*Pastoralism and Socio-technological Transformations in Northern Benin* Georges Djohy, 2017 Pastoralists throughout Africa face increasing pressures In Benin governmental development policies and programmes in crop farming are changing power relations between herders and farmers to favour the latter How are the Fulani pastoralists responding to these threats to their existence Georges Djohy explores the dynamics in local use of natural resources and in inter ethnic relations resulting from development interventions He combines the approaches of science and technology studies looking at the co construction of society and technology and political ecology looking at the power relations shaping the dynamics of economic environmental and social change so as to throw light on the forces of marginalisation adaptation and innovation at work in northern Benin Having worked there for many years Djohy has been able to uncover gradual processes of socio technological change that are happening behind the scenes of agricultural development involving mechanisation herbicide use tree planting land registration and natural resource conservation He reveals how farmers are using these interventions as weapons in order to gain more rights over larger areas of land in other words to support indigenous land grabbing from herders who had been using the land since decades for grazing He documents how the Fulani are innovating to ensure their survival e g by using

new technologies for transport and communication developing new strategies of livestock feeding and herd movement and developing complementary sources of household income The Fulani are organising themselves from local to national level to provide technological and socio cultural services manage conflicts and gain a stronger political voice e g to be able to achieve demarcation of corridors for moving livestock through cultivated areas They even use non functioning mini dairies another example of development intervention to demonstrate their modernity and to open up other opportunities to transform their pastoral systems This book provides insights into normally hidden technical and social dynamics that are unexpected outcomes of development interventions **Technology Quarterly and Proceedings of the Society of Arts** ,1903

*Science and Society* A. Rupert Hall,2024-10-28 This is the second selection of articles by Rupert Hall to be published by Variorum Whereas the first volume focused on Newton and his work the present one ranges more widely over the interactions between pure science applied science and craftsmanship but with an emphasis on the period from the 17th century to the Industrial Revolution The second and third sections look in particular at the relations between science and warfare and science and medicine and the position of the Royal Society forms the focus of several papers Throughout Professor Hall argues for the need to keep in mind that the distinction between the practical or professional and the intellectual was not then valid in the same way as now that the problems of the interaction and interdependence between knowing and doing are not invariant but rather historically determined and with defined historical contexts *Science and Society in Early America* Randolph Shipley Klein,1986 These 12 essays reflect Dr Bell s interests not only as a distinguished scholar of Benjamin Franklin Biographical Sketch of Dr Bell with Selected Biblio Benjamin Franklin The Old England Man by Esmond Wright Frustration William Byrd Reports on His Mission to the Cherokee in 1758 by W W Abbot The Men of 68 Graduates of Amer s First Medical School by Randolph Klein The Search for the State House Yard Observatory by Silvio Bedini Benjamin Henry Latrobe Learned Engineer The APS The Phila Soc For Alleviating the Miseries of Public Prisons 1787 1829 by Marvin Wolfgang Cotton Textiles The Amer Industrial Revolution Through its Survivals by Brooke Hindle A Catalog of Books Belonging to Benjamin Smith Barton by Joseph Swan Foreign Membership of Biological Scientists in the APS During the 18th Louis Agassiz as an Early Embryologist in Amer by Jane Oppenheimer Illus Science, Technology, Imperialism, and War Jyoti Bhusan Das Gupta,2007 The Volume Science Technology Imperialism And War Interlinks The Concerned Themes To Present A Coherent Analyssis Of The Development Of Related Ideas And Institutions In The Subcontinent The Chapters On Science Therefore Look At The Cognitive And Socio Historical Aspects Of Science Relating The Same With The Establishment And Spread Of Imperialism In India With Its Application To Develop Technologies And With The Use Of Such Technologies To Fund The Major Preoccupation Of Imperialism War Likewise The Section On Technology Leads The Reader To A Search For Its Very Probable Links With Imperialism And War The Section On Imperialism Offers Four Themes In The Edited Volume The First One Deals With Its Theories The Second With Its Link With Colonialism And The Third And The

