Heaven Opens Matthew Lewis Sutton,2014 Adrienne von Speyr was one of the most important mystical theologians of the last century However her work has been eclipsed in many ways by her personal connection to Hans Urs von Balthasar Heaven Opens provides one of the first comprehensive accounts of von Speyr's theology Matthew Lewis Sutton argues that the eternal immanent relations of the Triune God ground the mystical theological vision of von Speyr Here von Speyr's work is for the first time given an independent hearing expositing its content features and connections and assessing its contribution to contemporary Catholic theology

The Open Heaven Christopher Rowland,2002-08-01 The Open Heaven offers a comprehensive discussion of Jewish apocalyptic literature and themes in the Second Temple period and in early Christianity In it there is a sustained challenge to the widespread view that apocalypticism is a form of eschatology and it has been widely recognised as a significant contribution to the discussion of apocalypticism in religion since it was first published twenty years ago By concentrating on the revelatory character of apocalyptic texts rather than their diverse contents the author suggests that it is this aspect of the literature which best enables us to understand their distinctive religion The book offers a sustained argument for the view that apocalyptic literature is primarily about the disclosure of heavenly wisdom which offers recipients an understanding of life in the present He also suggests that there may be some evidence to support the view that apocalypses include reports of visionary experience The approach to apocalypticism in early Christianity stresses the importance of the visionary element as a decisive element in the history of Christ's origins
