Robert Frank, Museum Folkwang Essen, Centro de Arte Reina Sofía Madrid, Museo Nacional Centro de Arte Reina

Sofía, Centro Cultural de Belém (Lisbon, Portugal), 2000

Robert Frank Ute Eskildsen, 2001

Hold still, keep going

, 2001 *Robert Frank: Hold Still, Keep Going* Ute Eskildsen, 2016 Originally published to coincide with Robert Frank's exhibition **HOLD STILL, keep going** at Germany's Museum Folkwang Essen in 2001 this book explores the filmic aspects of Frank's photography The interaction between the still and moving image permeates Frank's oeuvre from his early still photographs to his concentration on filmmaking in the 1960s and his use of both thereafter Adopting a non chronological approach that juxtaposes work from a career spanning more than 60 years this volume collects prints film stills and collages as well as sequences of still photography arranged like fragments from films Frank's use of text is also crucial both in his films in the form of scripted and improvised dialogue and through words handwritten on the photographs www.amazon.com

Robert Frank Robert Frank, Canadian Museum of Contemporary Photography, 2001 *Robert Frank: Hold Still - Keep Going* Ute Eskildsen, 2001 **Encyclopedia of Twentieth-Century Photography, 3-Volume Set** Lynne

Warren, 2005-11-15 The Encyclopedia of Twentieth Century Photography explores the vast international scope of twentieth century photography and explains that history with a wide ranging interdisciplinary manner This unique approach covers the aesthetic history of photography as an evolving art and documentary form while also recognizing it as a developing technology and cultural force This Encyclopedia presents the important developments movements photographers photographic institutions and theoretical aspects of the field along with information about equipment techniques and practical applications of photography To bring this history alive for the reader the set is illustrated in black and white throughout and each volume contains a color plate section A useful glossary of terms is also included *Awakening the Eye*

George Kouvaros, 2015-09-01 Until now celebrated photographer Robert Frank's daring and unconventional work as a filmmaker has not been awarded the critical notice it deserves In this timely volume George Kouvaros surveys Frank's films and videos and places them in the larger context of experimentation in American art and literature since World War II Born in 1924 Frank emigrated from Switzerland to the United States in 1947 and quickly made his mark as a photojournalist A 1955 Guggenheim Foundation fellowship allowed him to travel across the country photographing aspects of American life that had previously received little attention The resulting book *The Americans* with an Introduction by Jack Kerouac is generally considered a landmark in the history of postwar photography During the same period Frank befriended other artists and writers among them Allen Ginsberg Peter Orlovsky and Gregory Corso all of whom are featured in his first film

Pull My Daisy which is narrated by Kerouac This film set the terms for a new era of experimental filmmaking By examining Frank's films and videos including Pull My Daisy Me and My Brother and Cocksucker Blues in the framework of his more widely recognized photographic achievements Kouvaros develops a model of cross media history in which photography film and video are complicit in the search for fresh forms of visual expression Awakening the Eye is an insightful compelling and at times moving account of Frank's determination to forge a personal connection between the circumstances of his life and the media in which he works

American Witness RJ Smith, 2017-11-07 From the author of the acclaimed James Brown biography *The One* comes the first in depth biography of renowned photographer and filmmaker Robert Frank best known for his landmark book *The Americans* As well known as Robert Frank the photographer is few can say they really know Robert Frank the man Born and raised in wartime Switzerland Frank discovered the power and allure of photography at an early age and quickly learned that the art meant significantly more to him than the money success or fame The art was all and he intended to spend a lifetime pursuing it *American Witness* is the first comprehensive look at the life of a man who's as mysterious and evasive as he is prolific and gifted Leaving his rigid Switzerland for the more fluid United States in 1947 Frank found himself at the red hot social center of bohemian New York in the 50s and 60s becoming friends with everyone from Jack Kerouac Allen Ginsberg and Peter Orlovsky to photographer Walker Evans actor Zero Mostel painter Willem de Kooning filmmaker Jonas Mekas Bob Dylan writer Rudy Wurlitzer jazz musicians Ornette Coleman and Charles Mingus and more Frank roamed the country with his young family taking roughly 27 000 photographs and collecting 83 of them into what is still his most famous work *The Americans* His was an America nobody had seen before and if it was harshly criticized upon publication for its portrait of a divided country the collection gradually grew to be recognized as a transformative American vision And then he turned his back on certain success giving up photography to reinvent himself as a film and video maker Frank helped found the American independent cinema of the 1960s and made a legendary film with the Rolling Stones Today the nonagenarian is an embodiment of restless creativity and a symbol of what it costs to remain original in America his life defined by never repeating himself never being satisfied *American Witness* is a portrait of a singular artist and the country that he saw

Photography and Jewish History Amos Morris-Reich, 2022-11-15 It is a sign of the accepted evidentiary status of photographs that historians regularly append them to their accounts Amos Morris Reich observes Very often however these photographs are treated as mere illustrations simple documentations of the events that transpired Scholars of photography on the other hand tend to prioritize the photographs themselves relegating the historical contexts to the background For Morris Reich however photography exists within reality it partakes in and is very much a component of the history it records Morris Reich examines how photography affects categories of history and experience how it is influenced by them and the ways in which our understanding of the relationship between history and photography can be theorized and reoriented Morris Reich here turns to five twentieth century cases in which photography and Jewish history intersect Albert

