Los Angeles Transformed Fletcher Bowron's Urban Reform Revival 1938 1953:

Los Angeles Transformed Tom Sitton, 2005 When Fletcher Bowron 1887 1968 ran for mayor of Los Angeles in 1938 his twelve years as a superior court judge with a reputation for honesty and fairness carried him to victory against a notoriously corrupt incumbent During his nearly fifteen years as a neo progressive mayor Bowron presided over fundamental reforms in the police department public utilities and other agencies charged with basic services rooting out bribery kickbacks and influence peddling World War II brought economic and population booms racial conflict social dislocation and environmental problems to Los Angeles and complicated Mayor Bowron's job After the war Bowron initiated massive public housing and desegregation projects These forward looking programs alienated enough voters to cost him the 1953 election as his leftist supporters fell away under the influence of McCarthyism This political history of the mid twentieth century reform period in Los Angeles is also a case study of the ways outside events can affect municipal affairs As Tom Sitton demonstrates the choices made during Bowron's administration have had a direct bearing on how Los Angeles looks today and how its government operates

Radical L.A. Errol Wayne Stevens, 2012-11-20 When the depression of the 1890s prompted unemployed workers from Los Angeles to join a nationwide march on Washington Coxey's Army marked the birth of radicalism in that city In this first book to trace the subsequent struggle between the radical left and L.A.'s power structure Errol Wayne Stevens tells how both sides shaped the city's character from the turn of the twentieth century through the civil rights era On the radical right Los Angeles's business elite supported by the Los Angeles Times sought the destruction of the trade union movement defended on the left by socialists Wobblies communists and other groups In portraying the conflict between leftist and capitalist visions for the future Stevens brings to life colorful personalities such as Times publisher Harrison Gray Otis and Socialist mayoral candidate Job Harriman He also re-creates events such as the 1910 bombing of the Times building the savage suppression of the 1923 longshoremen's strike and the 1965 Watts riots which signaled that L.A. politics had become divided less along class lines than by complex racial and ethnic differences The book takes stock of the rivalry between right and left over the several decades in which it repeatedly flared *Radical L.A.* is a balanced work of meticulous scholarship that pieces together a rich chronicle usually seen only in smaller snippets or from a single vantage point It will change the way we see the history of the City of Angels

Sand Rush Elsa Devienne, 2024 An original approach to the iconic landscape of California the beaches of Los Angeles this book recovers untold stories of presidential jaunts wild spring break celebrations underground gay beaches and engineering feats that enlarged the shores overnight From the creation of a mini Venice on the LA sands in 1905 to Baywatch's David Hasselhoff and Pamela Anderson captivating billions of television viewers worldwide in the 1990s the book offers a comprehensive look at a landscape that is at once natural and artificial but now under threat from climate change and rising sea levels

Bohemian Los Angeles Daniel Hurewitz, 2008-04-30 Historian Hurewitz brings to life a vibrant and all but forgotten milieu of artists leftists and gay men

and women whose story played out over the first half of the twentieth century and continues to shape the entire American landscape In a hidden corner of Los Angeles the personal first became the political the nation's first enduring gay rights movement emerged and the broad spectrum of what we now think of as identity politics was born Portraying life over more than forty years in the hilly enclave of Edendale now part of Silver Lake Hurewitz considers the work of painters and printmakers looks inside the Communist Party's intimate cultural scene and examines the social world of gay men He discovers why and how these communities inspiring both one another and the city as a whole transformed American notions of political identity with their ideas about self expression political engagement and race relations From publisher description

