Scorpions' Dance Jefferson Morley, 2022-06-07 For the 50th anniversary of the Watergate break in The untold story of President Richard Nixon CIA Director Richard Helms and their volatile shared secrets that ended a presidency Scorpions Dance by intelligence expert and investigative journalist Jefferson Morley reveals the Watergate scandal in a completely new light as the culmination of a concealed deadly power struggle between President Richard Nixon and CIA Director Richard Helms Nixon and Helms went back decades both were 1950s Cold Warriors and both knew secrets about the disastrous Bay of Pigs invasion of Cuba as well as off the books American government and CIA plots to remove Fidel Castro and other leaders in Latin America Both had enough information on each other to ruin their careers After the Watergate burglary on June 17 1972 Nixon was desperate to shut down the FBI's investigation He sought Helms support and asked that the CIA intervene knowing that most of the Watergate burglars were retired CIA agents contractors or long term assets with deep knowledge of the Agency's most sensitive secrets The two now circled each other like scorpions defending themselves with the threat of lethal attack The loser would resign his office in disgrace the winner however would face consequences for the secrets he had kept Rigorously researched and dramatically told Scorpions Dance uses long neglected evidence to reveal a new perspective on one of America's most notorious presidential scandals Scorpions' Dance Anne Mather, 1978

Pagan Portals - The Power of the Elements Melusine Draco,2018-11-30 How to find deeper meaning in magical workings with Earth Air Fire Water and Spirit and connect with the Old Ways Many contemporary pagan books rarely go further than describing the use of the elemental energies as markers in casting the Circle In The Power of the Elements we consider drawing on the energy from the deepest levels of the ocean the highest peaks of the mountains the limits of outer space and the path of the hurricane And why it is so important to return to the Classic Elements of the Greeks if we really want our magic to work **Nothingness and Desire** James W. Heisig,2013-07-31 The six lectures that make up this book were delivered in March 2011 at London University s School of Oriental and Asian Studies as the Jordan Lectures on Comparative Religion They revolve around the intersection of two ideas nothingness and desire as they apply to a re examination of the questions of self God morality property and the East West philosophical divide Rather than attempt to harmonize East and West philosophies into a single chorus Heisig undertakes what he calls a philosophical antiphony Through the simple call and response of a few representative voices Heisig tries to join the choir on both sides of the antiphony to relate the questions at

hand to larger problems that press on the human community He argues that as problems like the technological devastation of the natural world the shrinking of elected governance through the expanding powers of financial institutions and the expropriation of alternate cultures of health and education spread freely through traditional civilizations across the world religious and philosophical responses can no longer afford to remain territorial in outlook Although the lectures often stress the importance of practice their principal preoccupation is with seeing the things of life more clearly Heisig explains By that I mean not just looking more closely at objects that come into my line of view from day to day but seeing them as mirrors in which I can see myself reflected Things do not just reveal parts of the world to me they also tell me something of how I see what I see and who it is that does the seeing To listen to what things have to say to me I need to break with the habit of thinking simply that it is I who mirror inside of myself the world outside and process what I have captured to make my way through life Only when this habit has been broken will I be able to start seeing through the reflections to scrape the tain off the mirror as it were so that it becomes a window to the things of life as they are with only a pale reflection of myself left on the pane Everything seen through the looking glass myself included becomes an image on which reality has stamped itself This I am persuaded is the closest we can come to a ground for thinking reasonably and acting as true to life as we can

Ash of stars , A critical appreciation of the acclaimed science fiction writer and his works **The Bitches Door** Brazell Tornellini,2015-11-05 The new and exciting voice of Brazell Tornellini is captured within these bitching pages flaming in wildfire flair These poems race the tracks of the poet s untamed imagination Dive into the pool of pages that are feverously burning Hesitate not to consume Tornellini s unadulterated tongue lashings of a vacant heart ravenous to be appeased by life love and romance Poetry is not frivolous and mundane Poetry is not DEAD Poetry is ALIVE and Thriving across the universe Get your copy of The Bitches Door today if you dare to be brave **The 21st Century Cold War** Jeffrey Kaplan,2020-06-04 The 21st Century Cold War is a multidisciplinary approach to understanding the pattern of Russian interference in the internal affairs of other nations suggesting that what in the Cold War was a simple conflict of East vs West has expanded into a conflict between Russia and two increasingly separate Wests The book begins with an examination of the structure of the Cold War and post Cold War world and subsequently explores Russian interference by overt grey and covert means including but not limited to cyberespionage fake news and the use of what in the Cold War would have been called front groups and agents of influence The approach encompasses both historic and contemporary themes with the question of whether the Cold War between East and West capitalism and communism is a thing of the past or does it continue today in new ideological guises as a central theme Expert contributors explore what the motivations and implications for the pattern of Russian interference in the political processes of other states would be and what new coalitions of actors are taking shape both for and against Russian activities With a series of historical and contemporary case studies focusing on the origins and contemporary dimensions of Russian information warfare and exploring the issues involved from every perspective The 21st

Century Cold War will be of great interest to scholars of Security and Strategic Studies International Relations and Cold War History as well as policy makers and security professionals The chapters were originally published as a special issue of Terrorism and Political Violence

Winter Solstice Michael Hogan, 2012-01-10 Winter Solstice Selected Poetry 1975 2012 edited by James Hepworth gathers together the very best of Michael Hogan's work from the Paris Review The American Poetry Review the Iowa Review and dozens of other journals and magazines as well as several out of print books It is a valuable addition to the American poetry library Sam Hamill in his Introduction to this volume writes These poems written over the past thirty years most often contain a narrative thread that leads into an awakening insight a meditative revelation that arrives not with a shock but with a sigh or a moment of stillness capturing an essence that is pure poetry that moment between image making and philosophy between the intimate whisper of truth and the song's need to be sung

The Truth About Watergate Nick Bryant, 2024-02-22 A delusion is a strong belief or conviction despite superior evidence to the contrary The Watergate delusion embraced by millions is that swashbuckling Bob Woodward and the left confronted the malevolent Nixon administration as it cast a sinister pall over America and slayed it with the lance of truth thereby saving democracy But the actual evidence demonstrates that Watergate was not a shining example of democracy and Bob Woodward's place among the pantheon of journalistic immortals is a grift One of the grand deceptions of Watergate is that Nixon's enemies on the left razed his presidency but it was actually his enemies on the right

the far right who initially had the means motive and opportunity And although Bob Woodward and Carl Bernstein told numerous lies throughout their Watergate reporting Woodward s Big Lie was that he didn t meet Alexander Haig until 1973 As The Truth About Watergate takes the reader on a guided tour of the extraordinary lies and liars of Watergate it demonstrates that Woodward s fabrication about Haig has seismic implications If Woodward s Big Lie about Haig had been exposed then the synergistic mythologies of Bob Woodward and Deep Throat would have been shattered and swept away by gusts of veracity The Washington Post has scorned prior Watergate revisionist books like Silent Coup The Removal of a President as a conspiracy theory but The Truth About Watergate shows The Washington Post has fervent utilitarian motives for banishing Silent Coup to the conspiracy theory ghetto
