[Robert Frost Handbook](#) James Lain Potter,1980 The Robert Frost Handbook is intended to provide a student or general reader with the basis for a sound general comprehension of the poet and his work It is both an introduction to Frost s poetry in a biographical historical and critical context and also a guide to further investigation of that poetry Part I provides a basic biography and an account of Frost s career as a poet including analyses of the character and structure of his principle volumes of poetry Account is taken of Frost s own statements about his life and work major biographical studies including Lawrence Thompson s and reactions to such studies by the poet and his acquaintances A chronological table of the main events of Frost s life notably publication dates provides guideposts Part II is an overview of the poems with references to leading scholarly findings and critical judgments Professor Potter has tried to read the mind of the poet only as it appears in his poems in all its complexity and apparent inconsistency though this reading has been correlated with external evidence such as letters and known experiences A tension between a secular view and a more religious one between a dark sense of things and a more optimistic one is explicated with attention to the uncertain balance achieved in a few particular poems and in the entire corpus Part III shows Frost s relationship with

Wordsworth Emerson and Thoreau as well as his critical and creative concern with form voice and metaphor revealing an informed conscious artist in place of the mythic rustic sage and versifier Part IV provides an annotated list of works by and about Frost Selective rather than exhaustive it is intended as a working bibliography The thrust of the Handbook is that Frost's poems need and deserve the same devoted attention on the reader's part as the poet gave to his work **The Living Stream** Edna Longley, 1994 Edna Longley's essays investigate the links between Irish literature culture and politics By questioning the stated purposes of both nationalism and unionism literature has helped to make living streams flow in Ireland Edna Longley shows in particular where recent Northern Irish writing fits into this process of change *The Booklover's Answer*, 1964 *Robert Frost, a Tribute to the Source* Robert Frost, David Bradley, 1979 Fifty three of Frost's poems are interspersed with forty four color photographs of the New England area that was his home with a biographical profile that explains the influence of this environment on the poet's work **Robert Frost, Farm-Poultryman** Robert Frost, 1981-04-01
