**A History of Catholic Moral Theology in the Twentieth Century** James F. Keenan, 2010-01-17 This is an historical survey of 20th Century Roman Catholic Theological Ethics also known as moral theology The thesis is that only through historical investigation can we really understand how the most conservative and negative field in Catholic theology at the beginning of the 20th could become by the end of the 20th century the most innovative one The 20th century begins with moral manuals being translated into the vernacular After examining the manuals of Thomas Slater and Henry Davis Keenan then turns to three works and a crowning synthesis of innovation all developed before during and soon after the Second World War The first by Odon Lottin asks whether moral theology is adequately historical Fritz Tillmann asks whether it's adequately biblical and Gerard Gilleman whether it's adequately spiritual Bernard Haering integrates these contributions into his Law of Christ Of course people like Gerald Kelly and John Ford in the US are like a few moralists elsewhere classical gate keepers censoring innovation But with Humanae vitae and successive encyclicals bishops and popes reject the direction of moral theologians At the same time moral theologians like

Josef Fuchs ask whether the locus of moral truth is in continuous universal teachings of the magisterium or in the moral judgment of the informed conscience In their move toward a deeper appreciation of their field as forming consciences they turn more deeply to local experience where they continue their work of innovation Each continent subsequently gives rise to their own respondents In Europe they speak of autonomy and personalism in Latin America liberation theology in North America Feminism and Black Catholic theology and in Asia and Africa a deep post colonial interculturatism At the end I assert that in its nature theological ethics is historical and innovative seeking moral truth for the conscience by looking to speak crossculturally

**Richard A. McCormick and the Renewal of Moral Theology** Paulinus Ikechukwu Odozor,1995 In this study Odozor examines the American theologian Richard McCormick s thought and work in detail setting it against the backdrop of larger developments that have taken place within the church and the field of moral theology during the past 50 years

**The Origins of Moral Theology in the United States** Charles E. Curran,1997-02-01 Charles E Curran presents the first in depth analysis of the origins of Catholic moral theology in the United States focusing on three significant figures in the late nineteenth century and demonstrating that methodological pluralism and theological diversity existed in the Church even then Curran begins by tracing the historical development of moral theology especially as presented in nineteenth century manuals of moral theology which offered a legal model of morality including a heavy emphasis on canon law He then probes the different approaches and ideas of three important writers Aloysius Sabetti a Jesuit who was a typical as well as the most influential American manualist Thomas J Bouquillon first chair of moral theology at Catholic University of America a neoscholastic who criticized the manuals approach as narrow and incomplete for failing to address principles virtues and the connection to systematic theology and clerical educator John B Hogan a casuist who developed a more inductive and historically conscious methodology Curran describes how all three men dealt in different ways with the increasing role of authoritative teachings in moral theology from the Vatican He also shows how they reflected their American context and the views of their own time on women and sexuality So little attention has been paid to the development of moral theology in this country that these authors are unknown to many scholars Curran s book corrects this oversight and proposes that the ferment revealed in their writings offers important lessons for contemporary Catholic moral theology

**Morality Truly Christian, Truly African** Paulinus Ikechukwu Odozor C.S.Sp.,2014-11-15 Given the largely Eurocentric nature of moral theology in the history of the Roman Catholic Church what will it take to invest the theological community in the history and moral challenges of the Church in other parts of the world especially Africa What is to be gained for the whole Church when this happens in a deep and lasting way In this timely and important study Paulinus Ikechukwu Odozor brings greater theological clarity to the issue of the relationship between Christianity and African tradition in the area of ethical foundations He also provides a constructive example of what fundamental moral theology done from an African and Christian especially Catholic moral theological point of view could look like Following a brief history of

the development of African Christian theology Odozor examines responses of African theologians to African tradition and Christian responses to the reality of non Christian religions In a context where the African religious experience and heritage are powerful sources of meaning and identity Christian evangelization raises questions both about the African primal religions and about Christianity itself and its claims Odozor takes up the subject of moral reasoning in an African Christian theological ethics and concludes with case studies that show how the African Church has tried to inculturate moral discourse on a religiously pluralistic continent and relate the healing gospel message to African situations Students and scholars of moral theology and ethics and church leaders will profit from the issues raised in *Morality Truly Christian Truly African*

The ^ATrue Wealth of Nations Daniel Finn,2010-09-23 The True Wealth of Nations arises from the conviction that implementing a morally adequate vision of the economy will generate sustainable prosperity for all It sets forth the beginnings of an architecture of analysis for relating economic life and Christian faith intellectually and experientially and helps social scientists theologians and all persons of faith to appreciate the true wealth of any nation *Water Shaping Stone* Kathryn Lilla Cox,2016-01-15 The Catholic Tradition requires the faithful to form and follow their conscience This is the case even with the recognition that consciences can be malformed and one can make errors in practical judgments *Water Shaping Stone* examines various aspects of this tradition regarding conscience by using among other sources twentieth century magisterial documents theologians works and Scripture Kathryn Lilla Cox argues that while the Magisterium retains teaching authority and a responsibility to help form consciences through its teaching focusing only on the Magisterium leads to incomplete formation A more holistic vision of conscience formation means considering the formation of the moral agent to be a multifaceted process that draws on for example teaching prayer rituals Scripture practices and virtues along with relationships with the Triune God and communities of accountability This vision of conscience formation retains the magisterial teaching authority while acknowledging discipleship as the theological basis for making and assessing practical judgments of conscience Moral problems and Christian Personalism *Moral Theology, Vol. 5 CONCILIUM theology in the age of renewal* ,1965 **Historical Dictionary of Catholicism** William J. Collinge,2021-08-15 This work covers the whole history of Catholicism including the periods of Christian history prior to the present divisions into Catholic Orthodox and Protestant but within the earlier periods it focuses on the story line that leads to Catholicism in the Roman Rite and particularly to Roman Catholicism in the United States The Historical Dictionary of Catholicism Third Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 500 cross referenced entries on important persons and places as well as themes such as baptism contraception labor church architecture the sexual abuse crisis Catholic history doctrine and theology spirituality and worship moral and social teaching and church structure This book is an excellent resource for students researchers and anyone wanting to know more about Catholicism Turning to the Heavens and the Earth Julia Brumbaugh,Natalia Imperatori-Lee,2016 The Earth needs our attention the best of our

