Scottish Life And Society:

An Introduction To Scottish Ethnology Alexander Fenton, Margaret A. Mackay, 2013-08-06 The publication of *An Introduction to Scottish Ethnology* sees the completion of the fourteen volume *Scottish Life and Society* series originally conceived by the eminent ethnologist Professor Alexander Fenton. The series explores the many elements in Scottish history, language and culture which have shaped the identity of Scotland and Scots at local, regional and national level, placing these in an international context. Each of the thirteen volumes already published focuses on a particular theme or institution within Scottish society. This introduction provides an overview of the discipline of ethnology as it has developed in Scotland and more widely, the sources and methods for its study and practical guidance on the means by which it can be examined within its constituent genres based on the experience of those currently working with ethnological materials. Theory and practice are presented in an accessible fashion, making it an ideal companion for the student, the scholar and the interested amateur alike.

Scottish Life and Society: Scotland's domestic life Susan Storrier, 2000 Examines the variety in Scottish home life and considers what has shaped its society. This book in fourteen volumes aims to examine the interlocking strands of history, language and traditional culture within an international context and their contribution to the making of a national identity.

Scottish Life and Society: Scotland's buildings Geoffrey Stell, 2000 In recent times there has been a substantial flow of Scottish books on architectural themes. *Scotland's Buildings* goes further than these. The concept of buildings is taken to include structures built for any functional purpose. The perspective of the volume is thus very wide, which gives it a unique quality.

The Individual and Community Life John Beech, Mark Mulhern, 2005 This major project comprises fourteen thematically arranged volumes. The aim of the Compendium is to examine the interlocking strands of history and traditional culture that go into the making of a national identity in an up to date synthesis of the current state of knowledge. By bringing together information from a variety of sources, the Compendium not only provides a digest of topics but also points towards areas for new investigation. The Compendium concentrates upon the present and the historical period and does not generally deal with prehistory, although for certain themes such as the development of agriculture and buildings, early evidence is taken.
