Family & Fortune Pauline Wilson, 2025-03-12 When fate dismantles her world a young woman discovers the strength to build a new life in a wild land In a tale that spans continents and generations Family Fortune follows the extraordinary journey of Mary Ann Turner a young woman from 19th century England who dares to forge her own path in the face of adversity When Mary Ann s father arranges her marriage to Richard Evans a former convict seeking redemption in the untamed wilds of Australia she must leave behind everything she knows and embark on a perilous voyage to a strange new land As Mary Ann and Richard carve out a life together amidst the harsh beauty of the Australian landscape they face unimaginable challenges that test the limits of their resilience and love With rich historical detail and a cast of unforgettable characters Family Fortune is a sweeping saga that explores the enduring nature of love the unbreakable bonds of family and the courage required to build a new life Pauline Wilson weaves a compelling narrative that will transport readers from the rolling hills of Bedfordshire to the untamed bush of Victoria immersing them in a story that is both deeply personal and universally resonant Family Fortune is a must read for fans of historical fiction who yearn for an epic tale of love loss and the indomitable strength of the human spirit Get Your Copy Now

Transhumanism David Livingstone, 2015-09-02 Transhumanism is a recent movement that extols man s right to shape his own evolution by maximizing the use of scientific technologies to enhance human physical and intellectual potential While the name is new the idea has long been a popular theme of science fiction featured in such films as 2001 A Space Odyssey Blade Runner the

Terminator series and more recently The Matrix Limitless Her and Transcendence However as its adherents hint at in their own publications transhumanism is an occult project rooted in Rosicrucianism and Freemasonry and derived from the Kabbalah which asserts that humanity is evolving intellectually towards a point in time when man will become God Modeled on the medieval legend of the Golem and Frankenstein they believe man will be able to create life itself in the form of living machines or artificial intelligence Spearheaded by the Cybernetics Group the project resulted in both the development of the modern computer and MK Ultra the CIA s mind control program MK Ultra promoted the mind expanding potential of psychedelic drugs to shape the counterculture of the 1960s based on the notion that the shamans of ancient times used psychoactive substances equated with the apple of the Tree of Knowledge And as revealed in the movie Lucy through the use of smart drugs and what transhumanists call mind uploading man will be able to merge with the Internet which is envisioned as the end point of Kabbalistic evolution the formation of a collective consciousness or Global Brain That awaited moment is what Ray Kurzweil a director of engineering at Google refers to as The Singularity By accumulating the total of human knowledge and providing access to every aspect of human activity the Internet will supposedly achieve omniscience becoming the God of occultism or the Masonic All Seeing Eye of the reverse side of the American dollar bill

Abstract Painting in Canada Roald Nasgaard,Art Gallery of Nova Scotia,2008 In the tradition of the distinguished Douglas McIntyre art program this lavishly illustrated and superbly printed book is a rich readable history of abstract painting in Canada The story begins in the 1920s with the sometimes eccentric but remarkable work rooted in symbolism and theosophy of pioneers such as Kathleen Munn Bertram Brooker and Lawren Harris Two decades later the Automatistes Canada s first truly independent avant garde art movement burst onto the scene in Montreal After the Second World War the urge to abstraction spread across Canada manifesting itself in significant regional movements Vancouver painters retained a British flavour while in Toronto the Painters Eleven looked south to New York Montreal s Plasticiens launched their own razor edged interpretation of the European tradition of geometric abstraction In the sixties and seventies the Prairies were influenced by Clement Greenberg s post painterly abstraction while Halifax became a hub of conceptual art and concrete painting The book continues through the eighties and nineties during which critics largely denounced painting and concludes in the twenty first century with abstract painting alive and well again in the studios of Canada s young artists A monumental tome containing 200 color reproductions it mines a rich vein of art history ripe for international discovery
