Post Impressionists:

Post-Impressionism Nathalia Brodskaja, 2018-03-13 The Post Impressionist period was one of solitary painters Gauguin Sisley C zanne Van Gogh etc There is no longer a unique school There are a few groups but even they break up constantly All these movements remind me of moving geometrical pieces in a kaleidoscope which separate suddenly only to better come together again They move apart then get together but nevertheless stay in the same circle the circle of the new art Emile Verhaeren Nathalia Brodskaja a curator at the State Hermitage Museum describes with her own unsurpassed talent the different paths taken by the heirs of Impressionism towards Modern Art **Post-impressionism** Thomas Parsons, Iain Gale, 1999 Within a year of closing the last Impressionist exhibition in 1886 a large and disparate group of movements had appeared each with its own beliefs about the nature and function of art From Neo Impressionism to Symbolism from Gauguin and van Gogh to Matisse and Munch the program of 20th century art was emerging These individual styles are now collectively referred to as Post Impressionism This book imposes coherence and a sense of pattern upon this diverse mix of movements and individuals that reacted against the style and subject matter of the Impressionists The sociohistoric background against which Post Impressionism evolved and the international reverberations of the movement are presented Special emphasis is given to the revolution that Post Impressionism created in Russia which had effects far beyond the confines of art Post-Impressionists in England Barrie Bullen, 2024-03-08 First Published in 1988 Post impressionists in England documents the response of English taste to modern French art from the first Post Impressionist Exhibition in 1910 to the outbreak of the First World War The notion of Post Impressionism unlike its earlier counterpart Impressionism was an exclusively English contribution to art history Originally used to denote the work of Cezanne Van Gogh Gauguin Matisse and the Fauve painters it rapidly assimilated Futurism Cubism and recent English work like Vorticism By focusing on one aspect of an important and complex period in British cultural history J B Bullen illuminates not only aesthetic questions but also the way in which those aesthetic issues were determined and conditioned by social and political concerns Changes in English attitudes to art in this period were so rapid and were modified with such speed that the author has taken a strictly chronological approach to the subject He sets out clearly the month by month developments in English attitudes and traces in detail the debates about modernism in England To make matters clearer the book is divided into three major parts each complementary to the others The introduction surveys the period as a whole and places attitudes to art in the general context of the culture of the time In the second part the extracts provide selected concrete and particular examples of the huge range of material upon which the findings of the introduction are based the writers represented include Roger Fry Bernard Berenson Desmond McCarthy John Singer Sargent Walter Sickert Clive Bell Virginia Woolf and Wyndham Lewis In the third part a chronology sets out in tabular form month by month events exhibitions and major publications as they occurred in Britain and in France This is a must read for scholars and researchers of British cultural history and art history

Impressionist and Post-impressionist Paintings in the Metropolitan Museum of Art Metropolitan Museum of Art (New York, N.Y.), Charles S. Moffett, 1985 **Impressionism and Post-Impressionism** Nathalia Brodskaïa, 2018-03-13

Impressionism is the most famous artistic movement But what appears today as a charming and exquisite landscape painting was actually one of the first avant garde movements whose members had decided to fight the values of traditional art The impressionist outdoor paintings shocked the public by the technique used but also by their apparent banality As Monet Sisley Pissarro and many others sought to capture the ephemeral nature of light the next generation would reject naturalism Indeed post impressionists such as Gauguin Van Gogh C zanne and Seurat favored the subjective rather than the objective and the eternal rather than the concrete In doing so they laid the formal foundations of 20th century modern art This book is a visual guide through the crucial moments in the history of art and the progression of the 19th century to modernity

Post-impressionism Colin Wiggins, 1993 A visual guide to the post impressionist painters and the influences that shaped their work **Post-Impressionism** Flaminio Gualdoni, 2008 Post Impressionism is a movement in France that represented both an extension of Impressionism and a rejection of that style s inherent limitations The term Post Impressionism was coined by the English art critic Roger Fry for the work of such late 19th century painters as Paul C zanne Georges Seurat Paul Gauguin Vincent van Gogh Henri de Toulouse Lautrec and others Most of these painters began as Impressionists each of them abandoned the style however to form his own highly personal art Impressionism was based in its strictest sense on the objective recording of nature in terms of the fugitive effects of colour and light The Post Impressionists rejected this limited aim in favour of more ambitious expression admitting their debt however to the pure brilliant colours of Impressionism its freedom from traditional subject matter and its technique of defining form with short brushstrokes of broken colour The work of these painters formed a basis for several contemporary trends and for early 20th century modernism **The Post-impressionists** Martha Kapos, 1993 **Impressionism and Post-impressionism, 1874-1904** Linda Nochlin, 1966
