Williams Center for the Arts, 1993* *Robert Rauschenberg and Surrealism* Gavin Parkinson, 2023-03-23 The art of Robert

Rauschenberg 1925 2008 is usually viewed as quite distinct from Surrealism a movement which the artist himself displayed some hostility towards However Rauschenberg had a very positive reception among Surrealists particularly across the period 1959 69 In the face of Rauschenberg s avowals of his own literalism and insistence on his art as facts this book gathers generous evidence of the poetic metaphorical allusive associative and connotative dimensions of the artist s oeuvre as identified by Surrealists and thus extrapolates new readings from Rauschenberg s key works on that basis By viewing Rauschenberg s art against the expansion of the cultural influence of the United States in Europe in the period after the Second World War and the increasingly politicized activities of the Surrealists in the era of the Algerian War of Independence 1954 62 Robert Rauschenberg and Surrealism shows how poetic inference of the artist s work was turned towards political interpretation By analysing Rauschenberg s art in the context of Surrealism and drawing from it new interpretations and perspectives this volume simultaneously situates the Surrealist movement in 1960s American art criticism and history

Concerning Consequences Kristine Stiles, 2016-03-21 Kristine Stiles has played a vital role in establishing trauma studies within the humanities A formidable force in the art world Stiles examines the significance of traumatic experiences both in the individual lives and works of artists and in contemporary international cultures since World War II In *Concerning Consequences* she considers some of the most notorious art of the second half of the twentieth century by artists who use their bodies to address destruction and violence The essays in this book focus primarily on performance art and photography From war and environmental pollution to racism and sexual assault Stiles analyzes the consequences of trauma as seen in the works of artists like Marina Abramovic Pope L and Chris Burden Assembling rich intellectual explorations on everything from Paleolithic paintings to the Bible s patriarchal legacies to documentary images of nuclear explosions *Concerning Consequences* explores how art can provide a distinctive means of understanding trauma and promote individual and collective healing

The Great Migrator Hiroko Ikegami, Robert Rauschenberg, 2010 Unlike other writers who have viewed the export of American art during the 1950s and 1960s as another form of Cold War propagandizing and famous American artists as cultural imperialists Ikegami sees the global rise of American art as a cross cultural phenomenon in which each art community Rauschenberg visited was searching in different ways for cultural and artistic identity in the midst of Americanization Rauschenberg s travels and collaborations established a new kind of transnational network for the postwar art world prefiguring the globalization of art before the era of globalization

Basquiat Jordana Moore Saggese, 2021-04-06 Before his death at the age of twenty seven Jean Michel Basquiat completed nearly 2 000 works These unique compositions collages of text and gestural painting across a variety of media quickly made Basquiat one of the most important and widely known artists of the 1980s Reading Basquiat provides a new approach to understanding the range and impact of this artist s practice as well as its complex relationship to several key artistic and ideological debates of the late twentieth century including the instability of identity the role of appropriation and the boundaries of expressionism Jordana Moore Saggese argues that Basquiat once known as the black Picasso probes not only the boundaries of blackness but also the boundaries of American art Weaving together the artist s interests in painting writing and music this groundbreaking book expands the parameters of aesthetic discourse to consider the parallels Basquiat found among these disciplines in his exploration of the production of meaning Most important Reading Basquiat traces the ways in which Basquiat constructed large parts of his identity as a black man as a musician as a painter and as a writer via the manipulation of texts in his own library Modern Art and the Life of a Culture Jonathan A. Anderson, William A. Dyrness, 2016-05-23 In 1970 Hans Rookmaaker published Modern Art and the Death of a Culture a groundbreaking work that considered the role of the Christian artist in society This volume responds to his work by bringing together a practicing artist and a theologian who argue that modernist art is underwritten by deeply religious concerns **The Handbook of Visual Culture** Ian Heywood, Barry Sandywell, 2017-04-20 Visual culture has become one of the most dynamic fields of scholarship a reflection of how the study of human culture increasingly requires distinctively visual ways of thinking and methods of analysis Bringing together leading international scholars to assess all aspects of visual culture the Handbook aims to provide a comprehensive and authoritative overview of the subject The Handbook embraces the extraordinary range of disciplines which now engage in the study of the visual film and photography television fashion visual arts digital media geography philosophy architecture material culture sociology cultural studies and art history Throughout the Handbook is responsive to the cross disciplinary nature of many of the key questions raised in visual culture around digitization globalization cyberculture surveillance spectacle and the role of art The Handbook guides readers new to the area as well as experienced researchers into the topics issues and questions that have emerged in the study of visual culture since the start of the new millennium conveying the boldness excitement and vitality of the subject **AIDS and Representation** Fiona Johnstone, 2023-05-18 AIDS Representation explores portraits and self portraits made in response to the AIDS epidemic in America in the 1980s and 1990s Addressing the work of artists including Mark Morrisroe Robert Blanchon and Felix Gonzalez Torres through the interrelated themes of sickness and mortality desire and sexual identity love and loss Fiona Johnstone shows how the self representational practices of artists with HIV and AIDS offered a richly imaginative response to the limitations of early AIDS imagery Johnstone argues that the AIDS epidemic changed the very nature of visual representation and artistic practice necessitating a radical new approach to conceptualising and visualising the human form