intellectual ethical and spiritual wisdom and action In this collection written in honor of Elizabeth A Johnson scholars from the United States and around the world contribute their insights on how theology today can and must turn to the world in new ways in light of contemporary science and our ecological crisis The essays in this collection advance theological visions for the human task of healing our destructive relationship with the earth and envision hope for our planet s future

Being Faithful: Christian Commitment in Modern Society Judith A. Merkle,2010-09-02 This book explores how the Christian life is lived in a pluralistic situation where different contexts of belonging give rise to different moral challenges While it is characteristic of modern life to exist in a postmodern situation where there is an erosion of comprehensive systems of meaning we still live today in contexts of belonging We still seek to gather out of the fragments of modern life the sustenance of a network of belonging belief and practice which comprise a faithful life The construction of such a life not only for us but for others serves as the framework for our moral commitments Furthermore sustaining and transforming social frameworks which shape various aspects of human life form the life task of adult Christians

*The Acting Person and Christian Moral Life* Darlene Fozard Weaver, 2011-11-18 What may we say about the significance of particular moral actions for one's relationship with God In this provocative analysis of contemporary Catholic moral theology Darlene Fozard Weaver shows the person as a moral agent acting in relation to God Using an overarching theological context of sinful estrangement from and gracious reconciliation in God Weaver shows how individuals negotiate their relationships with God in and through their involvement with others and the world Much of current Christian ethics focuses more on persons and their virtues and vices exemplified by the work of virtue ethicists or on sinful social structures illustrated in the work of liberation theologians These judgments fail to appreciate the reflexive character of human action and neglect the way our actions negotiate our response to God Weaver develops a theologically robust moral anthropology that advances Christian understanding of persons and moral actions and contends we can better understand the theological import of moral actions by seeing ourselves as creatures who live move and have our being in God

**Perfection in Death** Patrick M. Clark, 2015-11-03 *Perfection in Death* compares and contrasts the relationship between conceptions of courage and death in the thought of Aquinas and his ancient philosophical sources At the center of this investigation is Aquinas' identification of martyrdom as the paradigmatic act of courage as well as the greatest proof of the perfection of charity Such a portrayal of perfection in death bears some resemblance to the ancient tradition of noble death but departs from it in decisive ways Clark argues that this

departure can only be fully understood in light of an accompanying transformation of the metaphysical and anthropological framework underlying ancient theories of virtue

Perfection in Death aims to provide a new theological account of this paradigm shift in light of contemporary Thomistic scholarship     Rethinking Cooperation with Evil Ryan Connors, 2023-12-15

Rethinking Cooperation with Evil A Virtue Based Approach applies Thomistic virtue theory to today's most challenging questions of cooperation with evil For centuries moralists have struggled to determine the conditions necessary to justify moral cooperation with evil The English Jesuit Henry Davis even observed T here is no more difficult question than this in the whole range of Moral Theology This important book addresses this challenge by applying the virtue based method of moral reasoning of St Thomas Aquinas to issues of cooperation with evil Those who pastor souls report frequently receiving questions from attentive believers about whether a particular human action inadvertently contributes to some moral evil Examples of potentially immoral cooperation with evil include whether one may shop at a particular franchise known for its support of abortion whether Catholics may attend civil marriages outside the Church or whether an organization may submit to government mandates that health insurance include payment for immoral practices Although recent moralists have tackled specific topics related to cooperation with evil agreement on an overall common paradigm has not yet been reached Rethinking Cooperation with Evil proposes a method for Christian believers and others to approach these questions from the foundation of the thought of St Thomas Aquinas and the magisterial teaching of the Catholic Church This text provides both an overall method for how to understand the issue of cooperation as well as practical counsel for specific cases Rethinking Cooperation with Evil advances the theological conversation on this topic from both speculative and practical vantage points To facilitate his argument Connors utilizes historical analyses that contrast Aquinas's method of moral reasoning with that of the casuist treatment of cooperation Consequently the book includes numerous case studies that will be of interest both to moral theologians and readers new to the topic     **Tomorrow's Troubles** Paul Scherz, 2022-09-01

The first examination of predictive technology from the perspective of Catholic theology Probabilistic predictions of future risk govern much of society In business and politics alike institutional structures manage risk by controlling the behavior of consumers and citizens New technologies comb through past data to predict and shape future action Choosing between possible future paths can cause anxiety as every decision becomes a calculation to achieve the most optimal outcome Tomorrow's Troubles is the first book to use virtue ethics to analyze these pressing issues Paul Scherz uses a theological analysis of risk and practical reason to show how risk based decision theory reorients our relationships to the future through knowledge of possible dangers and foregone opportunities and fosters a deceptive hope for total security Scherz presents this view of temporality as problematic because it encourages a desire for stability through one's own efforts instead of reliance on God He also argues that the largest problem with predictive models is that they do not address individual reason and free will Instead of dwelling on a future we cannot control we can use our past experiences and the Christian tradition to

focus on discerning God's will in the present Tomorrow's Troubles offers a thoughtful new framework that will help Christians benefit from the positive aspects of predictive technologies while recognizing God's role in our lives and our futures
