door to a richer experience of human culture and its relationship with nature Each subject is carefully analyzed As an example using the study of sky paintings by Vincent van Gogh the analytical method would include computer calculations of historical skies above France in the 19th century finding and quoting the clues found in translations of original letters by Van Gogh making site visits to France to determine the precise locations when Van Gogh set up his easel and what celestial objects are depicted For each historical event influenced by astronomy there would be a different kind of mystery to be solved As an example How can the phase of the Moon and time of moonrise help to explain a turning point of the American Civil War the fatal wounding of Stonewall Jackson at Chancellorsville in 1863 For each literary reference to astronomy it was determined which celestial objects were being described and making an argument that the author is describing an actual event For example what was the date of the moonlit scene when Mary Shelley first had the idea for her novel *Frankenstein* These and more fun riddles will enchant and delight the fan of art and astronomy *Van Gogh Notebook* Vincent Gogh, 2017-03-23 *Van Gogh Notebook* This notebook series are inspired by Vincent Van Gogh paintings With grid line design interior it is perfect for any kind of writing from shopping list to poem and even perfect for drawing It comes with 5 x 8 in size Front and back covers are with full color reproduction of Vincent van Gogh's Painting *Van Gogh Landscapes* Cristina Berna, Eric Thomsen, Vincent Van Gogh 1853-1890 is often mentioned as one of the best examples of Japonism Western art inspired by Japanese art Van Gogh was infatuated with a vision of Japanese art He experienced this mainly from Japanese woodblock prints which became widely available after Commodore Matthew Perry forced Japan to open with the Convention of Kanagawa in 1854 after abt 250 years of seclusion Van Gogh and his brother Theo dealt in these prints for a while and Van Gogh's studio was literally plastered with them Van Gogh's vision of Japan was a mythical fantasy an ideal for the artist and he even tried to establish an artist's colony to live out this dream Japan on the other hand and especially the woodblock print artists were inspired by earlier Dutch engraved prints which had a profound influence on artists like Katsushika Hokusai from abt 1800 It was from these prints Western perspective entered into Japanese art In the period from abt 1800 to 1850 Japanese prints evolved with Hokusai's 36 Views of Mt Fuji and became the inspiration that met painters like van Gogh In a way what these Western artists saw was a Japanese mirror of their own processed artistic tradition Soul Federation

Toshio Suzuki,2010-04-30 The basic topic of this book is to advocate the establishment of a world federation and world government and to consider the philosophy on how we can be happy As for the establishment of a world federation and world government the benefits of a world federation and world government are introduced As for the philosophy on how we can be happy some religious thoughts are introduced For example an idea which improves Einsteins theory of relativity is introduced The Basic philosophy is that we must do good if we want to be happy Our mission from God is to make a world where all people can live happily These thoughts lead to the establishment of world federation and world government The Passions of Vincent van Gogh B. Ione Mutchler Ph. D.,2014-04-16 Vincent van Gogh s life was driven by passions from the religious to the romantic These passions illuminated his work as an artist but also led to his many disappointments in life Whether attempting to be a missionary falling in love with his cousin sheltering a prostitute and her children proposing to his neighbor s spinster daughter or establishing an art colony with Paul Gauguin failure haunted him Although his uniquely vibrant colors and dramatic brushstrokes redefined impressionist painting success eluded him Only after his tragic death was his artwork finally recognized for its intensity appeal and enduring impact *Freud's Art - Psychoanalysis Retold* Janet Sayers,2014-06-03 In Freud s Art Psychoanalysis Retold Janet Sayers provides a refreshing new introduction to psychoanalysis by retelling its story through art She does this by bringing together experts from psychoanalysis art history and art education to show how art and psychoanalysis illuminate each other Freud s Art begins with major founders of psychoanalysis Freud Jung Spielrein and Klein It then details art minded developments of their ideas by Adrian Stokes Jacques Lacan Marion Milner Anton Ehrenzweig Donald Winnicott and Wilfred Bion before concluding with the recent theories of Jean Laplanche and Julia Kristeva The result is a book which highlights the importance of psychoanalysis together with painting