orientation It evidences a hierarchy of importance relevance accessibility value or logic Its content is no longer neutral and equivalent From my perspective the realm is not only differentiated in substance but differential in significance There is a relation between angles and attitudes Where I look from is tied up with how I see The first cut opens out into a frame of reference What count as lines of evidence in that realm materialize along with its background expectancies its assumptions concentrations and confusions its cosmology quirks and enchantments Hence once I am committed to a perspective I am implicated in a methodology one possessed of puzzles of a certain shape I pivoting toward solutions within its orthodoxy Openings are directed toward closings Another cut would open onto another realm The realm of events I cut into is a Taleworld inhabited by characters acting in their own space and time