An extended epilogue considers the ongoing art historicization of the epidemic re contextualising the book's themes in relation to contemporary photographic works More than just a historical discussion of the art of the AIDS crisis AIDS and Representation contributes to an emergent body of scholarship on the visual representation of illness Expanding the established genre of the autopathography or illness narrative beyond the predominantly textual this important contribution to art history and health humanities sensitively unpicks the entanglements between aesthetic form and the expression of lived experiences of critical and chronic ill health

Screen Presence Monteiro Stephen Monteiro, 2016-05-31 Cinema plays a major role in contemporary art yet the deeper influence of its diverse historical forms on artistic practice has received little attention Screen Presence explores the intersections of film popular media and art since the 1950s through the examples of four pivotal figures Andy Warhol Robert Rauschenberg Mona Hatoum and Douglas Gordon While their film related works may appear primarily as challenges to conventional cinema these artists draw on overlooked forms of popular film culture that have been commonplace and even dominant in specific social contexts Through a range of new sources including advertisements specialty magazines postcards technical guides and souvenir programs Stephen Monteiro demonstrates the dependence of contemporary artists on cinema's shifting applications and interpretations offering a fresh understanding of the enduring impact of everyday media on how we make and view art

The Future of Text and Image Ofra Amihay, Lauren Walsh, 2012-01-17 The question of the relation between the visual and the textual in literature is at the heart of an increasing number of scholarly projects and in turn the investigation of evolving visual verbal dynamics is becoming an independent discipline This volume explores these profound literary shifts through the work of twelve talented and in some cases emerging scholars who study text and image relations in diverse forms and contexts The intermedial conjunctures investigated in this book play with and against the traditional roles of the visual and the verbal The Future of Text and Image presents explorations of the incorporation of visual elements into works of literature of visual writing modes and of the

textuality and literariness of images It focuses on the special potential literature offers for the combination of these two functions Alongside examinations of major forms and genres such as memoirs novels and poetry this volume expands the discussion of text and image relations into more marginal forms for instance collage books the PostSecret collections of anonymous postcards and digital poetry In other words while exploring the destiny of text and image as an independent discipline this volume simultaneously looks at the very literal future of text and image forms in an ever changing technological reality The essays in this book will help to define the emergent practices and politics of this growing field of study and at the same time reflect the tremendous significance of the visual in today s image culture **The Grove Encyclopedia of American Art** Joan M. Marter,2011 Arranged in alphabetical order these 5 volumes encompass the history of the cultural development of America with over 2300 entries
