Writing Vietnam, Writing Life Tobey C. Herzog, 2009-05 Phillip Caputo Larry Heinemann Tim O'Brien and Robert Olen Butler four young midwestern Americans coming of age during the 1960s who faced a difficult personal decision whether or not to fight in Vietnam. Each chose to participate. After coming home, these four veterans became prizewinning authors telling the war stories and life stories of soldiers and civilians. The four extended conversations included in *Writing Vietnam, Writing Life* feature revealing personal stories alongside candid assessments of each author's distinct roles as son, soldier, writer, and teacher of creative writing. As Tobey Herzog's thoughtful interviews reveal, these soldier authors have diverse upbringings, values, interests, writing careers, life experiences, and literary voices. They hold wide-ranging views on, among other things, fatherhood, war, the military, religion, the creative process, the current state of the world, and the nature of both physical and moral courage. For each author, the conversation and richly annotated chronology provide an overview of the writer's life, the intersection of memory and imagination in his writing, and the path of his literary career. Together, these four life stories also offer mini tableaux of the fascinating and troubling time of the 1960s and 1970s in America. Above all, the conversations reveal that each author is linked forever to the Vietnam War, the country of Vietnam, and its people.

The Creative Process Todd Lubart, 2018-08-29 The creative process refers to the sequence of thoughts and actions that are involved in the production of new work that is both original and valuable in its context. This book examines this process across the domains of visual art, writing, engineering, design, and music. It characterizes each domain's creative process based on evidence stemming from creators' accounts of their own activity and a wide range of observational material and theories specific to each field. Results from empirical research are then presented across a set of closely linked chapters using a common set of methodologies that seek to trace the creative process as it unfolds. This highly interdisciplinary edited collection offers valuable insight into the creative process for scholars and practitioners in the fields of psychology, education, and creative studies, as well as for any other readers interested in the creative process. Todd Lubart brings together a group of authors who are themselves actively involved in their respective creative fields and invites readers to adopt a broad perspective on the creative process in order to unravel some of its mysteries.

How to Revise a True War Story John K. Young, 2017-01-11 You can tell a true war story if you just keep on telling it Tim O'Brien writes in *The Things They Carried* Widely regarded as the most important novelist to come out of the American war in Vietnam O'Brien has kept on telling true war stories not only in narratives that cycle through multiple fictional and non-fictional versions of the war's defining experiences but also by rewriting those stories again and again Key moments of revision extend from early drafts to the initial appearance of selected chapters in magazines across typescripts and page proofs for first editions and through continuing post-publication variants in reprints *How to Revise a True War Story* is the first book-length study of O'Brien's archival papers at the University of Texas's Harry Ransom Center Drawing on extensive study of drafts and other prepublication materials as well as the multiple published versions of O'Brien's works John K. Young tells the untold stories behind the production of such key texts as *Going After Cacciato* *The Things They Carried* and *In the Lake of the Woods* By reading not just the texts that have been published but also the versions they could have been Young demonstrates the important choices O'Brien and his editors have made about how to represent the traumas of the war in Vietnam The result is a series of texts that refuse to settle into a finished or stable form just as the stories they present insist on being told and retold in new and changing ways In their lack of textual stability these variants across different versions enact for O'Brien's readers the kinds of narrative volatility that is key to the American literature emerging from the war in Vietnam Perhaps in this case you can tell a true war story if you just keep on revising it

How White Men Won the Culture Wars Joseph Darda, 2021-05-25 Reuniting white America after Vietnam If war among the whites brought peace and liberty to the blacks Frederick Douglass asked in 1875 peering into the nation's future what will peace among the whites bring The answer then and now after civil war and civil rights a white reunion disguised as a veterans reunion *How White Men Won the Culture Wars* shows how a broad contingent of white men conservative and liberal hawk and dove vet and nonvet transformed the Vietnam War into a staging ground for a post-civil rights white racial reconciliation
