Scott Bicentenary Essays Alan S. Bell, 1973-01-01 A collection of essays to help you understand and appreciate the works of Sir Walter Scott *Scott Bicentenary Essays* Alan S. Bell, 1973 **Scott bicentenary essays** Sir Walter Scott Bicentenary Conference. [1971. Edinburgh.], 1973 **The Forms of Historical Fiction** Harry E. Shaw, 2018-03-15 No detailed description available for The Forms of Historical Fiction *Gendering Walter Scott* C.M. Jackson-Houlston, 2017-04-21 Employing gender as a unifying critical focus Caroline Jackson Houlston draws on the full range of Walter Scott's novels to propose new links between Scott and Romantic era authors such as Sophia Lee Jane Porter Jane Austen Sydney Owenson Elizabeth Hands Thomas Love Peacock and Robert Bage In Scott Jackson Houlston suggests sex and violence are united in a central feature of the genre of romance the trope of raptus the actual or threatened kidnapping of a woman and her subjection to physical or psychic violence Though largely favouring the Romantic period drive towards delicacy of subject matter and expression Scott also exhibited a residual sympathy for frankness and openness resisted by his publishers especially towards the end of his career when he increasingly used the freedoms inherent in romance as a mode of narrative to explore and critique gender assumptions Thus while Scott's novels inherit a tradition of chivalric protectiveness towards women they both exploit and challenge the assumption that a woman is always essentially definable as a potential sexual victim Moreover he consistently condemns the aggressive male violence characteristic of older models of the hero in favour of restraint and domesticity that are not exclusively feminine but compatible with the Scottish Enlightenment assumptions of his upbringing A high proportion of Scott's female characters are consistently more rational than their male counterparts illustrating how he plays conflicting concepts of sexual difference off against one another Jackson Houlston illuminates Scott's ambivalent reliance on the attractions of sex and violence demonstrating how they enable the interrogation of gender convention throughout his fiction **British Fiction and the Production of Social Order, 1740-1830** Miranda J. Burgess, 2000-10-26 In *British Fiction and the Production of Social Order* Miranda Burgess examines what Romantic period writers called romance a hybrid genre defined by a shared role in the negotiation of conflicts between political economy and moral philosophy Reading a broad range of fictional and non-fictional works published between 1740 and 1830 Burgess places authors such as Richardson Scott Austen and Wollstonecraft in a new economic social and cultural context She explores the interaction between writing and the formation of community particularly in relation to issues of legitimacy and gender Burgess argues that the romance held a key role in remaking the national order of a Britain dependent on ideologies of human nature for justification of its social economic and political systems **British Romanticism and Continental Influences** P. Mortensen, 2004-02-03 During the 1790s and 1800s cultural critics became convinced that Britain was being inundated by pernicious literary translations imported from the European Continent *British Romanticism and Continental Influences* discusses Romantic writers' complex and ambivalent responses to this threatening

literary invasion Confronted with foreign texts that seemed both attractive and repulsive Mortensen argues Romantic writers such as Wordsworth and Coleridge publicly distanced themselves from European sensationalism even as they assimilated and revised its conventions in their own writing

House of Fiction Phyllis Richardson,2017-07-27 From the gothic fantasies of Walpole's Otranto to post modern takes on the country house by Kazuo Ishiguro and Ian McEwan Phyllis Richardson guides us on a tour through buildings real and imagined to examine how authors' personal experiences helped to shape the homes that have become icons of English literature We encounter Jane Austen drinking too much wine in the lavish ballroom of a Hampshire manor discover how Virginia Woolf's love of Talland House at St Ives is palpable in *To the Lighthouse* and find Evelyn Waugh remembering Madresfield Court as he plots Charles Ryder's return to *Brideshead* Drawing on historical sources biographies letters diaries and the novels themselves *House of Fiction* opens the doors to these celebrated houses while offering candid glimpses of the writers who brought them to life

Romancing the Novel Margaret Bruzelius,2007 *Romancing the Novel* examines the ways in which romance forms characteristic of boys' books as exemplified in the novels of Scott Dumas Verne and Stevenson influence narratives not generally put in the same category both psychoanalytical accounts of the psyche and novels by authors as diverse as George Eliot Ursula Le Guin Joseph Conrad and W G Sebald Adventure has been most recently studied largely as a symptom of imperialism's ideological apparatus But as an intensely familiar story available from the earliest reading adventure conditions the narratable its influence is felt from the nursery bed to the analyst's couch By reading Maurice Sendak with Melanie Klein and Peter Rabbit with Daniel Deronda *Romancing the Novel* argues that the power and depth of the generic constraints of the adventure form have not been recognized simply because they are so ubiquitous Adventure fiction is not merely summer reading whose ephemeral effects dissipate but rather a pervasive code that exerts powerful effects on the imaginable

British Poetry and the Revolutionary and Napoleonic Wars Simon Bainbridge,2003 This book argues that poetry played a major role in the mediation of the Revolutionary and Napoleonic wars

to the British public and that the wars had a significant impact on poetic practices and theories in the Romantic period It examines a wide range of writers both canonical Wordsworth Coleridge and Byron and non canonical Smith Southey Scott and Hemans and locates their work within the huge amount of war poetry published in newspapers and magazines It shows that poetry was a crucial form through which what were seen as the first modern or total wars were imagined in Britain and that it was central to the cultural and political debates over the conflict with France While the Revolutionary and Napoleonic wars compelled poets to re examine their roles it was poetry itself which produced a major transformation of the imagining of war that would be influential throughout the nineteenth century **Sentimental Masculinity and the Rise of History,**

Ross,2006-01-01 Despite the negative criticism directed at its sentiment its heartlessness its superficiality the picturesque remained in both art and fiction of Victorian England a mode of seeing that even the greatest of the artists and novelists relied upon from time to time so that their viewers and readers could rejoice in the instant recognition of place and character distinctly limned and sometimes subtly enough to elicit sympathy Preface After briefly tracing the development of the theory of the picturesque in the eighteenth century writings of William Gilpin Sir Uvedale Price and Richard Payne Knight and examining how nineteenth century novelists accommodated aesthetic theory to the practice of fiction Ross focuses on the use of the picturesque in the works of Sir Walter Scott Charlotte Bronte Charles Dickens George Eliot and Thomas Hardy The persistence of the picturesque through novels ranging from *Waverley* to *Jude the Obscure* and in writers like Dickens and Eliot who had little respect for its conventions attests to its strength and attraction in nineteenth century literature **The Shaping of Southern Culture** Bertram Wyatt-Brown,2001 Extending his investigation into the ethical life of the white American South