**Science, Technology, and Irish Modernism** Kathryn Conrad, C  il  n Parsons, Julie McCormick Weng, 2019-09-13 Since W B Yeats wrote in 1890 that the man of science is too often a person who has exchanged his soul for a formula the anti scientific bent of Irish literature has often been taken as a given Science Technology and Irish Modernism brings together leading and emerging scholars of Irish modernism to challenge the stereotype that Irish literature has been unconcerned with scientific and technological change The collection spotlights authors ranging from James Joyce Elizabeth Bowen Flann O'Brien and Samuel Beckett to less studied writers like Emily Lawless John Eglinton Denis Johnston and Lennox Robinson With chapters on naturalism futurism dynamite gramophones uncertainty astronomy automobiles and more this book showcases the far reaching scope and complexity of Irish writers' engagement with innovations in science and technology Taken together the fifteen original essays in Science Technology and Irish Modernism map a new literary landscape of Ireland in the twentieth century By focusing on writers often ignored interest in science and technology this book uncovers shared concerns between revivalists modernists

and late modernists that challenge us to rethink how we categorize and periodize Irish literature      *Aspects of Science and Technology in Ancient India* Arun Kumar Jha, Seema Sahay, 2023-03-14 This book critically examines different aspects of scientific and technological development in Ancient India It studies the special contribution of the history of science in our scientific understanding and its relationship with the philosophy and sociology of science The volume Discusses diverse and wide ranging themes including Tibetan Buddhist tradition of neuro biology Sheds light on the unique developments within iron technology and urbanization in ancient Odisha Studies the trajectory of proto historic astronomy in India and the science of monsoon in early India Evaluates the legacy of Aryabhata based on his major works related to astronomy and mathematics through a multidimensional perspective Analyses the traditional knowledge of medicine in early India the golden age of surgery with reference to the ancient Greek and Arabic systems of medicine and the Buddhist influence on the science of medicine in Tibet This book will be an essential read for scholars and researchers of ancient history Indian history history of science history of technology science and technology studies and South Asian studies      *Controlling Technology* ,      **1999**

**International Symposium on Technology and Society** IEEE Society on Social Implications of Technology, 1999 The theme of the symposium is Women and Technology Historical Societal and Professional Perspectives The roles of women in technology are more diverse controversial and important today than ever before Since the 1950s women have tried to technologically empower themselves particularly by entering the engineering profession They have done so in great numbers although today it is glaringly obvious that women are still underrepresented in engineering Women in the field still face gender based obstacles expectations and biases despite decades of efforts to eradicate these problems These issues are addressed      **Pseudo-Science and Society in 19th-Century America** Arthur Wrobel, 2021-10-21 Progressive nineteenth century Americans believed firmly that human perfection could be achieved with the aid of modern science To many the science of that turbulent age appeared to offer bright new answers to life s age old questions Such a climate not surprisingly fostered the growth of what we now view as pseudo sciences disciplines delicately balancing a dubious inductive methodology with moral and spiritual concerns disseminated with a combination of aggressive entrepreneurship and sheer entertainment Such sciences as mesmerism spiritualism homoeopathy hydropathy and phrenology were warmly received not only by the uninformed and credulous but also by the respectable and educated Rationalistic egalitarian and utilitarian they struck familiar and reassuring chords in American ears and gave credence to the message of reformers that health and happiness are accessible to all As the contributors to this volume show the diffusion and practice of these pseudo sciences intertwined with all the major medical cultural religious and philosophical revolutions in nineteenth century America Hydropathy and particularly homoeopathy for example enjoyed sufficient respectability for a time to challenge orthodox medicine The claims of mesmerists and spiritualists appeared to offer hope for a new moral social order Daring flights of pseudo scientific thought even ventured into such areas as art and human sexuality And all the pseudo sciences resonated

with the communitarian and women's rights movements This important exploration of the major nineteenth century pseudo sciences provides fresh perspectives on the American society of that era and on the history of the orthodox sciences a number of which grew out of the fertile soil plowed by the pseudo scientists

**African Science Education** Jamaine Abidogun, 2018-03-15 Based on interrogation and review of historical and current cultural and indigenous knowledge combined with extensive curriculum and classroom analysis this book identifies how indigenous science gender roles may be utilized to provide a more gender balanced and indigenous centered learning experience The book argues for the integration of African indigenous science into the secondary school curriculum as a way to strengthen students science comprehension by affirming their society's science contributions making clear connections between Indigenous and Western science and also as a way to promote female representation in the sciences This book will be of interest to scholars and practitioners of science education African education and indigenous knowledge
