**The Gifts of Near-Death Experiences** Sheila Fabricant Linn,Dennis Linn,Matthew Linn,2016-01-01 Near death experiences NDEs are common well documented and similar across cultures throughout the world Current estimates are that between 4 and 15 percent of the world s population have had an NDE Therefore almost everyone has either had one or knows someone else who has had one Some of the fascination with NDEs comes from the fact that they often result in great leaps in personal growth These leaps are characterized by the loss of the fear of death the healing of deep hurts an increase in self esteem and compassion for others a sense of union with all things and a clearer sense of how to fulfill one s purpose in life This is a book that teaches readers how to reap the benefits of NDEs without having to experience trauma In the course of their many workshops around the world the authors have discovered that when one immerses oneself in accounts of NDEs one can experience love hope healing and a sense of purpose This is the only book that systematically encourages the reader to create a spiritual and psychological healing practice based on NDEs Each chapter includes an account of a fascinating NDE followed by a series of questions meditations exercises and video links The reader is encouraged to contemplate these stories and their own lives It is truly a profound guide to both living and dying
