Meaning In The Arts:

Meaning in the Arts Louis Arnaud Reid, 2014-02-04 This is Volume II of three in a collection on Aesthetics Originally published in 1969 this volume of the Muirhead library of philosophy After distinguishing and relating the functions of Criticism and Aesthetics in Part I Part II develops the basic thesis of the book which is that the central defining characteristic of the aesthetic is embodiment rather than expression Part III tests this out in examples from the different arts representative and abstract with very special attention to music as an abstract art in which the problem of art's apparently contradictory characters of being both autonomous and yet expressive of life outside art is seen in its most acute form Part IV is a philosophical analysis of the main concepts so far involved meaning symbolism knowledge truth standards in art as distinct from other discursive knowledge It concludes with a discussion of the question whether art is in any sense a revelation Part V considers the bearing of the arguments of the book on aesthetic education The Ways of Meaning in the Arts George P. Stein, 1953 **Midwest Studies in Philosophy, Meaning In The Arts** Peter A. French, Howard Wettstein, 2003-08-22 This Volume illuminates the notion of meaning in the arts in literature painting music and dance Specific topics include theory in the arts interpretations of meaning objectivity in meaning and the consumer as a participant in art Brings together articles from prominent philosophers and practitioners of the arts which illuminate the notion of meaning in the arts Addresses meaning in literature painting music and dance Explores the relationship between authorial intentions and the viewer's interpretation of meaning the possibility or impossibility of objective meaning and the role of the consumer as a participant in the work of art Meaning and Truth in the Arts John Hospers, 1946 **Art and Significance** Ronald Shusterman, 1979 Objects and Meaning M. Anna Fariello, Paula Owen, 2005 Throughout the 20th century there were increasing numbers of artists who chose to work within a fine art aesthetic i.e. expressive communicative innovative unique while simultaneously embracing qualities associated with craft production i.e. intimacy materiality labor ritual At the periphery of their world loomed issues of status gender community and economics This fluid situation made for an exciting mix of ideas that helped perpetuate an ongoing debate within an art world no longer as monothematic as it appeared in print Objects and Meaning expands upon a national conversation questioning how various academic disciplines and cultural institutions approach and assign meaning to artist made objects in postmodern North America Although most of the discourse since the mid 20th century revolved around the split between art and craft the contributors to this collection of essays take a broader view examining the historical cultural and theoretical perspectives that defined the parameters of that conversation Their focus is on issues concerning works that appeared to cross over from mainstream art to an amorphous and pluralistic aesthetic milieu that has yet to be defined The essays collected for this volume loosely organized into three groupings Historical Contexts Cultural Systems and Theoretical Frames contribute to a deeper understanding of the meaning of objects and how that meaning comes to be defined Although the style of writing in this collection ranges from

passionate conviction to cool observation with points of view from different professional backgrounds each essay reflects original ideas introduced into the cultural dialogue during this period The Meaning of Art Herbert Read,1936 *Art, Culture, and the Semiotics of Meaning* Jackson Barry,1999 Do the arts mean Do all the arts mean Do they all mean in the same way Does an art work mean in the same way in which a street sign means More importantly do all art works mean in a semiotically interesting way This book argues for the importance of those formal meanings in the arts which most effectively enrich our knowledge of the way things are and train our cognitive faculties to deal with them Jackson Barry examines the meaning of art works as read through their material and formal constituents using a semiotic approach which clarifies the historical and cultural forces molding these sensorially elaborated signs Medieval wheel of fortune diagrams a Shakespeare play non objective painting and a stage set for Tennessee Williams A Streetcar Named Desire all demonstrate the interplay between concepts struggling for expression and the available matter and form for their manifestation At the end the author considers the biological basis for art as defined in contemporary cognitive science *What is Art?* Tiziana Andina,2017-11-20 What is art is one of the classic questions that philosophy has addressed over the ages from the ancients to today Taking as its starting point debates over the various definitions of art found in history this article presents and discusses some of the major theories offered by both the analytic and continental traditions It then looks at the theoretical reasons that led twentieth century philosophy to reopen the question of definition and in many cases inquire into the ontology of art itself Finally a series of considerations are addressed to help shift the problem of definition onto a new plane one that is able to respond to the challenges of the performing and participatory arts which more than any other form of art present particularly unconventional ontologies The Arts ,1928
