Creole Religions of the Caribbean Lizabeth Paravisini-Gebert, Margarite Fernández Olmos, 2011-07-11 A comprehensive introduction to the syncretic religions developed in the Caribbean region Creolization the coming together of diverse beliefs and practices to form new beliefs and practices is one of the most significant phenomena in Caribbean religious history Brought together in the crucible of the sugar plantation Caribbean peoples drew on the variants of Christianity brought by European colonizers as well as on African religious and healing traditions and the remnants of Amerindian practices to fashion new systems of belief Creole Religions of the Caribbean offers a comprehensive introduction to the syncretic religions that have developed in the region From Vodou Santería a Regla de Palo the Abakuá Secret Society and Obeah to Quimbois and Espiritismo the volume traces the historical cultural origins of the major Creole religions as well as the newer traditions such as Pocomania and Rastafarianism This second edition updates the scholarship on the religions themselves and also expands the regional considerations of the Diaspora to the U.S. Latino community who are influenced by Creole spiritual practices Fernández Olmos and Paravisini Gebert also take into account the increased significance of material culture art music literature and healing practices influenced by Creole religions *Ritual, Discourse, and Community in Cuban Santería* Kristina Wirtz, 2025-02-04 Examining the religious lives of Santería practitioners in Santiago de Cuba this book explores how practitioners of different backgrounds create and maintain religious communities **Activating the Past** Andrew Apter, Lauren Derby, 2009-12-14 Activating the Past explores critical historical events and transformations associated with embodied memories in the Black Atlantic world The assembled case studies disclose hidden historical references to local and regional encounters with Atlantic modernity focusing on religious festivals that represent political and economic relationships in fetishized forms of power and value Although memories of the slave trade are rarely acknowledged in West Africa and the Americas they have retreated so to speak within ritual associations as restricted repressed even secret histories that are activated during public festivals and through different styles of spirit possession In West Africa our focus on selected port cities along the coast extends into the hinterlands where slave raiding occurred but is poorly documented and rarely acknowledged In the Caribbean regional contrasts between coastal and hinterland communities relate figures of the jbaro the indio and the caboclo to their ritual representations in Santería a Vodou and Candomblé Highlighting the spatial association of memories with shrines and the ritual condensation of regional geographies we locate local spirits and domestic terrains within co-extensive Atlantic horizons The volume brings together leading scholars of the African Diaspora who not only explore these ritual archives for significant echoes of the past but also illuminate a subaltern historiography embedded

within Atlantic cultural systems *The History of Havana* Dick Cluster, Rafael Hernández, 2008-04-29 This is the first comprehensive history of the culturally diverse city and the first to be co authored by a Cuban and an American Beginning with the founding of Havana in 1519 Cluster and Hernández explore the making of the city and its people through revolutions art economic development and the interplay of diverse societies The authors bring together conflicting images of a city that melds cultures and influences to create an identity that is distinctly Cuban **Racialized Visions** Vanessa K.

Valdés, 2020-12-01 As a Francophone nation Haiti is seldom studied in conjunction with its Spanish speaking Caribbean neighbors *Racialized Visions* challenges the notion that linguistic difference has kept the populations of these countries apart instead highlighting ongoing exchanges between their writers artists and thinkers Centering Haiti in this conversation also makes explicit the role that race and more specifically anti blackness has played both in the region and in academic studies of it Following the Revolution and Independence in 1804 Haiti was conflated with blackness Spanish colonial powers used racist representations of Haiti to threaten their holdings in the Atlantic Ocean In the years since white elites in Cuba the Dominican Republic and Puerto Rico upheld Haiti as a symbol of barbarism and savagery *Racialized Visions* powerfully refutes this symbolism Across twelve essays contributors demonstrate how cultural producers in these countries have resignified Haiti to mean liberation An introduction and conclusion by the editor Vanessa K Valdés as well as foreword by Myriam J A Chancy provide valuable historical context and an overview of Afro Latinx studies and its futures **Corridor**
