*Highland superstitions connected with the Druids [&c.].* Alexander MacGregor, 1901      **Scottish Life and Character in Anecdote and Story (Classic Reprint)** William Harvey, 2017-12-18 Excerpt from *Scottish Life and Character in Anecdote and Story* Scotland is proverbial for its wit and humour and the writer who seeks to illustrate Scottish character with stories drawn from the everyday life of the people is not likely to lament a lack of apposite material Since Dean Ramsay issued his evergreen and unexcelled Remini scences many volumes on the subject have been published but these for the most part are indiscriminate collections of jokes which while they bear witness to the truth that Scotland is a land of humour do little or nothing to illustrate native character The present writer aims at supplementing the work of the genial Dean of Edinburgh rather than at following the col lectors of concocted witticisms His endeavour is to illustrate the main features of our Scottish life and he gives the anecdotes exactly as he found them without comment or observation leaving them to speak for themselves The shrewdness the wit and the humour of the nation are treated in the volume which the author hopes will form a not altogether valueless contribution to the literature of anecdote and story that pertains to the Land O Cakes and will afford pleasure as well to the Scot at home as to the Scot abroad About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      **The Life of Flora**

**Perspectives on Social Identities** Alyson Brown, 2009-01-14 This collection of work on the theme of identities was the result of a conference held in the spring of 2005 at Edge Hill under the auspices of The Centre for Liverpool and Merseyside Studies Whilst a significant proportion of the research focused on Liverpool and the North West the theme of identities was sufficiently broad to entice scholars from diverse and varied fields This collection therefore reflects the range of work presented and discussed at the conference and the multi layered and multi faceted nature of identity Contributors to this edited collection examined the concept of identity in Britain through a range of historical perspectives concerning themselves primarily with the later modern period They reflect the extent to which nineteenth and twentieth century British social cultural and political change has given rise to pluralist fragmented and fractured identities and highlight the extent to which

class gender religious and institutional frameworks have shifted continually This publication will therefore be of interest to those working in diverse fields but who share an interest in the importance of identity as a decisive cultural social economic and political determinant Questions of identity have centred a good deal of debate in the social sciences especially since the reception of Foucault's work in the English speaking world in the last couple of decades This has often taken a theoretical form Attempts to link theory with analytical practice have been strongest in the field that might be characterised as the politics of identity At any rate this has provided an important instance of theoretical and practical conflict Here the focus of the debate has been around questions of gender nation language economy security and race It has tried to clarify crucial divisions in the analysis of identity as between explanatory and constitutive models and between positivist and post positivist procedures For the most part these intense and extensive concerns have passed by largely unnoticed among historians practising in Britain in the well found but conventional idioms of political and social history What this conference volume seeks to do is to help redress the deficit to domesticate some of the theoretical and polemical exchanges around identity into a world of practical yet conceptually aware historical work This is a difficult but surely worthwhile task to broach various imaginaries of identity issues of identitarian politics and questions of identity formation on a series of relatively familiar historical contexts Of course no selection of subjects for practical research in this way can be exhaustive The group of essays offered here is sufficiently wide and occasionally gratifyingly unexpected at least to begin the job to stimulate others and most importantly to interject theoretical concern into historical fields sometimes lacking it Ten essays are included together with the editor's introduction The pieces are bound together by a common strategy not a shared empirical territory They range from studies of gendered identity formation to regional identities formed around seaside resorts to empirical questions of class and capitalism and their identitarian politics to historical analysis of mourning and on to language nationality deafness motherhood and their inflection in identity in past time This well edited combination of shared conceptual purpose and variety of empirical form seems to me to work well The book will be widely used in a variety of historical fields not least in those which have been the most resistant to recent theoretical innovations in the social sciences Keith Nield Editor SOCIAL HISTORY This is a fascinating and wide ranging collection of essays linked by the over riding theme of identity While primarily historical in their focus the essays will be of interest to more than just historians They raise a variety of interesting conceptual and theoretical issues from for instance the significance of the staymaker in the formation of eighteenth century female identity to the relationship between regional identity and late nineteenth and early twentieth century Lancashire seaside resorts Sam Davies Professor of History School of Social Science Liverpool John Moores University *Annals, Anecdotes and Legends: A Chronicle of Life Assurance* of the Bank of England John Francis, 2019-12-09 In *Annals Anecdotes and Legends A Chronicle of Life Assurance* John Francis intricately weaves a narrative that traverses the evolution of life assurance from its earliest manifestations to its contemporary significance Employing a rich tapestry of anecdotes and vivid

legends this work not only highlights the historical milestones of life assurance but also reflects on its implications in the human experience Francis's literary style is both engaging and informative seamlessly blending historical documentation with narrative flair offering readers an intellectual yet accessible exploration of a crucial component of financial security in society John Francis whose tenure at the Bank of England provides him with profound insights into the financial sector draws upon a wealth of knowledge from both historical records and personal experiences His background in banking and finance informs his analysis while his passion for storytelling enriches the narrative Through his meticulous research and keen observation Francis underscores the cultural and social impacts of life assurance thereby contextualizing its relevance in both the past and present Readers seeking a blend of history finance and human interest will find *Annals Anecdotes and Legends* an indispensable resource This book not only illuminates the journey of life assurance but also prompts reflection on its role in shaping personal and collective security For scholars practitioners and the general public alike this chronicle stands as a testament to the intertwining of life risk and reassurance in making informed decisions
