Los Angeles Preface To A Master Plan:

Los Angeles Pacific Southwest Academy, 1941 **Los Angeles** Pacific southwest academy of political and social science, 1941 **Los Angeles** Pacific Southwest Academy of Political Science, 1941 Los Angeles Pacific Southwest Academy of Political Science, 1941 Land of Sunshine William Deverell, Greg Hise, 2011-12-12 Most people equate Los Angeles with smog sprawl forty suburbs in search of a city the great what not to do of twentieth century city building But there s much more to LA s story than this shallow stereotype History shows that Los Angeles was intensely ubiquitously planned The consequences of that planning the environmental history of urbanism is one place to turn for the more complex lessons LA has to offer Working forward from ancient times and ancient ecologies to the very recent past Land of Sunshine is a fascinating exploration of the environmental history of greater Los Angeles Rather than rehearsing a litany of errors or insults against nature rather than decrying the lost opportunities of roads not taken these essays by nineteen leading geologists ecologists and historians instead consider the changing dynamics both of the city and of nature In the nineteenth century for example density was considered an evil and reformers struggled mightily to move the working poor out to areas where better sanitation and flowers and parks made life seem worth the living We now call that vision sprawl and we struggle just as much to bring middle class people back into the core of American cities There s nothing natural or inevitable about such turns of events It s only by paying very close attention to the ways metropolitan nature has been constructed and construed that meaningful lessons can be drawn History matters So here are the plants and animals of the Los Angeles basin its rivers and watersheds Here are the landscapes of fact and fantasy the historical actors events and circumstances that have proved transformative over and over again The result is a nuanced and rich portrait of Los Angeles that will serve planners communities and environmentalists as they look to the past for clues if not blueprints for enhancing the quality and viability of cities *Hansen Dam Master Plan, Los Angeles* , 1992 **Los Angeles International Airport, Proposed Master Plan Improvements** , 2005 *Planning Los Angeles* David Sloane, 2017-11-08 Los Angeles isn t planned it just happens Right Not so fast Despite the city s reputation for spontaneous evolution a deliberate planning process shapes the way Los Angeles looks and lives Editor David C Sloane a planning professor at the University of Southern California has enlisted 30 essayists for a lively richly illustrated view of this vibrant metropolis Planning Los Angeles launches a new series from APA Planners Press Each year Planners Press will bring out a new study on a major American city Natives newcomers and out of towners will get insiders views of today s hot button issues and a sneak peek at the city to come **Rethinking Los Angeles** Michael J. Dear, H. Eric Schockman, Greg Hise, 1996-08-20 The Los Angeles region is increasingly being held up as a prototype for the collective urban future of the United States Yet it is probably the least understood most under studied major city in the US Very few people beyond the boundaries of Southern California have an accurate appreciation of what the region is who lives there and what it does This groundbreaking collection of essays brings together well respected

contributors to dispel the myths about Southern California and to begin the process of rethinking Los Angeles **Public Los Angeles** Don Parson, 2019-11-15 Public Los Angeles is a collection of unpublished essays by scholar Don Parson focusing on little known characters and histories located in the first half of twentieth century Los Angeles An infamously private city in the eyes of outside observers structured around single family homes and an aggressively competitive regional economy Los Angeles has often been celebrated or caricatured as the epitome of an American society bent on individualism entrepreneurialism and market ingenuity But Don Parson presents a different vision for the vast Southern California metropolis one that is deftly illustrated by stories of sustained struggles for social and economic justice led by activists social workers architects housing officials and a courageous judge Public Los Angeles presents insights into LA s historic collectivism networks of solidarity and government policy A follow up to Parson s seminal Making a Better World Public Housing the Red Scare and the Direction of Modern Los Angeles 2005 this volume helps shape our understanding of public housing gender and housework judicial activism and race and class in modern day Los Angeles and asks us if history is repeating Parson s work anchors a collection of nine essays by friends and mentors who deepen the discussion of his themes Dana Cuff Mike Davis Steven Flusty Greg Goldin Jacqueline Leavitt Laura Pulido Sue Ruddick Tom Sitton Edward W Soja and Jennifer Wolch The book is richly illustrated Biographical and curatorial essays by the book s editors Roger Keil and Judy Branfman provide background material and a coherent storyline for a mosaic of fresh Los Angeles research **A Companion to Los Angeles** William Deverell, Greg Hise, 2014-01-28 This Companion contains 25 original essays by writers and scholars who present an expert assessment of the best and most important work to date on the complex history of Los Angeles The first Companion providing a historical survey of Los Angeles incorporating critical multi disciplinary themes and innovative scholarship Features essays from a range of disciplines including history political science cultural studies and geography Photo essays and contemporary voice sections combine with traditional historiographic essays to provide a multi dimensional view of this vibrant and diverse city Essays cover the key topics in the field within a thematic structure including demography social unrest politics popular culture architecture and urban studies **The Los Angeles River** Blake Gumprecht, 2001-04-30 Winner of the J B Jackson Prize from the Association of American Geographers Three centuries ago the Los Angeles River meandered through marshes and forests of willow and sycamore Trout spawned in its waters and grizzly bears roamed its shores The bountiful environment the river helped create supported one of the largest concentrations of Indians in North America Today the river is made almost entirely of concrete Chain link fence and barbed wire line its course Shopping carts and trash litter its channel Little water flows in the river most of the year and nearly all that does is treated sewage and oily street runoff On much of its course the river looks more like a deserted freeway than a river The river s contemporary image belies its former character and its importance to the development of Southern California Los Angeles would not exist were it not for the river and the river was crucial to its growth Recognizing its past

and future potential a potent movement has developed to revitalize its course The Los Angeles River offers the first comprehensive account of a river that helped give birth to one of the world s great cities significantly shaped its history and promises to play a key role in its future **Magnetic Los Angeles** Greg Hise,1999-08-20 Suburban development is often considered synonymous with enhanced personal mobility single family housing and life cycle homogeneity According to this view individual suburbs are residence only enclaves isolated commuter sheds for a managerial and mercantile elite Magnetic Los Angeles challenges this common vision of the expanding twentieth century city as the sprawling product of dispersion without planning lacking any discernable order *Inventing Autopia* Jeremiah B.C. Axelrod,2009-06-02 Flat out one of the most interesting books I ve read in years To say that a book about California might rank with Kevin Starr s Americans and the California Dream or Mike Davis City of Quartz is dangerously high praise but I think Axelrod s book may someday be in that league John Ganim University of California Riverside *Inventing Autopia* thoughtfully weaves together planning and policy history with cultural history to great effect It is sure to change our understanding of the ways in which Los Angeles not only grew and developed but envisioned itself in the era William Deverell author of *Whitewashed Adobe The Rise of Los Angeles and the Remaking of Its Mexican Past* Agricultural Economics Literature ,1942 *Public Outdoor Recreation Areas* ,1962 **ORRRC Study Report** United States.
