**Scripture Versus Science : Reconciling God's Ancient Wisdom with a Modern World View** Robert D. Harter, PhD, 2015-07-12 With trepidation Dr Robert D Harter approached the subject of Earth origins and human development from the position of a lifelong Christian who is also a scientist He grew up in a rural Ohio Christian family and thoroughly understands the position of those who believe the Earth and everything in it was created a few thousand years ago At the same time he is a university professor who understands the basis upon which the Earth is claimed to be millions of years old Both positions cannot be correct and it is probable that neither is completely wrong Using a scientist's analytical approach Dr Harter evaluated and compared biblical anthropological and geological records In Scripture Versus Science he proposes a resolution to the increasingly heated argument about evolution While unlikely to provide a clear and definitive answer this book begins to thin the fog that has developed around it He states There has been a lot of fog associated with whether God created the universe and everything in it or whether it just happened by chance In writing this book I attempt to show that the ideas supporting the two views are not necessarily mutually exclusive In other words I hope I have allowed a bit of sun to shine through the fog
