Scientific Background To Moder:

The Scientific Background to Modern Philosophy Michael R. Matthews, 1989-01-01 A supplementary text for courses in the history of modern philosophy helping to link developments in modern science and modern philosophy *Background to Modern Science* Joseph Needham, Walter Pagel, 1975 Reexamining the Scientific Basis for the Linear No-threshold Model of Low-dose Radiation United States. Congress. House. Committee on Science. Subcommittee on Energy and Environment, 2001 **Data Science Analytics and Applications** Shriram R, Mak Sharma, 2018-02-23 This book constitutes the refereed proceedings of the First International Conference on Data Science Analytics and Applications DaSAA 2017 held in Chennai India in January 2017 The 16 revised full papers and 4 revised short papers presented were carefully reviewed and selected from 77 submissions The papers address issues such as data analytics data mining cloud computing machine learning text classification and analysis information retrieval DSS security image and video processing **Computational Science - ICCS 2007** Yong Shi, Geert Dick van Albada, Jack Dongarra, Peter M.A. Sloot, 2007-07-16 Part of a four volume set this book constitutes the refereed proceedings of the 7th International Conference on Computational Science ICCS 2007 held in Beijing China in May 2007 The papers cover a large volume of topics in computational science and related areas from multiscale physics to wireless networks and from graph theory to tools for program development *Historical epistemology and the making of modern Chinese medicine* Howard Chiang, 2015-07-01 This collection expands the history of Chinese medicine by bridging the philosophical concerns of epistemology and the history and cultural politics of transregional medical formations Topics range from the spread of ginkgo s popularity from East Asia to the West to the appeal of acupuncture for complementing in vitro fertilisation regimens from the modernisation of Chinese anatomy and forensic science to the evolving perceptions of the clinical efficacy of Chinese medicine The individual essays cohere around the powerful theoretical methodological approach historical epistemology which challenges the seemingly constant and timeless status of such rudimentary but pivotal dimensions of scientific process as knowledge reason argument objectivity evidence fact and truth In studying the globalising role of medical objects the contested premise of medical authority and legitimacy and the syncretic transformations of metaphysical and ontological knowledge contributors illuminate how the breadth of the historical study of Chinese medicine and its practices of knowledge making in the modern period must be at once philosophical and transnational in scope **Proceedings of the Gamma Ray Observatory Science Workshop** W. Neil Johnson, 1989 Data Science Rui Mao, Hongzhi Wang, Xiaolan Xie, Zeguang Lu, 2019-09-13 This two volume set CCIS 1058 and 1059 constitutes the refereed proceedings of the 5th International Conference of Pioneering Computer Scientists Engineers and Educators ICPCSEE 2019 held in Guilin China in September 2019 The 104 revised full papers presented in these two volumes were carefully reviewed and selected from 395 submissions The papers cover a wide range of topics related to basic theory and techniques for data science including data mining data base net work security machine learning

Computing and Philosophy in Asia Soraj Hongladarom, 2009-03-26 This volume is a collection of selected papers presented at the Second Asia Pacific Computing and Philosophy Conference which was held in Bangkok Thailand in January 2005 The conference was organized by the Center for Ethics of Science and Technology Chulalongkorn University on behalf of the International Association of Computing and Philosophy www.ia-cap.org Computing have had a long relationship with philosophy starting from the problem of how symbols being manipulated in computing bear a relation to the outside world to those of artificial intelligence robotics computer simulation and so on Moreover as computer technologies have become thoroughly pervasive in today's environment there are also issues concerning social and ethical impacts brought about by them The papers in the volume represent a wide variety of concerns and various dimensions within which computing and philosophy are related Furthermore it also represents some of the first attempts to highlight cultural dimensions of computing and philosophy which became prominent when the conference was held for the first time within the milieu of an Asian culture The First Asia Pacific Computing and Philosophy was held in Canberra Australia Hence many of the papers in the volume address this added dimension Apart from the usual problems of how computers and human lives are interconnected the papers here also discuss how computers are related to human lives as lived in a specific culture Thus the book breaks a new ground and should be of interest to a wide range of scholars and students who are interested not only on computing and philosophy generally construed but also on this exciting new dimension of how the cultures of Asia the West and others bear upon the traditional issues in computing and philosophy and on how this dimension raises some new concerns and agenda Among the topics discussed in this volume are political online forums in Saudi Arabia e democracy and structural transformation of public sphere the Buddhist informational person a glance into the lives of computerized generation in Thailand technology and journalism in the market local approaches and global potential of information ethics computer enhanced good life computer teaching ethics and many others A Modern Contagion Amir A.

Afkhami, 2019-02-05 How deadly cholera pandemics transformed modern Iran Pandemic cholera reached Iran for the first of many times in 1821 assisted by Britain's territorial expansion and growing commercial pursuits The revival of Iran's trade arteries after six decades of intermittent civil war fractured rule and isolation allowed the epidemic to spread inland and assume national proportions In *A Modern Contagion* Amir A Afkhami argues that the disease had a profound influence on the development of modern Iran steering the country's social economic and political currents Drawing on archival documents from Iranian European and American sources Afkhami provides a comprehensive overview of pandemic cholera in Iran from the early nineteenth century to the First World War Linking the intensity of Iran's cholera outbreaks to the country's particular sociobiological vulnerabilities he demonstrates that local national and international forces in Iran helped structure the region's susceptibility to the epidemics He also explains how Iran's cholera outbreaks drove the adoption of new

paradigms in medicine helped transform Iranian views of government and caused enduring institutional changes during a critical period in the country's modern development Cholera played an important role in Iran's globalization and diplomacy influencing everything from military engagements and boundary negotiations to Russia and Britain's imperial rivalry in the Middle East Remediating an important deficit in the historiography of medicine public health and the Middle East A Modern Contagion increases our understanding of ongoing sociopolitical challenges in Iran and the rest of the Islamic world

Papanicolaou, 2016-05-13

First Published in 1987 This book explores the implications of Henri Bergson's philosophy for contemporary science discussing the misinformed view that Bergsonism stands for a romantic revival of anti scientific vitalism notwithstanding Likewise this study draws value in that Bergson's philosophy appears to offer guidelines as to how to restore paradigmatic cohesiveness between modern physics and the life sciences The authors argue that Bergson's ideas stand a better chance of being appreciated and their heuristic value harnessed today because the infra structure alluded to before is now in place
