Northumberland Hills & Valleys Stan Beckensall, 2012-06-15 Lavishly illustrated full colour book exploring the landscape and geology of Northumberland

The Prehistoric Settlement of Britain Richard Bradley, 2014-10-24 This study first published in 1978 explores the evidence for pre Roman settlement in Britain Four aspects of the prehistoric economy are described by the author colonisation and clearance arable and pastoral farming transhumance and nomadism and hunting gathering and fishing These aspects have been brought together to formulate a structure which contains the evidence more naturally than chronological schemes that depend on assumed changes in population or technology The book draws upon environmental evidence and recent developments in archaeological fieldwork It also provides an extensive exploration of the published literature on the subject and the scope of the evidence Originally conceived as an ideas book rather than a final synthesis the author's intention throughout is to stimulate argument and research and not to replace one dogma with another

The North Pennines from Prehistory to Present Paul Frodsham, Martin Green, Greg Finch, 2024-11-14 The first comprehensive survey of the archaeology of the North Pennines from Mesolithic to modern times Traces of 10 000 years of human activity survive today including flint scatters at Mesolithic campsites earthworks of prehistoric and later settlements and field systems and extensive remnants of the post medieval miner farmer landscape

Rock Art and the Prehistory of Atlantic Europe Mr Richard Bradley, Richard Bradley, 2002-11-01 Along the Atlantic seaboard from Scotland to Spain are numerous rock carvings made four to five thousand years ago whose interpretation poses a major challenge to

the archaeologist In the first full length treatment of the subject based largely on new fieldwork Richard Bradley argues that these carvings should be interpreted as a series of symbolic messages that are shared between monuments artefacts and natural places in the landscape He discusses the cultural setting of the rock carvings and the ways in which they can be interpreted in relation to ancient land use the creation of ritual monuments and the burial of the dead Integrating this fascinating yet little known material into the mainstream of prehistoric studies Richard Bradley demonstrates that these carvings played a fundamental role in the organization of the prehistoric landscape **Ancient Northumberland** Clive Waddington,Dave Passmore,2004 *The Farming of Prehistoric Britain* P. J. Fowler,1983-07-07 Emphasizing past gains in knowledge from experimental aerial and field archaeology Dr Fowler demonstrates how the application of archaeological approaches to agrarian history has made the subject central to our understanding of the prehistoric period Emphasizing past gains in knowledge from experimental aerial and field archaeology Dr Fowler demonstrates how the application of archaeological approaches to agrarian history has made the subject central to our understanding of the prehistoric period

The Prehistoric Peoples of Scotland Stuart Piggott,2014-10-30 Based on lectures given at the Conference of the British Summer School of Archaeology at Edinburgh in 1954 this book published in 1962 surveys the general field of pre historic Scotland five archaeologists each contributing chapters discussing the main aspects and problems that have presented themselves in specialised research areas From the first peopling of the area by human communities with hunting and food gathering economies to field antiquities and the introduction of copper and bronze metallurgy and on to the first settlement by Celtic speakers and the links to the first historically documented Scotland Contributors R J C Atkinson G E Daniel T G E Powell and C A R Radford Rituals of Death Stan Beckensall,2023-02-22 We all must die and how society deals with the disposal is fascinating in the way it reflects the beliefs of the people of the time and ways in which they honor or do not honor the dead Having excavated prehistoric burials the author weighs carefully the evidence of what people might have thought of the dead through the way they buried them and what was put into the graves These excavations were done mainly with the help of young people and the way that this has been organised in order to get the maximum information has been an essential part of the task The author provides much detail of this that makes it more interesting and personal Burial customs change so the book includes a section on events such as the Black Death and cholera to show how such catastrophes change people s minds and customs The present problem of burial has been highlighted as it was then by the horror of an invisible disease the effects of which we have to cope with In the past the causes of the disease when discovered led to Public health inquiries into the causes and to improvements in some burial grounds The traditional burial in God s little Acre around a church provides with much information about people through their headstones and other monuments something accessible to all who visit our churches today and examples from Northumberland give a typical range of what we find there
