## **Robert Bakewell And The Longhorn Breed Of Cattle:**

**Robert Bakewell and the Longhorn Breed of Cattle** Pat Stanley,1995      **Cattle Breeds of the World** Marleen Felius,2024-12-02 The origin and evolution of cattle breeds was long explained only by historical sources with questionable reliability In recent years genetic and molecular data have become available that shed new light on this revealing how from neolithic times breeds emerged by migratory movements and mutual influencing of gene pools But while molecular breed characterization is now rapidly advancing phenotypic characterization remains under explored This publication presents a classification of around 1 000 cattle breeds based on geographical and historical data and morphology Males and females of every breed are portrayed by the author in water colour and to scale The illustrations are positioned next to each breed s description completing the overall image      **History of the Devon breed of cattle** J. Sinclair,      **The Cattle of the Sun** Jeremy McInerney,2010-05-30 Includes selections translated from the Ancient Greek      [Britain's Industrial Revolution in 100 Objects](#) John Broom,2023-02-22 The period of Britain s Industrial Revolution was perhaps the most transformative era in the nation s history Between about 1750 and 1914 life and work home and school church and community changed irreversibly for Britain s rapidly expanding population Lives were transformed some for the better but many endured abysmal domestic and workplace conditions Eventually improvements were made to Britain s social fabric which led to the prospect of richer and more fulfilled lives for working men women and even children Focusing on 100 objects that either directly influenced or arose from these changes John Broom offers a distinctive insight into this fascinating age With plentiful illustrations and suggestions for visits to hundreds of places of historical interest this book makes an ideal companion for a journey into Britain s industrial past      *Poultry Husbandry* ,1906      **Matthew and George Culley** Matthew Culley,George Culley,2002 The travel journals and letters of Matthew and George Culley give a fresh and practical picture of agriculture and related conditions in England and Scotland in the late eighteenth century as seen by two successful farmers who pioneered and spread improved methods and livestock breeds in Northumberland and beyond These down to earth journals are worthy to stand alongside such famous contemporary works as Arthur Young s *Tours* and John Byng s *Diaries*      *The Encyclopedia Britannica* ,1910      **The Encyclopaedia Britannica** ,1910      *The Encyclopaedia Britannica* Hugh Chisholm,1910      *The Encyclopædia Britannica* ,1910      *British Breeds of Live Stock* Great Britain. Board of Agriculture and Fisheries,1910      **The Encyclopædia Britannica** Hugh Chisholm,1910      **Diet for a Large Planet** Chris Otter,2023-06-05 In this magisterial study Chris Otter traces Britain s transition to a diet rich in animal proteins and refined carbohydrates like wheat and sugar a diet that required more acreage than that of Britain itself and that if followed everywhere would soon deplete the planet s resources as the title announces this was truly a diet for a large planet From the late 1700s to the end of World War II Otter accounts for the structures practices and ideologies generated by Britain s nutrition transition He shows how Britain was the first nation to undergo the population explosion urbanization and

industrialization we associate with modernity and how it managed the unprecedented problem of how to feed its growing population. Its radical solution would be to outsource its food production leading away from a locally produced plant based diet to one reliant on global markets, international trade networks and enormous agro food systems that would have planetary effects on famine, war, the world economy and the wider earth system. Not only did this phase in Britain's history make the consumption of meat, white bread, sugar and butter a coveted diet linked to development, luxury and power, it also opened up a new phase in economic history, one whose dramatic effects endure to this day, whether in terms of health problems, eating disorders or the seemingly endless world food crisis.

The Encyclopædia Britannica: Calhoun-Chatelaine, 1910 *History of Shorthorn Cattle* James Sinclair, 1907 **The Herds Shot Round the World** Rebecca J. H. Woods, 2017-10-10 As Britain industrialized in the early nineteenth century, animal breeders faced the need to convert livestock into products while maintaining the distinctive character of their breeds. Thus they transformed cattle and sheep adapted to regional environments into bulky, quick fattening beasts. Exploring the environmental and economic ramifications of imperial expansion on colonial environments and production practices, Rebecca J. H. Woods traces how global physiological and ecological diversity eroded under the technological, economic and cultural system that grew up around the production of livestock by the British Empire. Attending to the relationship between type and place and what it means to call a particular breed of livestock 'native', Woods highlights the inherent tension between consumer expectations in the metropole and the ecological reality at the periphery. Based on extensive archival work in the United Kingdom, New Zealand and Australia, this study illuminates the connections between the biological consequences and the politics of imperialism. In tracing both the national origins and imperial expansion of British breeds, Woods uncovers the processes that laid the foundation for our livestock industry today.

*Mason's World Encyclopedia of Livestock Breeds and Breeding, 2 Volume Pack* Valerie Porter, Lawrence Alderson, Stephen J.G. Hall, D. PRIME: The Beef Cookbook Richard H Turner, 2017-03-09 More than 150 brilliant beef recipes from Britain's king of meat. The Encyclopedia of Historic and Endangered Livestock and Poultry Breeds Janet Vorwald Dohner, 2001-01-01 The need to preserve farm animal diversity is increasingly urgent, says the author of this definitive book on endangered breeds of livestock and poultry. Farmyard animals may hold critical keys for our survival. Janet Dohner warns