and the visual arts to understanding the centrality of visual imagery fantasy nightmares and dreams to all of us artists and non artists alike Illustrated throughout with fascinating case histories examples of well known and amateur art doodles drawings and paintings by both analysts and their patients Freud s Art provides a compelling account of psychoanalysis for all those studying working in or simply intrigued by psychology mental health and creativity today *Poets on Paintings* Robert D. Denham,2010-03-10 Ekphrasis the description of pictorial art in words is the subject of this bibliography More specifically some 2500 poems on paintings are catalogued by type of publication in which they appear and by poet Also included are 2000 entries on the secondary literature of ekphrasis including works on sculpture music photography film and mixed media **The Pursuit of Spiritual Wisdom** Naomi E. Maurer,Vincent van Gogh,Paul Gauguin,1998 This book explores van Gogh s and Gauguin s concepts of spirituality in life and art and the ways in which their ideas and the events of their personal lives shaped their creation of repertoires of meaningful symbolic motifs **Storm Farmer** Tracey Gass Ranze,2011-11-21 Storm Farmer is a beautiful poetic offering from the creative voice of Tracey Gass Ranze This compilation of poems observes life through the lens of the heart leaving the reader immersed in the full emotion

of the experience whether it is a winter storm or a peace march one feels touched In Gass Ranze s first collection of poems selected from over 30 years of writing she expresses her love of life and open spirit in poetic storytelling at its best Storm Farmer moves powerfully through six chapters of verse where even ordinary events are rendered into instinctual moments of frank honesty Throughout this book these poems speak to the invisible power that weaves people together as one human family on earth This book delivers a fresh perspective of life in community with family nature spirit justice and politics often with an alternative view Storm Farm introduces Gass Ranze as a powerful and progressive leading voice in the revolutionary times of this new century **The Kröller-Müller Museum** Ellen Joosten,1965 An intimate look at the hitherto unpublished or lesser known art treasures of the small museums of the world *Catalogue of 272 Works by Vincent Van Gogh Belonging to the Collection of the State Museum Kröller-Müller* Rijksmuseum Kröller-Müller,1961 **Vincent Van Gogh's 'Road with Cypress and Star' Art of Life Journal (Lined)** Ted E Bear Press,2016-10-14 Blank journal with cover art from the masters Life is art and what better way to chronicle the goings on in your life than in our Art of Life Journal showcasing Vincent van Goghs work of art Road with Cypress and Star There are 150 pages for journal entries Each page is printed on 60 stock and is lightly lined and embellished The cover is printed on 10pt stock and is laminated for increased durability **The Virgin and the Mousetrap** Chet Raymo,1991 The essays in this collection attempt to frame a broad humanist context for various current and historical scientific topics Subjects range from an astronomical interpretation of Van Gogh s Starry Night to popular misconceptions about Neanderthal humans to the risk factors that are inherent in the development of any new technology Editorial review *Road, with Cypress and Star* John F. Deane,1988 *Aesthetics and Innovation* Leonid Dorfman,Colin Martindale,Vladimir Petrov,2007 In this book we attempted to gather together a set of chapters that describe new ways of approaching questions about aesthetics and innovation Rather than going over old ground the chapters describe attempts to break out in new directions The book begins with a description of von Ehrenfel TM s development of a Gestalt theory of aesthetics so evocative of the Vienna of 1900 that readers will wish that they had been there to experience the intellectual excitement and ends with a survey the very latest research on brain scan research on perception of art In between we encounter chapters as diverse as a description of cognitive effects on art perception and on the analogies between oscillations in art history and waves in the physical world About half of the book contains chapters by well known western psychological aestheticians and half chapters by Russian scholars many of whom will be new to western readers As well as describing new methods and results the chapters by Russian scholars will be novel to most western readers because the Russian perspective on aesthetics and innovation is rather different than the traditional western perspectives Looking at phenomena from new viewpoints never hurts and very often helps in science **Essential Van Gogh** Josephine Cutts,James Smith,2001 This book looks at all aspects of Vincent van Gogh s painting in detail with commentary on 120 of his works *Museums Discovered*,1965
