Perspectives On Cognitive Change In Adulthood And Aging:

Perspectives on Cognitive Change in Adulthood and Aging Fredda Blanchard-Fields, Thomas M. Hess, 1996 This upper level text for advanced undergraduate students addresses cognitive and intellectual changes in adulthood and ageing Chapters cover such topics as foundations intelligence information processing memory and cognition in context

Handbook of Psychology, Developmental Psychology Richard M. Lerner, M. Ann Easterbrooks, Jayanthi Mistry, 2003-03-04 Includes established theories and cutting edge developments Presents the work of an international group of experts Presents the nature origin implications and future course of major unresolved issues in the area **The Wiley-Blackwell Handbook of Adulthood and Aging** Susan K. Whitbourne, Martin J. Sliwinski, 2016-08-08 This exceptional collection draws on the most recent demographic data and combines classic research with cutting edge approaches to provide an invaluable overview of the developmental psychology of the adult years Covers a wide range of topics within adult development and aging from theoretical perspectives to specific content areas Includes newly commissioned essays from the top researchers in the field Takes a biopsychosocial perspective covering the biological psychological and social changes that occur in adulthood

Social Cognition and Aging Thomas M. Hess, Fredda Blanchard-Fields, 1999-06-18 Most of the research done in social cognition has been conducted with younger adults and may not be applicable to a much older population Social Cognition and Aging provides a snapshot view of research that has been done with older adults or is directly applicable to this population Focusing on issues of self identity social interactions and social perceptions this book provides a broad overview of how aging affects one's own perceptions and actions as well as how others perceive and interact with the aged Coverage includes such topics as self control memory resilience age stereotypes moral development and the art of living With contributions from top researchers in both gerontology and psychology this book is an important reference for academics and professionals alike in personality cognition social psychology adult development sociology and gerontology **The Oxford Handbook of Emotion, Social Cognition, and Problem Solving in Adulthood** Paul Verhaeghen, Christopher Hertzog, 2014-03-20 Over the last decade the field of socio emotional development and aging has rapidly expanded with many new theories and empirical findings emerging This trend is consistent with the broader movement in psychology to consider social motivational and emotional influences on cognition and behavior The Oxford Handbook of Emotion Social Cognition and Problem Solving in Adulthood provides the first overview of a new field of adult development that has emerged out of conceptualizations and research at the intersections between socioemotional development social cognition emotion coping and everyday problem solving This field roundly rejects a universal deficit model of aging highlighting instead the dynamic nature of socio emotional development and the differentiation of individual trajectories of development as a function of variation in contextual and experiential influences It emphasizes the need for a cross level examination from biology and neuroscience to cognitive and social psychology of the determinants of emotional and socio emotional behavior This volume

also serves as a tribute to the late Freda Blanchard Fields whose thinking and empirical research contributed extensively to a life span developmental view of emotion problem solving and social cognition Its chapters cover multiple aspects of adulthood and aging presenting developmental perspectives on emotion antecedents and consequences of emotion in context everyday problem solving social cognition goals and goal related behaviors and wisdom The landmark volume in this new field The Oxford Handbook of Emotion Social Cognition and Problem Solving in Adulthood is an important resource for cognitive developmental and social psychologists as well as researchers and graduate students in the field of aging emotion studies and social psychology **Cognition, Aging and Self-Reports** Norbert Schwarz, Denise Park, Barbel

Knauper, Seymour Sudman, 1998-09-28 This text provides an overview of age related changes in cognitive functioning and explores the implications of these changes for the self report of attitudes and behaviours **Aging and Older Adulthood**

Joan T. Erber, 2011-08-24 Updated and substantially revised the second edition of Aging and Older Adulthood reflects the most current scientific research and theoretical foundations that contribute to our understanding of aging and older adulthood Updated content and references include recent neurological findings on brain structure and functioning as well as factors that influence cognitive functioning health care decision making and social relationships Chapter opening vignettes engage students with real world illustrations of older adults which relate to the concepts to come Applying Research boxes offer examples of current research findings that can be applied to the everyday lives of older adults Understanding Aging boxes highlight phenomena such as sundown syndrome and end of life desires which provide a deeper insight into the aging process Integrated themes of diversity environmental influences on aging and applications to everyday life relate the story of aging more directly to key concepts New Chapter 13 explores what older adulthood may look like in the future and ties together the author's theoretical framework with views on positive aging Instructor's Manual with Test Bank and PowerPoint slides available online at www.wiley.com/go/erber *Situation Awareness Analysis and Measurement* Mica R.

Endsley, Daniel J. Garland, 2000-07-01 A comprehensive overview of different approaches to the measurement of situation awareness in experimental and applied setting this book directly tackles the problem of ensuring that system designs and training programs are effective at promoting situation awareness It is the first book to provide a all inclusive coverage of situation awareness and its measurement Topics addressed provide a detailed analysis of the use of a wide variety of techniques for measuring situation awareness and situation assessment processes It provides a rich resource for engineers and human factors psychologists involved in designing and evaluating systems in many domains *Handbook of Cognitive Aging* Scott M. Hofer, Duane F Alwin, 2008-03-20 Provides a unique perspective I am particularly impressed with the sections on innovative design and methods to investigate cognitive aging and the integrative perspectives None of the existing texts covers this material to the same level Donna J La Voie Saint Louis University The emphasis on integrating the literature with theoretical and methodological innovations could have a far reaching impact on the field Deb McGinnis Oakland University

The Handbook of Cognitive Aging Interdisciplinary Perspectives clarifies the differences in patterns and processes of cognitive aging Along with a comprehensive review of current research editors Scott M Hofer and Duane F Alwin provide a solid foundation for building a multidisciplinary agenda that will stimulate further rigorous research into these complex factors Key Features Gathers the widest possible range of perspectives by including cognitive aging experts in various disciplines while maintaining a degree of unity across chapters Examines the limitations of the extant literature particularly in research design and measurement and offers new suggestions to guide future research Highlights the broad scope of the field with topics ranging from demography to development to neuroscience offering the most complete coverage available on cognitive aging

The Development of Logic in Adulthood Jan D. Sinnott, 2013-03-09 In this book Jan D Sinnott synthesizes her 20 years of research on lifespan cognitive development to describe the growth of complex or postformal thought in adults She shows specifically how adults improve mentally over a lifetime and learn to think in more complex and wiser ways Applications of postformal thought are demonstrated in such diverse areas as family relations adult education personal identity and spirituality Chapters examine relations between postformal thought and pertinent variables such as age health memory and vocabulary Other sections deal with issues in humanistic psychology such as guided imagery mind body medicine and creative intentionality
