Layard was obliged to close his excavations for want of funds and he returned to England with Rassam leaving all the northern half of the great mound of Kuy njik unexcavated. He resigned his position as Director of Excavations to the British Museum's Trustees and Colonel later Sir H C Rawlinson Consul General of Baghdad undertook to direct any further excavations that might be possible to carry out later on. During the summer the Trustees received a further grant from Parliament for excavations in Assyria and they dispatched Rassam to finish the exploration of Kuy njik knowing that the lease of the mound of Kuy njik for excavation purposes which he had obtained from its owner had several years to run. When Rassam arrived at Mosul in 1853 and was collecting his men for work he discovered that Rawlinson who knew nothing about the lease of the mound which Rassam held had given the French Consul M Place permission to excavate the northern half of the mound i.e. that part of it which he was most anxious to excavate for the British Museum. He protested but in vain and finding that M Place intended to hold Rawlinson to his word devoted himself to clearing out part of the South West Palace which Layard had attacked in 1852.

The Wisdom of the Serpent Joseph Lewis Henderson, Maud Oakes, 2020-07-21

The tribal initiation of the shaman the archetype of the serpent exemplifies the death of the self and a rebirth into transcendent life. This book traces the images of spiritual initiation in religious rituals and myths of resurrection poems and epics cycles of nature and art and dreaming. It dramatizes the metamorphosis from a common experience of death's inevitability into a transcendent freedom beyond individual limitations. This is a classic work in analytical psychology that offers crucial insights on the meaning of death symbolism and its inevitably accompanying rebirth and resurrection symbolism as part of the great theme of initiation of which Henderson is the world's foremost psychological interpreter. This material is really the next step after the hero myth that Joseph Campbell has made so popular and provides an understanding of how not to use the hero myth in an inflated way as a psychology of mastery but as an attainment progressively to be died beyond. Henderson is helped by the presence of Maud Oakes who is a trained anthropologist with exquisite taste in her choice of mythic materials and respect for their original contexts. John Beebe
