Principles Of Islamic Teachings:

The Principles of Islamic Marketing Baker Ahmad Alserhan, 2016-03-03 The Principles of Islamic Marketing fills a gap in international business literature covering the aspects and values of Islamic business thought. It provides a framework and practical perspectives for understanding and implementing the Islamic marketing code of conduct. It is not a religious book. The Islamic Economic System is a business model adopted by nearly one quarter of the world's population. Baker Alserhan identifies the features of the Islamic structure of International Marketing practices and ethics. Adherence to such ethical practices elevates the standards of behaviour of traders and consumers alike and creates a value loaded framework for meaningful cooperation between international marketers and their Muslim markets. His book provides a complete guide for an organization when managing its entire marketing function or when customising part of its offering to suit Muslim customers. It addresses the challenges facing marketers involved in business activities with and within Islamic communities, the knowledge needs of academic institutions and the interest of multinationals keen on tapping the huge Islamic markets. Along the way Baker Alserhan provides insights into key elements such as distribution channels, retailing practices, branding, positioning and pricing, all within the Muslim legal and cultural norms. This second edition brings the book up to date and features a number of new case studies and two additional chapters on Maqasid Al Shariah and the Islamic economy and a strategic perspective on Islamic marketing and branding.

Principles of Islamic Teachings, 1990 *Understanding The Basic Principles of Islam* Omer A. Ergi, 2012-08-16 This book describes and explains the meaning of the essential articles of faith and basic forms of worship in Islam. The narration is enriched with relevant essays from prominent scholars. In addition to the answers given to the frequently asked questions, the author uses different allegories and metaphors in order to clarify his points. Perfect for young readers, the book presents the basic framework of understanding and reasoning of the Islamic faith.

Ghazali on the Principles of Islamic Spirituality Ghazzālī, 2012 The wisdom of one of the greatest scholars of Islam can be a companion on your own spiritual journey. Considered by many to be the all-time greatest scholar of Islam, Imam Abu Hamid al-Ghazali (1058-1111) was also one of the foremost sages of theology, philosophy and Sufism. His writings on the interrelation of law, theology and mysticism were central in establishing Sufism as a core dimension of orthodox Islamic practice. Muslim communities all across the world today still base much of their practice of Islam on Ghazali's writings. *The Forty Foundations of Religion*, Ghazali's own summary of his magnum opus *The Revival of the Religious Sciences*, serves as a brief and powerful summary of Islamic faith, worship, law and spirituality. It outlines the basis of Islamic belief, the foundational matters of ritual and practice, and the character traits a person must cultivate and avoid in the perfection of faith. Now you can experience the wisdom of Ghazali even if you have no previous knowledge of *The Forty Foundations of Religion* or Islam. This SkyLight Illuminations edition, the first publication of significant portions of *The Forty Foundations of Religion* in English, provides original translations of selected highlights accompanied by insightful

commentary that makes the core message of this great spiritual master relevant to anyone seeking a balanced understanding of Islam

Financial and Accounting Principles in Islamic Finance Samir Alamad, 2019-05-10 This book provides an original account detailing the origins and components of a faith based accounting system that was founded around 629 CE By examining the historical development that the accounting systems underwent within the context of faith based rules and values the book explains what is meant by the term faith based accounting together with a discussion of its characteristics in relation to various product structures and the underlying Islamic finance principles It provides important theoretical and practical contributions by explaining accounting as a value based science rather than a value free object or abstract This book explores the way in which religious rules act as a directive for accounting and auditing practices in IFIs Through which the concept of money and digital currency within the theory of money and how it is enacted in a faith based context amid differences of opinions among its actors is examined This is an important foundation to explain Islamic accounting and includes how this outcome would shape the faith based view regarding the new phenomenon of digital currency DC Also featured is the concept of paper money within the theory of money and how it is enacted in a faith based legal framework by identifying two core concepts of today s Fiat money as being a single genus or multi genera money This book is not merely an academic work nor is it a pure practitioner guide rather it is a robust work that combines both It marries rigorous academic research and theories with practical industry experiences The book provides a clear and concise guide to accounting in Islamic economics and finance and how Islamic financial institutions could meet the applicable faith based rules in their accounting practices
