Peru's APRA Parties Politics And The Elusive Quest For Democracy:

Peru's APRA Carol Graham, 2023 Graham examines the evolution of APRA from its origins in the 1930s through its tenure in government exploring the consensus that the party built and the reasons for its breakdown **Democracy without Parties in Peru** Omar Sanchez-Sibony, 2022-06-06 This book provides an in depth look into key political dynamics that obtain in a democracy without parties offering a window into political undercurrents increasingly in evidence throughout the Latin American region where political parties are withering For the past three decades Peru has showcased a political universe populated by amateur politicians and the dominance of personalism as the main party voter linkage form The study peruses the post 2000 evolution of some of the key Peruvian electoral vehicles and classifies the partisan universe as a party non system There are several elements endogenous to personalist electoral vehicles that perpetuate partylessness contributing to the absence of party building The book also examines electoral dynamics in partyless settings centrally shaped by effective electoral supply personal brands contingency and iterated rounds of strategic voting calculi Given the scarcity of information electoral vehicles provide as well as the enormously complex political environment Peruvian citizens inhabit personal brands provide readymade informational shortcuts that simplify the political world The concept of negative legitimacy environments is furnished to capture political settings comprised of supermajorities of floating voters pervasive negative political identities and a generic citizen preference for newcomers and political outsiders Such environments increasingly present throughout Latin America produce several deleterious effects including high political uncertainty incumbency disadvantage and political time compression Peru's democracy without parties fails to deliver essential democratic functions including governability responsiveness horizontal and vertical accountability or democratic representation among others Political Parties and Democracy Larry Diamond, Richard Gunther, 2001-12-21 Political parties are one of the core institutions of democracy But in democracies around the world rich and poor Western and non Western there is growing evidence of low or declining public confidence in parties In membership organization and popular involvement and commitment political parties are not what they used to be But are they in decline or are they simply changing their forms and functions In contrast to authors of most previous works on political parties which tend to focus exclusively on long established Western democracies the contributors to this volume cover many regions of the world Theoretically they consider the essential functions that political parties perform in democracy and the different types of parties Historically they trace the emergence of parties in Western democracies and the transformation of party cleavage in recent decades Empirically they analyze the changing character of parties and party systems in postcommunist Europe Latin America and five individual countries that have witnessed significant change Italy Japan Taiwan India and Turkey As the authors show political parties are now only one of many vehicles for the representation of interests but they remain essential for recruiting leaders structuring electoral choice and organizing government To the extent that parties are weak and

discredited the health of democracy will be seriously impaired Contributors Larry Diamond and Richard Gunther Hans Daalder Philippe Schmitter Seymour Martin Lipset Giovanni Sartori Bradley Richardson Herbert Kitschelt Michael Coppedge Ergun Ozbudun Yun han Chu Leonardo Morlino Ashutosh Varshney and E Sridharan Stefano Bartolini and Peter Mair

Forging Latin America Russell Crandall, 2023-08-29 A sweeping yet intimate exploration of Latin America's political history Forging Latin America profiles fifty-two of the region's most influential figures who for better or worse have shaped its character and destiny from the Spanish Conquest to the present day This polyphonic gathering of dictators reformers revolutionaries artists writers priests and activists not only foregrounds the major political developments since 1492 but also spotlights lesser known stories of hope change and resistance from the ground up Along the way the book shows how ideas can bring down a government or build one how power corrodes ideology until the perpetuation of power becomes an ideology in and of itself and how the intellectual heritage of Latin America has been used disputed and reinvented over five

astonishing centuries **Case Studies in Latin American Political Economy** Julia Buxton, Nicola Phillips, 1999 Covering the period from the re-establishment of the Irish militia during the Crimean War until the disbandment of the Ulster Defence Regiment in 1992 this book examines the Irish amateur military tradition within the British Army distinctive from a British amateur military tradition Irish men and women of both religions and political persuasions made a significant contribution to these forces and in so doing played an important role within the British Empire whilst also providing a crucial link between the army and Irish society Utilising new source material this book demonstrates the complex nature of Irish involvement with British institutions and its Empire It argues that within this unique tradition two divergent Protestant and Catholic traditions emerged and membership of these organisations was used as a means of social mobility for political patronage and crucially to demonstrate loyalty to Britain and its Empire Paramilitary Groups and the State under Globalization Jasmin Hristov, Jeb