L.A.'s Titans of Temple Street Tom Sitton, 2023-03-29 This book studies Los Angeles County and its government since World War II A special focus is given to the Titans of Temple Street the five member Board of Supervisors that determines policies and actions for many issues throughout the county especially for residents who do not live in the county's 88 cities It is the largest of all U S counties with a population of more than 10 million more residents than 41 states and an annual budget of more than 44 billion more than all but 19 states It has served as an innovative example of county government since the early 1900s Bridges of Reform Shana Bernstein, 2011 Public Los Angeles Donald Craig Parson, 2019 Public Los Angeles is a collection of unpublished essays by scholar Don Parson focusing on little known characters and histories located in the first half of twentieth century Los Angeles An infamously private city in the eyes of outside observers structured around single family homes and an aggressively competitive regional economy Los Angeles has often been celebrated or caricatured as the epitome of an American society bent on individualism entrepreneurialism and market ingenuity But Don Parson presents a different vision for the vast Southern California metropolis one that is deftly illustrated by stories of sustained struggles for social and economic justice led by activists social workers architects housing officials and a courageous judge Public Los Angeles presents insights into LA's historic collectivism networks of solidarity and government policy A follow up to Parson's seminal Making a Better World Public Housing the Red Scare and the Direction of Modern Los Angeles 2005 this volume helps shape our understanding of public housing gender and housework judicial activism and race and class in modern day Los Angeles and asks us if history is repeating Parson's work anchors a collection of nine essays by friends and mentors who deepen the discussion of his themes Dana Cuff Mike Davis Steven Flusty Greg Goldin Jacqueline Leavitt Laura Pulido Sue Ruddick Tom Sitton Edward W Soja and Jennifer Wolch The book is richly illustrated Biographical and curatorial essays by the book's editors Roger Keil and Judy Branfman provide background material and a coherent storyline for a mosaic of fresh Los Angeles research **Alien Neighbors, Foreign Friends** Charlotte Brooks, 2009-08-01 Between the early 1900s and the late 1950s the attitudes of white Californians toward their Asian American neighbors evolved from outright hostility to relative acceptance Charlotte Brooks examines this transformation through the lens of California's urban housing markets arguing that the perceived foreignness of Asian Americans which initially stranded them

in segregated areas eventually facilitated their integration into neighborhoods that rejected other minorities Against the backdrop of cold war efforts to win Asian hearts and minds whites who saw little difference between Asians and Asian Americans increasingly advocated the latter group s access to middle class life and the residential areas that went with it But as they transformed Asian Americans into a model minority whites purposefully ignored the long backstory of Chinese and Japanese Americans early and largely failed attempts to participate in public and private housing programs As Brooks tells this multifaceted story she draws on a broad range of sources in multiple languages giving voice to an array of community leaders journalists activists and homeowners and insightfully conveying the complexity of racialized housing in a multiracial society

Beyond Alliances George J. Sanchez, Bruce Zuckerman, 2011-12-15 This volume focuses on the special role that Jews played in reshaping the racial landscape of southern California in the twentieth century Rather than considering this issue in terms of broad analyses of organizations or communities each contribution instead approaches it by examining the activity of a single Jewish individual and how he or she navigated the social terrain of a changing southern California In particular this volume is one of the first to take seriously the unique racial ethnic makeup of southern California for Jewish activism with a particular focus on the relationship between Jews and Mexican Americans in the area around Los Angeles The Jewish individuals who are this volume s subjects represent a wide spectrum of backgrounds and perspectives ranging from an elected official to an activist lawyer and from a local businessman to a Democratic Party organizer The volume culminates with an interview with one of the most beloved of local university rabbis who has been operating in the ever changing environment of higher education in Los Angeles over the past thirty years While its overall message is one of optimism the volume does not shy away from taking on some of the more vexed issues in the scholarship of racial ethnic interaction While Jewish activism in shaping local civil rights is thoroughly discussed the specific and unequal dynamics of power within the civil rights community is also analyzed The changing relationship of Jews to whiteness in southern California during the late twentieth century in both geographic and political terms shapes many of these ongoing relationships Finally the volume provides a unique historical perspective on our understanding of contemporary Los Angeles in all its ethnic complexity and specifically in thinking through the future of Jewish role in urban southern California

Boyle Heights George J. Sánchez, 2022-07-12 The radical history of a dynamic multiracial American neighborhood When I think of the future of the United States and the history that matters in this country I often think of Boyle Heights George J. Sánchez The vision for America s cross cultural future lies beyond the multicultural myth of the great melting pot That idea of diversity often imagined ethnically distinct urban districts the Little Italys Koreatowns and Jewish quarters of American cities built up over generations and occupying spaces that excluded one another But the neighborhood of Boyle Heights shows us something altogether different a dynamic multiracial community that has forged solidarity through a history of social and political upheaval Boyle Heights is an in depth history of the Los Angeles neighborhood showcasing the potent experiences of

its residents from early contact between Spanish colonizers and native Californians to the internment of Japanese Americans during World War II the hunt for hidden Communists among the Jewish population negotiating citizenship and belonging among Latino migrants and Mexican American residents and beyond Through each period and every struggle the residents of Boyle Heights have maintained remarkable solidarity across racial and ethnic lines acting as a unified polyglot community even as their tribulations have become more explicitly racial in nature Boyle Heights is immigrant America embodied and it can serve as the true beacon on a hill toward which the country can strive in a time when racial solidarity and civic resistance have never been in greater need