Kahn's utopian attempt to establish a photographic archive in Paris in order to advance world peace the spectacular failed project of Helmar Lerski the most prominent photographer in British Mandate Jewish Palestine photography in the long career of Eugen Fischer a Nazi professor of genetics the street photography of Robert Frank and the first attempt to introduce photography into the study of Russian Jewry prior to World War I as seen from the post Holocaust perspective of the early twenty first century Illustrated with nearly 100 images Photography and Jewish History moves beyond a focus on Jewish photographers or the photographic representation of Jews or Jewish visibility to plumb the deeper and more significant registers of twentieth century Jewish political history **The Grove Encyclopedia of American Art** Joan M. Marter, 2011 Arranged in alphabetical order these 5 volumes encompass the history of the cultural development of America with over 2300 entries *Objects of Hope* Steven H. Cooper, 2013-05-13 Despite the importance of the concept of hope in human affairs psychoanalysts have long had difficulty accepting responsibility for the manner in which their various interpretive orientations and explanations of therapeutic action express their own hopes for their patients In *Objects of Hope Exploring Possibility and Limit in Psychoanalysis* Steven Cooper remedies this longstanding lacuna in the literature and in the process provides a thorough comparative analysis of contemporary psychoanalytic models with respect to issues of hope and hopefulness Cooper's task is challenging given that the most hopeful aspects of human growth frequently entail acceptance of the destructive elements of our inner lives The analysis of hope then implicates what Cooper sees as a central dialectic tension in psychoanalysis that between psychic possibility and psychic limit He argues that analysts have historically had difficulty integrating the concept of limit into a treatment modality so dedicated to the creation and augmentation of psychic possibility And yet it is only by accepting the realm of limit as a necessary counterpoise to the realm of possibility and clinically embracing the tension between the two realms that analysts can further their understanding of therapeutic process in the interest of better treatment outcomes Cooper persuasively demonstrates how each psychoanalytic theory provides its own logic of hope this logic in turn translates into a distinctive sense of what the analyst may hope for the patient and what the patient is encouraged to hope for himself or herself *Objects of Hope* brings ranging scholarship and refreshing candor to bear on the knotty issue of what can and cannot be achieved in the course of psychoanalytic therapy It will be valued not only as an exemplary exercise in comparative psychoanalysis but also as a thoughtful original effort to place the vital issue of hope at the center of clinical concern **Handbook of Research on the Relationship Between Autobiographical Memory and Photography** Ingham, Mark Bruce Nigel, Milic, Nela, Kantas, Vasileios, Andersdotter, Sara, Lowe, Paul, 2023-02-17 Autobiographical memory and photography have been inextricably linked since the first photographs appeared during the 19th century These links have often been described from each other's discipline in ways that often have led to misunderstandings about the complex relationships between them The *Handbook of Research on the Relationship Between Autobiographical Memory and Photography* covers many aspects of the multiple relationships between autobiographical

memory and photography such as the idea that memory and photography can be seen as forms of mental time and the effect photography has on autobiographical memory Covering key topics such as identity trauma and remembrance this major reference work is ideal for industry professionals sociologists psychologists artists researchers scholars academicians practitioners educators and students **Robert Frank** Robert Frank, Musée canadien de la photographie contemporaine, 2001 **Robert Frank** Sarah Greenough, Philip Brookman, 1994 Essays by five noted scholars draw upon the National Gallery of Art's archive of Frank's work examining his contribution to the art of photography and film **Frank Films** Robert Frank, 2003 Robert Frank has always faced up to one thing only himself That is shown by this work the films even more than the photographs This book is dedicated to Frank's film even more than the photographs This book is dedicated to Frank's film and video oeuvre which grew and developed impressively in the years between 1959 and 2002 though unnoticed by most of the world **The Ground Beneath Her Feet** Salman Rushdie, 2011-11-02 The first great rock n roll novel in the English language The Times On Valentine's Day 1989 Vina Apsara a famous and much loved singer disappears in a devastating earthquake Her lover the singer Ormus Cama cannot accept that he has lost her and so begins his eternal quest to find her and bring her back His journey takes him across the globe and through cities pulsating with the power of rock n roll to Bombay London and New York But around the star crossed lover and his quest the uncertain world itself is beginning to tremble and break Cracks and tears are appearing in the very fabric of reality and exposing the abyss beyond And Ormus has to confront just how far he is willing to go for love In this epic romance that stretches across whole lives and even beyond death Salman Rushdie's most accessible novel is also a vivid account of the intimate flawed encounter between East and West a remaking of the myth of Orpheus and an exploration of the extremities of comedy culture and desire The Ground Beneath Her Feet is a gripping story that encapsulates the history dreams and passions of the last half century as no other novel has done Ambiguous Borderlands Erik Mortenson, 2016-02-03 The image of the shadow in midtwentieth century America appeared across a variety of genres and media including poetry pulp fiction photography and film Drawing on an extensive framework that ranges from Cold War cultural histories to theorizations of psychoanalysis and the Gothic Erik Mortenson argues that shadow imagery in 1950s and 1960s American culture not only reflected the anxiety and ambiguity of the times but also offered an imaginative space for artists to challenge the binary rhetoric associated with the Cold War From comics to movies Beats to bombs Ambiguous Borderlands provides a novel understanding of the Cold War cultural context through its analysis of the image of the shadow in midcentury media Its interdisciplinary approach ambitious subject matter and diverse theoretical framing make it essential reading for anyone interested in American literary and popular culture during the midtwentieth century **Amerikastudien** , 1974