Sprague, Aaron Tauss, 2021-12-30 This book examines the phenomenon of paramilitarism across Latin America and the Caribbean Eastern Europe Africa and Asia offering a nuanced perspective while identifying key patterns in the way paramilitary violence is implicated in processes of capital accumulation state building and the reproduction of social power Paramilitary violence a key modality of coercion in the era of globalization has been pursued by states and dominant classes in the Global South to reproduce or extend their power over subaltern groups Paramilitary groups are responsible for atrocities including extrajudicial executions disappearances torture rape and forced displacement The book integrates empirically rich investigations into an emergent theory of political violence capturing the relationship between parastatal armed actors capital and the state The analysis sheds light on globally relevant phenomena such as the end of the Cold War the shifting role of US hegemony and evolving nature of the nation state The book is suitable for academics graduate and upper year undergraduate students and policy makers in development human rights and violence prevention Given its interdisciplinary subject it appeals to scholars from a wide range of disciplines including political science sociology political

anthropology development peace and conflict security and terrorism international relations and global studies *Politics in Venezuela* Michael Derham, 2010 Hugo Chavez is heavily criticised by the international political class and the press and media. He is dismissed academically as a populist and dismissed more generally as a rabble rouser. However a lot of the criticism and reporting lacks context. *Comparing Apples and Mangoes* S. N. Sangmpam, 2012-02-01 Two competing approaches currently dominate the debate about the state and institutions in developing countries. The first projects a picture of transnational vertical uniformity descending from the West to developing countries and views liberal democracy as the only game in town. In this view the state and institutions resemble or ought to resemble those in the West. The second by contrast explains political outcomes by local idiosyncrasies and regional variations in institutions. In his original approach to third world politics S. N. Sangmpam challenges both views by uncovering important similarities in the political features of developing countries. He shows that they share political behaviors and features unaccounted for in either local idiosyncratic or liberal democratic theories. These behaviors converge toward a common property: overpoliticization that defies political compromise leading to an overpoliticized state. Sangmpam provides a wealth of empirical historical and quantitative evidence from Latin America, Asia, Africa and the West and demonstrates the overpoliticized state constitutes the cornerstone of an integrated theory of politics in developing countries. **Shining Path** Lewis Taylor, 2006-06-01 The Insurrection mounted by the Sendero Luminoso or Shining Path guerrilla movement sparked one of the most vicious civil wars in recent Latin American history in which an estimated 69 000 people lost their lives. A high proportion of the victims comprised rural people from Peru's Andean mountains. *Shining Path Guerrilla War in Peru's Northern Highlands* examines the origins and trajectory of the conflict in the Cajabamba Huamachuco region located in the country's northern sierra, a hitherto ignored theatre of conflict in Peru's recent civil war. Central to the book is the changing relations between guerrilla fighters and the rural population. How and to what extent did the Shining Path succeed in building popular support? What tensions arose between the rebels and the civilians? The book also surveys the literature on Shining Path dealing with the Ayacucho and other departments, comparing and contrasting developments elsewhere in the north. Taylor traces the area's recent agrarian history, assessing the impact of land reform and the emergence of radical peasant organizations in the decade preceding the initiation of armed activity. Using interview data and reports drafted by the security forces, Taylor reveals the state responses to this violent and bloody insurrection. Expertly written and extremely accessible, *Shining Path Guerrilla War in Peru's Northern Highlands* provides a comprehensive analysis of a tragically ignored chapter in Peru's civil war. **The Little Red Book: Quotations from Chairman Mao Tse-tung** Mao Tse-tung, 2024-03-17 *Quotations from Chairman Mao Tse-tung* is a book of statements from speeches and writings by Mao Zedong, Mao Tse-tung, the former Chairman of the Communist Party of China, published from 1964 to about 1976 and widely distributed during the Cultural Revolution. The most popular versions were printed in small sizes that could be easily carried and were bound in bright red covers, becoming

commonly known in the West as the Little Red Book Quotations from Chairman Mao Tse tung was originally compiled by an office of the PLA Daily People s Liberation Army Daily as an inspirational political and military document The initial publication covered 23 topics with 200 selected quotations by the Chairman of the Chinese Communist Party and was entitled 200 Quotations from Chairman Mao It was first given to delegates of a conference on 5 January 1964 who were asked to comment on it In response to the views of the deputies and compilers of the book the work was expanded to address 25 topics with 267 quotations and the title was changed simply to Quotations from Chairman Mao Tse Tung
